CHAPTER I. FORMS OF EVIL: BIBLE, RIGHT, CONSPIRACY THEORIES AND THE NEW AGE.

Why don't these monsters who accuse all the thousands of indigenous ethnic groups and all the indigenous people of each ethnic group of being cannibals talk about how their nefarious god says in his word (the Bible) that he will make parents become cannibals and devour their own children to punish them?

Leviticus chapter 26, verses 26, 27 and 28: If you still do not listen to me, but proceed against me in opposition, I will proceed against you in anger, and will punish you seven times for your sins. And you will eat the flesh of your sons, and you will eat the flesh of your daughters.

Deuteronomy Chapter 28, verse 53: And you shall eat the fruit of your womb, the flesh of your sons and your daughters, which the Lord your God gave you, in the place and in the trouble with which your enemy will distress you.

Jeremiah chapter 19, verse 9: And I will make them eat the flesh of their sons and the flesh of their daughters, and each one will eat the flesh of his friend, in the siege and in the trouble with which their enemies and those who seek their lives will press them.

Why do these monsters who accuse all the thousands of indigenous ethnic groups and all the indigenous people of each ethnic group of infanticide, who claim to be pro-life for being against abortion, defending zygotes and embryos that do not feel, While they support the murder of indigenous children who do feel, and who say that in cases of rape abortion the child (referring to zygotes, embryos and fetuses alike) is not to blame, they do not talk about how their nefarious god ordered the killing of children and kill pregnant women?

Isaiah chapter 13, verse 18: With bows they will sweep away the young men, they will not have mercy on the fruit of the womb, nor will their eyes have mercy on the children.

Hosea chapter 13, verse 16: Samaria will be desolate, because she rebelled against her God; They will fall by the sword; Their children will be dashed to pieces, and their pregnant women will be cut open.

Psalms chapter 137, verse 9: Blessed is he who takes and dashes his little ones against the rock.

Why don't these monsters who accuse all indigenous ethnic groups and all indigenous people of each ethnic group of raping women in groups and of being sexist talk about how their nefarious god in the Bible commands them to rape women and promotes sexism?

Isaiah 13, verses 16 and 17: Their children will be dashed before them; Their houses will be looted, and their women raped. Behold, I awaken the Medes against them.

1 Timothy chapter 2, verses 11, 12 and 13: Let the woman learn quietly, with all obedience. I do not allow the woman to teach or to exercise authority

over the man, but rather to remain silent. Because Adam was created first, then Eve.

1 Corinthians chapter 14, verses 34 and 35: Let your wives be silent in the congregations; because it is not permitted for them to speak, but to be subject, as the law also says. And if you want to learn something, ask your husbands at home; because it is indecorous for a woman to speak in the congregation.

Why don't these monsters who accuse all indigenous ethnic groups and all indigenous people of each ethnic group of making human sacrifices talk about the part of the Bible where their god accepted that Jephthah sacrificed his own daughter and did nothing to prevent it?

Judges chapter 11, verses 30 and 31: -And Jephthah made this promise to the Lord: If you give me victory over the Ammonites, I will offer you as a burnt offering to the first one who leaves my house to receive me when I return from the battle.

Judges chapter 11, verses 32 and 33: - Jephthah invaded the territory of the Ammonites, and attacked them, and the Lord gave him victory. Jephthah killed many enemies, and conquered twenty cities between Aroer, Minith, and Abel-cheramim. In this way the Israelites dominated the Ammonites.

Judges chapter 11, verses 34 and 35: - When Jephthah returned to his house in Mispah, his only daughter came out to greet him dancing and playing tambourines. Apart from her, he had no other children, so, when he saw her, he tore his clothes in desperation and said to her: "Oh, my daughter, what great pain you cause me!" And you yourself are the cause of my misfortune, because I have made a promise to the Lord, and now I have to fulfill it!

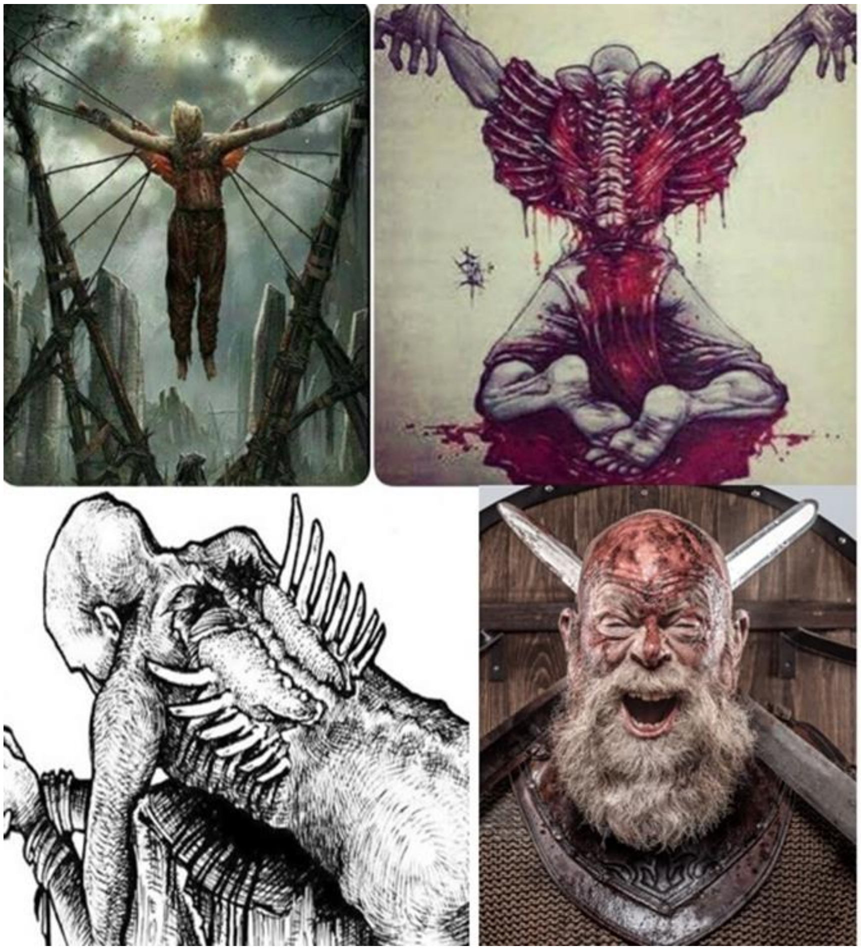
Judges chapter 11, verses 38 and 39: - Jephthah granted her two months, and during that time she walked through the mountains with her friends, crying because she was going to die without having married. After that time he returned to his father, and he fulfilled the promise he had made to the Lord. Jephthah's daughter died without having had sexual relations with any man.

Also, the majority is a coward, because if I mention these atrocities that the Bible contains, many answer me that this is not written in the Bible, so I challenge them to look for these chapters and verses in the Bible for themselves, and the very cowards don't do it.

Another story that they always have is that the parts of the Bible that suit them such as the story of Adam and Eve, Noah's boat, the story of the angels, the story of the demons, the story of the devil, and the story of the life and miracles of Jesus Christ, they say they are just as they are written.

But the parts of the Bible that do not suit them like the ones I show, they say are metaphors or symbolic. It is always like this that what suits them in the Bible is as it is written, and what does not suit them are metaphors or symbolic.

Why don't these monsters talk about how the white ethnic groups of Europe like the Celts and the Vikings whom they admire so much also made human sacrifices to their gods like the Blood Eagle of the Vikings?



The Blood Eagle sacrifice practiced by the Vikings. Images recovered from the Internet.

These criminals always generalize and put all indigenous ethnic groups and all indigenous people of each ethnic group in the same bag. They imply that all the thousands of indigenous ethnic groups and all the indigenous people of each ethnic group made human sacrifices, practiced infanticide, raped women in groups and that they were cannibals.

These monsters imply that the indigenous people of the present have to pay for what other indigenous people did in the past.

But, they are the same monsters who say that they are not to blame for all the damage that their colonizing ancestors did to the indigenous people in the past, and that both Creoles and mestizos descend from the colonizers because they are a product of colonization.

Now let's look at the comment of a disastrous Brazilian who is so abundant like plagues in Brazil in a Brazilian forum:

Sh3lld3r: -In my opinion, the United States was the country that treated the Indians most correctly. You have to be very retarded to pay attention to a society that has not managed to get out of the stone age. Curiously, Africa and South America are the ones that pay the most attention to Indians, it is not surprising that they are considered third worlders, maintaining this idiotic thinking.

O EUA foi o pais que tratou mais certo os indios ao meu ver.

Sentaro a puia, sobrou meia duzia q ficaro pianinho e se adaptaro ao mundo contemporaneo. E preservam entre eles a cultura, sem vomitar na orelha de ninguem.

Ai fica vagabundo com mimimi de "vamos preservar a cultura indigina". A vai tomar no cu, tem q ser muito retardado pra dar atenção para uma sociedade que não conseguiu sair da idade da pedra.

Qualquer um sabe o que acontece com uma sociedade que não consegue avançar culturalmente. É fadada a extinção. Se discorda, vai estudar um pouquinho de historia, e se é vagabundo e não gosta de estudar, joga 30 minutinhos de Spore. Interessante é que Africa e Sul América são os que mais dão atenção aos indios, não é atoa que são considerados terceiro mundo, mantendo esse pensamento imbecil.

When this criminal supports what the United States did to the natives (indigenous people), the bastard is supporting the massacres, torture and rape that the United States government committed against the indigenous people, where the United States army murdered indigenous children, raped indigenous women and expelled indigenous people from their territories.

This is what I have always said that the United States, the CIA, the OEA, the FBI and the USAID of the United States that pretend to help the indigenous people are related to the genocide and massacres of indigenous people throughout the continent to the present.

And these monsters are the same ones that promote conspiracy theories that make the majority look like innocent victims of elites, when the only victims of the elites in the present continue to be the indigenous people, not the majority.

And when this damn monster writes that the indigenous people live in the stone age, he means that the indigenous people live in harmony with nature, that they do not live in cities full of pollution and garbage, that they do not pollute the rivers and that they do not they only think about money.

This cursed monster also speaks of the concept of civilization, progress and development of the damned sick society, where they consider civilization to contaminate and destroy the environment, where they consider progress to contaminate the rivers and the sea with garbage and shit, and where they consider development to be selfish, individualistic trash who only cares about money.

For me: Facebook, Twitter and Instagram have deleted my accounts and comments for attacking nefarious people who deserve it, and although I can publish videos on YouTube, YouTube censors me for commenting on videos for comments that I had made on videos of many YouTubers disastrous.

But: Facebook, Twitter, Instagram, Google, and YouTube allow these indigenous-hating monsters to make indigenous-hating comments, they don't delete those comments, they don't delete those accounts, and those comments appear in Google search results.

Therefore, Facebook, Twitter, Instagram, Google and YouTube are complicit in all the murders, injustices and massacres that indigenous people suffer today.

Facebook, Twitter, Instagram, Google and YouTube are instruments of genocide and extermination against indigenous people, used by governments and elites who want to eliminate them.

I know that there are homosexual, lesbian, bisexual and transsexual people who believe in the god of the Bible and in his son Jesus Christ, and pray to them and worship them, this is absurd, because that god says that homosexuals and effeminates will not enter into the kingdom of god, and not only that, this god also orders homosexuals and effeminate people to be stoned to death, making him a homophobic god and totally against the LGBT movement.

Leviticus chapter 20, verse 13: If anyone lies with a man like those who lie with a woman, both have committed an abomination; They must certainly die. His blood fault be on them.

Leviticus chapter 18, verse 22: You shall not lie with a man like those who lie with a woman; it's an abomination.

Romans chapter 1, verses 26 and 27: Therefore God gave them over to shameful passions. In effect, women exchanged natural relationships for those that go against nature. Likewise, men left natural relationships with women and became inflamed with lustful passions toward each other. Men with men committed indecent acts, and in themselves received the punishment that their perversion deserved.

1 Corinthians chapter 6, verse 9: Do you not know that the unrighteous will not inherit the kingdom of God? Do not be deceived: neither the fornicators, nor the idolaters, nor the adulterers, nor the effeminate, nor those who have sex with men.

1 Timothy chapter 1, verse 10: for immoral people, homosexuals, kidnappers, liars, those who swear falsely, and for anything else that is contrary to sound doctrine.

As you have already read in these extracts from the Bible, homophobia is promoted in both the Old Testament and the New Testament, and as long as there are homophobic people who believe in the god of the Bible and in Jesus Christ, homophobia will continue to be justified with these parts of the Bible.

The crazy people who invent conspiracy theories always imply that all homosexuals and bisexuals are pedophiles, they affirm that homosexuality is part of the agenda of the New World Order, because being religious fanatics they are also homophobic.

All of this makes it clear that behind the conspiracy theories are the Right and the Neoliberals who are anti-rights, promoting them to benefit their interests.

Also when they refer to homosexuality as a sexual deviation it is stupid. Two adults, whether a woman and a man, two men or two women can do whatever they want with their bodies.

Sexual deviance are pedophilia or zoophilia. Not what adults do with their bodies in the private sphere.

But, they never generalize or put all heterosexuals in the same bag because there are some cases of heterosexual fathers who abuse or rape their daughters.

Another thing these conservative Christian clowns who make up conspiracy theories say is that the LGBT movement is part of a plan to reduce the world's non-indigenous population. When the non-indigenous population continues to overpopulate the world and increases more every year.

The only ones that governments and elites have shown that they want to reduce, exterminate and completely disappear are the indigenous people, not the majority.

Furthermore, scientifically, homosexuality is as natural as heterosexuality, just as someone is born heterosexual and does not become heterosexual, so also someone is born homosexual and does not become homosexual. In all human races and in all ethnicities there have always been heterosexuals, homosexuals and bisexuals.

When I was New Age in my past, I remember one of those clowns who gives New Age therapies, who claims to be clairvoyant, connected to the Pleiadians and the Arcturians, who said that Donald Trump and Putin are beings of light: say the same thing that homosexuality is a plan by the elites to reduce the world population.

This is why Christians and New Age promote the same conspiracy theories invented by conservatives. Although at one time they acted and did theater, they were never enemies.

And what they say about the elites wanting to turn everyone into homosexuals is stupid because people are already born the way they are. It's like when they attack sexuality and affectivity classes because they say they want to turn students into homosexuals.

In sexuality and affectivity classes, students are never told to become homosexuals, what they are told is to respect homosexuals, but these people do not understand the difference between respect and conversion.

Stating that all homosexuals are pedophiles is as absurd and perverse as stating that all heterosexuals are pedophiles. When someone is a pedophile, it has nothing to do with their sexual orientation or their sex.

The fact that there are some cases of homosexuals who are pedophiles never means that all homosexuals are pedophiles, In the same way, the fact that there are cases of heterosexuals who are pedophiles never turns all heterosexuals are pedophiles.

But, in addition to being a homophobic god, a prophet of this god called David also says that he hates the blind and the lame, and sends to harm them, and as always this seems perfect to this god, because David was one of his prophets most beloved by this god.

2 Samuel chapter 5, verse 8: And David said that day, Whoever wants to hurt the Jebusites, let him go up through the tunnel of water and come to the lame and the blind, whom David's soul hates. That is why it is said: Neither the blind nor the lame will enter the house.

The fact that this prophet of this god hates people just for having a physical disability and orders that they be harmed is Social Darwinism, Social Darwinism consists of the strongest subduing and harming the weakest, and is based on the Naturalistic Fallacy or Fallacy of Appeal to Nature.

Social Darwinism was promoted by Hitler and the Nazis, and is currently promoted by the neo-Nazis, by Viking paganism, by The Church of Satan founded by Anton LaVey, by The Temple of Set founded by Michael Aquino, by the ONA (The Order of the Nine Angles) and by Right-wing atheists.

These people, in their ignorance, think that Social Darwinism is the opposite of Christianity because they confuse not harming the weakest and not harming those who have never harmed us with not defending themselves, with forgiving everything or with turning the other cheek, when they have never meaning the same thing.

What they do not understand in their ignorance is that the god of the Bible and his prophets would very much agree with the Social Darwinism that they promote, and that they, like Christianity, are part of the Right, therefore, they serve the same enemy and they are the same problem.

It is even known that the Nazis despised dwarfs and even the Nazi doctor Josef Mengele carried out experiments with dwarfs known as the dwarves of Auschwitz, whom this nefarious and disgusting being called Josef Mengele called phenomena in a derogatory way.

The Bible also encourages contempt for dwarf people by prohibiting them from approaching to offer offerings to this god, which makes it clear that for this god and his prophets the dwarf people were inferior in rights.

Leviticus chapter 21, verses 17, 18, 19 and 20: Speak to Aaron and say to him: None of your descendants throughout their generations who has any defect will come forward to offer the bread of their God. For no man in whom there is a defect will come near; a blind man, or a lame man, or a mutilated man, or a crippled man, or a man who has a broken foot or a broken hand, or a hunchback, or a dwarf.

The belief that light and therefore the color white represent good, and that darkness and therefore the color black represent evil, is the root of racism, and consciously or unconsciously in people this belief influences racist prejudices they may have.

Therefore, people with this belief think that black cats or any black animal such as crows, according to their superstition, bring bad luck, and that white animals such as the white dove represent peace and good.

During the time of colonization, Europeans believed that since Africans were black and indigenous people were dark, it was because they descended from Cain, to whom, as punishment, that god caused his descendants to be born with dark skin.

Also for monotheistic religions in their stupidity, worshiping other gods means the same to them as worshiping the devil, that is why they believed that these people had dark skin because they worshiped other gods, which for them was the same as the devil, that for that reason they were inferior and deserved to be enslaved.

At present, the New Age and its sects that believe in angels, extraterrestrials who visit us or ascended masters believe the same thing, that light represents good and darkness represents evil, and the Gnostic religions of the past that were the same as the New Age believed the same, what many do not know is that this is a belief that also comes from the Bible.

John chapter 1, verse 5: The light shines in the darkness, and the darkness did not prevail against it.

John chapter 3, verse 19: And this is the condemnation: that light has come into the world, and men loved darkness rather than light, because their works were evil.

John chapter 11, verses 9 and 10: Jesus answered: Does not the day have twelve hours? He who walks by day does not stumble, because he sees the light of this world; But he who walks at night stumbles, because there is no light in him.

John chapter 12, verse 36: While you have the light, believe in the light, that you may be children of light.

Ephesians chapter 5, verse 8: For once you were darkness, but now you are light in the Lord; walk as children of light.

1 John chapter 1, verse 5: And this is the message which we have heard from him and which we proclaim to you: God is light, and in him there is no darkness.

The Quran is made to believe the same thing, that light and darkness are enemies, and that light represents good and darkness represents evil.

Sura chapter 5, verse 44: We have revealed the Torah, which contains Guidance and Light.

That is why the Nazis of the past and the neo-Nazis of the present think that white men, having lighter skin, are superior and represent good by having skin more related to light, and that black men, having lighter skin, are superior and represent good by having skin more related to light. darker according to them they are inferior and represent evil by having skin more related to darkness.

I have always thought that associating one color with good and another color with evil generates racism and division subliminally, just as associating one sex with good and the other with evil generates sexism and division subliminally.

It is known that Mithraism was based on Zoroastrianism and Mazdeism, Zoroastrianism and Mazdeism gave rise to duality by considering light and darkness as enemies, and opposites that are in battle, this is where the belief that light symbolizes good and darkness symbolizes evil.

Also, Christianity inherited this same duality, and of course that has a certain racist meaning and could even serve as inspiration for racist ideologies of the Right such as Nazism and neo-Nazism, In other cultures, however, light and darkness were considered complements and never enemies.

Before Judaism, Zoroastrianism was the first monotheistic religion (believer in one god), Zoroastrianism teaches that light represents good and darkness represents evil, which has a racist meaning, and that, in addition, light and darkness are in war, before Zoroastrianism, light and darkness were seen as complements and never as enemies.

According to Zoroastrianism, the Yazatas were messengers of the only god they consider true called Ahura Mazda, from the Yazatas is where the idea to invent angels is taken, Although Ahura Mazda was a god of Persian origin who, as we know, the Persians believed in many gods, Ahura Mazda was considered a god of light and in Zoroastrianism light represents good, Ahura Mazda was at war against Ahriman who represents darkness and according to them darkness is evil.

This is how we realize that Zoroastrianism was the one that disgraced the world by serving as inspiration for the creation of Judaism, Christianity and Islam and giving rise to racism.

There was trade between the Persians and the Vikings, and it is obvious that if there was trade between them, There also had to be cultural exchange, it is said that the cruel and bloodthirsty Vikings dressed their women in the best silks of Persian origin.

The Persians and Vikings have an Indo-European origin, this relates them to the Hindus, the belief in karma was created in Hinduism to justify the high castes exploiting the low ones, but apparently it was created when the Aryans invaded India and created In this caste system, it was claimed that the upper castes were in power because of the good they did in their past lives and that the lower castes suffered poverty, famine and marginalization because of the harm they did in their previous lives.

Apparently these cultures are based equally on Social Darwinism, Naturalistic Fallacy or Fallacy of Appeal to Nature, that is why the New Age, uses these fallacies and idealizes nature, they confuse people by making them believe that protecting and honoring nature is the same as idealizing it or the Naturalist Fallacy.

When the Aryans invade India, they use the word dasia, which means black, in a derogatory way to refer to the conquered people. The Aryans came from Iran, which was part of the Persian empire and where Islam currently predominates. In Persian culture, the Persian king had to be the best warrior and the best hunter.

The Gnostics were somewhat similar to the New Age since they mixed Christianity with paganism and with Eastern religions such as Buddhism, hence some Gnostic religions such as the Cathars also believed in reincarnation, apparently the New Age is not so New Age because it already existed since ancient times.

Also, Gnostic religions believed that light and darkness are enemies and are against, this was taken from Zoroastrianism and Christianity.

Hitler and the Nazis, in addition to venerating the Vikings and saying that in Atlantis there existed a race of Aryan gods who lost their powers when mixing with other races, they also believed that the Cathars had the cup of the Holy Grail and were looking for that cup, in fact Otto Wilhelm Rahn was a Nazi follower of Catharism.

The correct interpretation for light (white) and darkness (black), is never to believe that they mean good and bad, nor that they are opposites, nor enemies, the correct interpretation for light and darkness is active principle and passive principle, day and night, fire and water, masculine and feminine, complements that need each other and never enemies.

Also light (white) and darkness (black) represent heat and cold, too much heat kills and too much cold kills, a balance is needed between both, and they also represent happiness and sadness.

Happiness in excess is bad because it makes people narcissistic, insensitive to the pain of others and selfish, and sadness in excess is bad because it causes depression and suicide, happiness in excess and sadness in excess kill equally, a balance is needed between the two, but today there is no such balance, the New Age (New Age) promotes toxic positivism.

Monotheistic religions manipulate people by scaring them with their belief in hell. It is clear that hell does not exist, but the most perverse god is the one in which the majority believes, he condemns people to hell just for not believing or for having other beliefs, a truly good god would only care that a person does not cause pain or suffering to sentient beings, he would not care if they believe in him or not.

These religions and their books use psychological coercion, scaring people with those stupid things about demons, the devil and hell that by the way traumatize children and make them have nightmares, guilt, fear of the dark and not sleep alone.

The monotheistic god (Jewish, Christian and Islamic) hates all of us who do not believe in him, that god who is conceited, narcissistic and egocentric, sends to hell (which does not exist) all those who do not believe in him and do not they adore, although we do not harm lives that feel.

They cause guilt in the part of when a minor disobeys their parents or questions their religious beliefs, making them feel hated by that god who, just by questioning what is the same as thinking and disobeying, that fictional character who is that god commands people to a hell to burn for all eternity, a hell that does not exist, just as the devil does not exist either, these beliefs traumatize children.

When I was a child there was a religious fanatic who came to my house to talk only about the devil, demons, possessions and scares, and that traumatized me because I couldn't sleep alone, I felt panic about the darkness and the same suggestion of hearing sounds in the window or auditory hallucinations due to fear when trying to sleep alone.

Furthermore, these beliefs in hell cause guilt even in the area of sexuality since they present sexuality as something immoral or impure.

In the Bible this stupid belief of hell is promoted in the New Testament by Jesus Christ who, as he himself made it clear, is the son of the god of the Old Testament because he himself says that his father is the same god of Moses and Abraham, in both canonical gospels and apocryphal gospels.

Matthew chapter 5, verse 22: But I say to you that anyone who is angry with his brother will be liable to judgment; and whoever says to his brother, Raca, will be guilty before the council; and whoever says, 'You fool,' will be exposed to the fire of hell.

In this previous extract from the Bible it is seen how Jesus Christ, in addition to promoting the belief in hell, also makes people believe that getting angry is bad, many people think that toxic positivism is something that has its origins in the New Age and its sects, but in reality toxic positivism is something that Jesus Christ taught and that is why it is also part of Christianity.

Anger is an important emotion when used for good because it allows us to fight against injustice, it allows us to fight for the rights of others, and it allows us to defend our own rights when we suffer injustice.

Therefore, contrary to what the New Age teaches and contrary to what Christianity teaches, anger is a good and important emotion since it allows us to take actions to put an end to the injustices suffered by others or by oneself, but, The teachings of Jesus Christ are as hippie as the teachings of the New Age.

Matthew chapter 18, verse 9: And if your eye causes you to stumble, pluck it out and cast it from you; It is better for you to enter life with one eye than, having two eyes, to be thrown into hell fire.

Matthew chapter 23, verse 33: Serpents, brood of vipers! How will you escape the hell's damnation?

Teachings of Jesus Christ such as loving your enemies, turning the other cheek, forgiving everything and not judging, which by the way the New Age movement is based on, enduring everything and participating with his disciples in the Passover where a lamb is sacrificed, are not teachings in favor of the victims, they are teachings in favor of those who harm the victims and therefore have a relationship with Social Darwinism, where those who harm the victims the weakest and submit them are defended by forgiving them everything, not judging their crimes and tolerating them committing crimes.

It is one thing not to judge someone who does what they want with their body and sexuality, as long as it never involves minors or animals of other species, and another thing is not to judge those who commit crimes such as murder, abuse, abuse or rape, when Jesus Christ mentions not judging he says it on a general level and since he says it on a general level, that includes not judging those who commit those crimes.

Not judging those who murder, those who abuse, those who mistreat and those who commit rape, is letting their crime go unpunished, is being an accomplice and therefore is being equally guilty. Jesus Christ taught people not to defend themselves by turning the other cheek or forgiving everything and therefore favors victimizers by teaching victims to submit to them.

It is immoral to tell someone who suffered bullying, abuse, torture, abuse or rape that they have to forgive everything or turn the other cheek. It is completely immoral to tell a mother whose minor child was raped or murdered that she has to forgive and turn the other cheek to the murderer or rapist, but these people in their ignorance think that the teachings of Jesus Christ are good.

By the way, these immoral teachings of forgiving everything or turning the other cheek of Christianity are the same of forgiving everything and enduring everything of Buddhism, and the same teachings of non-judgment and forgiveness of the New Age and its sects, They simply say different words and phrases to say the same thing.

For me, the ethical thing in psychological therapy is to talk about self-forgiveness and not try to force others to forgive. There are psychologists who fail in professional ethics by involving their religious beliefs inspired by Christianity, Buddhism or the New Age of forgiving everything and who parrot the story that forgiveness is healing.

If the patient wants to forgive on his own initiative, it is a respectable decision, but these psychologists should never put it in his head that he must forgive, nor impose their religious beliefs on patients regarding forgiveness.

Also in Christianity they make people believe that the life of a criminal and the life of his victim are worth the same, for me, the life of a victim has much more value than the life of a criminal, and for me the life of a criminal is worth less than the life of his victim.

For me: the life of people who always try not to cause pain and not make suffer beings with the capacity to feel that they have not been hurt nor can defend themselves has much more value than the life of humans who cause pain and make people suffer in a way intentional to beings with the capacity to feel that they have not been harmed nor can they defend themselves.

Leviticus chapter 19, verse 18: You shall not take revenge, nor bear a grudge against the children of your people, but you shall love your neighbor as yourself.

Proverbs chapter 20, verse 22: Do not say, I will repay evil for evil; wait on the Lord, and He will save you.

Matthew chapter 5, verses 39 and 44: But I say to you: Do not resist him who is evil; but whoever strikes you on the right cheek, turn the other also. But I say to you: Love your enemies, bless those who curse you, do good to those who hate you, and pray for those who despitefully use you.

Matthew chapter 7, verse 1: Judge not, lest ye be judged.

Mark chapter 11, verse 26: For if you do not forgive, neither will your Father who is in heaven forgive you your trespassess.

Luke chapter 6, verses 27, 28, 29, 30, 35 and 37: But to you who hear, I say: Love your enemies, do good to those who hate you; Bless those who curse you, and pray for those who slander you. To him who strikes you on one cheek, turn the other also; and from the one who takes away your cloak, do not deny him even your tunic. To anyone who asks you, give; And do not ask whoever takes what is yours to give it back to you. Love your enemies, then, and do good, and lend, expecting nothing from it; and it will be your great reward, and you will be children of the Most High; because he is kind to the ungrateful and the evil. Do not judge, and you will not be judged; do not condemn, and you will not be condemned; forgive, and you will be forgiven.

Ephesians chapter 4, verse 2: With all humility and gentleness, patiently bearing with one another in love.

If, on the one hand, Jesus Christ defends criminals who do harm, who cause pain and make them suffer, with those teachings of forgiving them everything, turning the other cheek, enduring everything, not holding a grudge against them and not judging them, which are practically the same teachings of Buddhism and the New Age.

On the other hand, Jesus Christ himself accepts that he did not come to bring peace and that he came to bring war, and in that he is absolutely right because his teachings promote intolerance against those who do not believe in him, his teachings caused the inquisition, and the persecution and discrimination until the present against those who do not believe in it and of those who do not believe the same as Judaism, nor the same as Christianity, nor the same as Islam, and its teachings caused the crimes committed against indigenous peoples from the beginning of colonization to the present.

Matthew chapter 10, verse 34: Do not think that I have come to bring peace to the earth; I have not come to bring peace, but a sword.

It is curious that the god of the Jews is similar in cruelty, insensitive and sexist to Hitler, the Nazis and the neo-Nazis, and it has always been made to believe that Nazism and the neo-Nazis are enemies of the Jews, but in reality they have the same ideals.

It is like Right-wing Satanism, whether that of Anton LaVey's Church of Satan or Michael Aquino's Temple of Set, promote Social Darwinism that is in favor of eliminating the weakest and that considers empathy as a weakness, demonstrating that Right-wing Satanism is the same machismo that considers empathy as a weakness and that teaches to harm the weakest to demonstrate power or manliness, which is the same as the machismo promoted by Judaism, Christianity and Islam.

Or like certain forms of Nordic or Viking paganism that promote racism, nationalism and machismo by believing that being cruel and insensitive is being strong or powerful and confusing that with defending yourself, with not forgiving everything and with not turning the other cheek.

When these forms of Paganism makes us believe that they are different from Judaism and Christianity, when in reality they promote the same machismo that makes man cruel and insensitive to the pain of others.

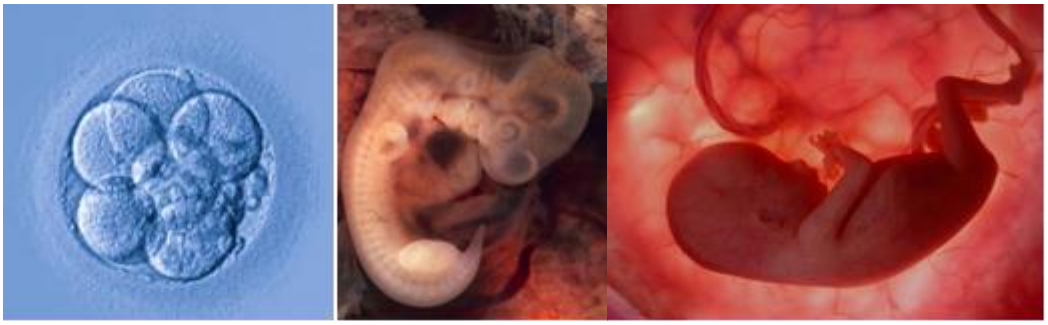
When they are not the same, because it is one thing to defend ourselves and harm those who harm us, and another thing is that cowardice of harming those who have not harmed us and cannot defend themselves, whether humans or animals of other species, It is that these forms of paganism make us believe that they are different from Judaism and Christianity, when in reality they promote the same machismo that makes man cruel and insensitive to the pain of others..

Sometimes the Right is also based on Viking paganism, as the ancient Vikings were white men who considered cruelty and callousness as power or strength.

For this reason, I do not understand how YouTubers like Dalas Review who claim to be atheists and are in favor of abortion support or simply justify politicians and right-wing parties like Donald Trump or VOX. Recently this Youtuber said that for him there was nothing wrong with supporting to Donald Trump, and on the other hand this Youtuber claims to be against pseudosciences, but those Right-wing parties that he supports promote pseudosciences and fallacies such as Naturalista through conspiracy theories.

Right-wing and Neoliberal or Libertarian parties harm human lives, harm the lives of animals of other species and harm the environment, and for this reason, I consider that their existence is a crime and that they should be prohibited in everyone, as a phrase says: - tolerance is a crime when evil is tolerated.

People with brains know the difference between a zygote, an embryo and a fetus. Zygote, embryo and fetus are not the same. Science says that a zygote and an embryo, whether from humans or animals of other species, do not feel as the nervous system has not been formed, and there is only the capacity to feel in the fetus stage.



Photographs showing the difference between a zygote, an embryo and a fetus. Recovered from: https://www.istockphoto.com/es/fotos/cigoto, https://es.wikipedia.org/wiki/Embrión and https://www.lavanguardia.com/ciencia/cuerpo-humano/20170608/423267502210/feto-reconoce-caras-utero.html

Science is very clear that zygotes and embryos, whether from humans or animals of other species, do not feel pain because the central nervous system (brain) or the pain nerve endings (nociceptors) are not formed and they do not suffer emotionally because they do not have Once the limbic system of the brain has been formed, the ability to feel in both humans and animals of other species only appears in the fetal stage where there is already a formed nervous system.

In my case, I only support ovular abortion of zygotes and embryonic abortion in both humans and animals of other species, it is better that a human or an animal of another species is not born than that they are born only to come to suffer or as it also happens in the case of humans so that they are born only to make others suffer, but, I do not support fetal abortion.

It must also be understood that, just as the zygote, embryo and fetus are not the same; Ovular abortion, embryonic abortion and fetal abortion are not the same.

Therefore, when nefarious characters like Agustín Laje Arrigoni, like the doctor who distributes hoaxes against vaccines, is from the Right and promotes perverse conspiracy theories called Chinda Brandolino, the nefarious Argentine journalist Eduardo Guillermo Feinmann, Right-wing YouTube channels like Fundación LIBRE speaks against abortion, believing that from conception there is a fetus formed with a nervous system that allows it to feel pain and suffer, they prove to be ignorant.

But, unfortunately, the media and television stations around the world are full of ignorant and perverse journalists like Eduardo Guillermo Feinmann, and most of the media in the world are trash for supporting the Right and Christianity.

The media in any country that supports the Right, Neoliberals or Libertarians and Christianity should be banned and their existence should be considered a serious crime.

These characters say that abortion, even if they are ovular and embryonic abortions where no pain or suffering is generated, according to them, are murders and an unacceptable crime, curiously we never see them think the same when it comes to cases of religious people who sexually abuse or They rape children, when it comes to religions that live full of wealth, while there are children dying of hunger, when it comes to the torture, abuse and murder of people from indigenous cultures caused by these nefarious parties of the Right and the nefarious of the Libertarians or Neoliberals who support them, and when it comes to the issue of the inquisition.

They defend zygotes and embryos that do not feel, and they do not care that a human or an animal of another species is born only to come to suffer.

The nationalism or patriotism that has been promoted in schools (primary) and colleges (secondary), and in the media, only divides people by country and creates conflict between people for living in different countries.

Right-wing atheists are the same evil as Christianity. A very famous atheist YouTuber is Dalas Review. Regarding atheism and being in favor of abortion, he is contrary to the Right, however, since his exes are feminists and he says that they filed false complaints against him, There are people on the Right who support him for that, and Dalas Review itself promotes the Right by only talking about the good things about Right-wing parties like Donald Trump or VOX, and never mentioning the bad things about those parties, while which in the case of the left never mentions anything good about it.

Screenshots of Facebook group titled: Right Atheists.

Right-wing Atheists, being on the Right and therefore being conservative, are supporting machismo, speciesism, slavery, environmental destruction, crimes against indigenous people and child abuse disguised as educating.

That is, they are doing exactly the same as the god of the Bible and they are following his word (the Bible), they are the same evil as that god.

The laws are also based on emotions because if you are a good person it is obvious that it will affect you emotionally if a child or an animal of another species or vulnerable populations such as indigenous people are harmed.

Christian dogmatism is the same as atheistic dogmatism, Sometimes atheists believe that the fallacy of appealing to emotions applies to values such as respecting lives that they feel (be they humans or animals of other species), when in reality this fallacy of appealing to emotions only applies to magical or supernatural beliefs, and not to ethics.

On the other hand, I do not understand why there are atheists who think that the rational and the emotional have to be opposites or enemies and they diminish the validity or belittle the emotional, when both the rational and the emotional are equally important and can go hand in hand, complement each other, without being opposites.

On the other hand, ethics never means the same as religious beliefs, if ethics were the same as religious beliefs then not raping would be a religion and not abusing would be a religion, but most humans do not reason this.

YouTube channels such as Dannan, Dalas Review, Una Alienada, Un Tío Blanco Hetero, La entropía de Valen, and Libertad Y Lo Que Surja, criticize only feminism and the Left, But, they often talk about the goodness of Right-wing politicians and parties like Donald Trump or VOX, they criticize sexism and prejudice only when they come from people who call themselves feminists, but they never criticize sexism and prejudice when they come from the machismo, if they were objective and neutral they would criticize both equally, and would not have favoritism for the Right and for Machismo.

Being on the Right does have to do with machismo because the Right supports the Conservatives and traditional religions such as Christians, and in the book of Christian religions, which is the Bible, both machismo and speciesism are promoted.

In any dictionary the word progressivism is defined as a movement that seeks social progress, social progress implies promoting equal rights between men and women, being against machismo, being against speciesism, being against racism, being against any form of sexism, promote environmental protection, be against homophobia, defend indigenous peoples and be against nationalism.

However, these conservative and right-wing people like Una Alienada, La Entropía De Valen, Lada Amores, Un Tío Blanco Hetero, Dannan, JaviOliviera, Libertad Y Lo Que Surja, and others, or who say they are atheists and are in favor of abortion like DalasReview, but they only talk about the good things about right-wing parties like Donald Trump or VOX and never anything bad about those parties, they use the word progressive as if it were an insult or something bad.

They practically use the word progressive just as homophobes use the word faggot, maricón or beacho, just as racists in the United States use the word Mexican and just as racists in Costa Rica use the word nica or Nicaraguan in a derogatory meaning.

If these people like these Youtubers who support or justify the Right had had the influence they have today and the number of followers they have today, at the time when human slavery was legal, and they saw the brainwashing of the Right, ignorant young and adult people of those times making them believe that the word progressive is something bad or an offense, human slavery would never have been abolished in many countries.

Simply put, these people like these Youtubers who support or justify the Right should be prohibited from accessing the Internet, prohibited from publishing on the Internet, and spend the rest of their lives in prison or in a mental hospital.

These people trick people into believing that being progressive is the same as hating men when in reality true progressivism is opposed to all forms of sexism, and they make us believe that being progressive or progressive is the same as hating heterosexuals when true progressivism opposes all discrimination based on sexual orientation.

But, that, being conservative which means being sexist, sexist, anthropocentrist, religious fanatic, speciesist, hating indigenous people, being racist, being in favor of child abuse stating that it is educating and nationalist, we will never see these people say anything against, nor use the word conservative as if it were an offense, despite the fact that there are very dangerous right-wing conservatives such as Neo-Nazis who abound in right-wing parties such as Donald Trump's, Jair Bolsonaro's and VOX.

It is for all these reasons that anyone who supports Right-wing or Neoliberal politicians and Right-wing or Neoliberal parties, or justifies them in any way, for me, is a bad person and I consider them the same as a neo-Nazi and that it should be condemned even at a legal level, just as it should happen with the neo-Nazis in all the countries of the world, there should be a strong hand with them.

Someone who says that Right-wing or Neoliberal politicians and Right-wing or Neoliberal parties have good parts to say that these politicians and parties are not bad, like the Youtubers who are denounced in this book, is the same as when a neo-Nazi says that Hitler and the Nazis had good things to say that Hitler and the Nazis weren't that bad, That is why, I repeat again, that these Youtubers who have been denounced in this book for a long time should not have a single subscriber to their channels and not a single visit to their videos.

Many times we see that people like Dalas Review who claim to be atheists and are in favor of abortion, but justify, favor and promote in their videos right-wing parties such as Donald Trump or VOX, and who according to them are against pseudosciences and of conspiracy theories, they do not realize that it is on the Right where pseudoscience and conspiracy theories abound, such as anti-vaccines, climate change deniers, New Agers, religious fanatics and others.

On the other hand, the YouTuber Dalas Review claims not to be sexist, but there are videos where he expresses that it bothers him to hear children crying when they cry for nothing, sexism is not only reduced to discrimination against women.

Machismo also includes considering the emotional and the expression of emotions as a weakness, as something bad, annoying or that must be repressed, It is curious that a person who considers that he is not sexist is bothered that other people, in this case children, express their emotions through crying.

According to Dannan's words in one of his videos, strong men do not commit crimes, and it is weak and cowardly men who commit abuse, rape and murder.

It must be clarified that these people do not define strength and weakness in terms of something physical, for them strength is cruelty, unjustified violence and insensitivity according to their sexist ideology, and for them weakness is expressing emotions, sensitivity and empathy, I wonder:

How can a person who is empathetic and sensitive to the pain of others and the suffering of others commit crimes such as abuse, rape and murder?

It is ridiculous and absurd what these people in favor of the Right and neoliberal garbage say because crimes such as abuse, rape and murder can only be committed by people without sensitivity and without empathy towards the pain of others, and without sensitivity and without empathy towards the suffering of others.

I once heard a person like this say that men are sensitive because we write poetry and love songs, what they say is pathetic, because when we talk about being sensitive we are not referring to being sensitive in matters of relationships or art, of If so, we would have to consider that Hitler was sensitive because before being a dictator he was a painter.

By being sensitive, we mean being sensitive as having sensitivity and empathy towards the pain of others and the suffering of others. For example, it is known that animals of other species feel because they have a nervous system, but these people who say that men They are sensitive because they write poetry, make music or are painters like Hitler, they are the same people who support or are neutral on the issue of bullfighting or hunting for pleasure, who support the genocide of indigenous people and the invasion of their territories, such as for example, Dannan, Libertad Y Lo Que Surja, and others.

For example, for people on the Right like the one on the YouTube channel who calls herself Una Alienada, if a man does not live up to his macho ideal of being a man, which consists of being cruel and insensitive to the pain of others, and is a sensitive man , and empathetic to the pain and suffering of others, for her that man is a mangina, insecure, weak or cowardly.

Men who are empathetic and sensitive to the pain of others and the suffering of others are not because we are manginas who consider ourselves inferior to women, nor because we consider ourselves less than women, nor because we believe that we must obey a woman just because we are a woman, nor because we are insecure, nor because we are weak, nor because we are cowards.

Men who are empathetic and sensitive to the pain of others and the suffering of others are so because of a matter of morality and ethics, and not because of the stupidity that these sick people say.

On the other hand, a cruel and insensitive man who bullies, who harms the weakest, the defenseless and beings that have done him no harm, be they humans or animals of other species, is not strong, he is not brave, he is a coward, He is not powerful, he is not admirable, he is garbage that should not have been born in the first place and should have been aborted.

When I say that men and women should be equally sensitive and I say it as an obligation (not as an option), I mean being sensitive to the suffering of others, to being sensitive to the pain of others, both of other humans and of animals of other species and of possible beings with the capacity to feel that exist in the future.

I mean that both of you are sensitive to those who suffer and that you both have empathy, and this never means the same as not defending yourself, nor does it mean the same as turning the other cheek, nor does it mean the same as forgiving everything, nor does it mean the same as enduring everything, nor does it mean the same as being weak, nor does it mean the same as being a coward.

Contrary to what sexists, people from the Right, Neoliberals or libertarians, Neo-Nazis, the Satanism of Anton LaVey, Social Darwinism, the Temple of Set of Michael Aquino, religious fanatics, conservatives and paganisms of the Right with ideologies believe sexists like the Viking who are based on the Naturalist Fallacy and who believe that honoring nature is the same as the Naturalist Fallacy or Appeal to Nature Fallacy and that Social Darwinism.

By being sensitive, I never mean something as irrelevant as a man making love songs or love poems, that even the cruelest and most evil man can love someone, and make love songs or love poems.

People are ignorant when they believe that a cruel and evil person cannot love, or when they believe that if someone takes revenge it means they are insensitive, and when they think that if one is sensitive it means being sensitive to everyone, even to those who hurt, when it's never like that.

Another example is Agustín Laje Arrigoni, who defines himself as sensitive for being against abortion and defending defenseless beings who, according to him, are an example of the ignorance that abounds so much on the Right. First of all, it is known that a fetus It is not the same as a zygote or an embryo, and scientifically a zygote and an embryo do not feel because they do not have a formed nervous system.

These people believe they are sensitive and good people for defending zygotes and embryos that do not feel, but they do not care that children who do feel are abused and raped by Catholic priests or by evangelical pastors, they do not care that the Vatican covers up pedophiles and that Many times believers are complicit in wanting these crimes to be covered up and not talked about, and to justify these criminals by stating that they are simple mistakes and that we all make mistakes, as if the abuses and violations were simple mistakes, and as if we were all abusers or rapists of minors.

They think they are sensitive and good people for defending zygotes and embryos that do not feel, but they do not care that while the Vatican is full of gold and riches, millions are spent every time the Pope visits a country and many pastors are multimillionaires, there are many children who do feel like they are dying of hunger.

They believe they are sensitive and good people for defending zygotes and embryos that do not feel, but they do not care about the indigenous peoples of the present who still suffer injustice, discrimination, contempt, marginalization, abuse, rape, torture and murder by people like them who They hate them like Bolsonaro's Right-wing government that said in a video that it would give weapons to landowners to invade indigenous territory.

They believe they are sensitive and good people for defending zygotes and embryos that do not feel, but they do not care that children who do feel are born to suffer physical, verbal or psychological abuse by their fathers and mothers following the word of their god who says that this is educating and that it makes people believe that children are the property of their parents, just like any object such as a car, house or land.

They believe they are sensitive and good people for defending zygotes and embryos that do not feel, but they do not care that the sexist, homophobic, racist, sexist, speciesist and nationalist ideologies that abound so much on the Right and Libertarians, that they so justify and defend cause harm to lives that, if they feel, both human lives and the lives of animals of other species.

Both Agustín Laje Arrigoni and Dannan have done the same thing as those who invent conspiracy theories that are also part of the Right to relate pedophilia with the feminist movement and with the LGBT movement, although it is true that within feminism, LGBT and veganism, there may be some sick people who support pedophilia, pederasty and zoophilia, stating that they are expressions of love, these sick people are the minority, and it is never the norm within these movements.

The majority of those of us who defend Human Rights, of those of us who defend animals of other species and defend the environment, that is, who are progressive, are against pedophilia and we are against zoophilia.

It has always been the custom of the Right and the Libertarians to generalize and put them in the same bag to defend evil and injustice, this is what they did with the indigenous people of the past by generalizing them and putting them in the same bag to justify the atrocities committed by colonization , and this is how they do with the indigenous people of the present by generalizing them and putting them in the same bag as those that this mob hates so much without the indigenous people having done them any harm or being able to defend themselves when Right-wing governments like Bolsonaro's do them harm.

These people on the Right imply that all feminists and all LGBT people are pedophiles, that is, what they do is defame by putting them all in the same bag, by generalizing, but they complain that people who act call feminists lump all men in the same bag and generalize them, and they do exactly the same with feminism and the LGBT movement.

As we all know, religious fanaticism is part of the Right because the Right supports everything that is conservative and traditional, so it is revealing how people on the Right talk about feminism and the LGBT movement promoting pedophilia and pedophilia, but they mention absolutely nothing about the cases of pedophilia and pedophilia within the Catholic Church, about the cases of Catholic priests and evangelical pastors who abuse or rape minors, about the cases of popes who cover up for these criminals and how a The majority of believers in the world are complicit in these abuses by wanting these criminals to be covered up, by wanting people to remain silent about it and by justifying these crimes by saying that they are simple mistakes or that we all make mistakes, when the abuses and rapes They are crimes and not errors.

Also, Agustín Laje and Danann say that homophobia does not exist because it is not included within the mental disorders of the DSM V and CIA 10, which reveals their ignorance, by not understanding that it is one thing to talk about phobias in the sense of a mental disorder and another thing is to talk about phobias in a social sense.

Other garbage similar to Agustín Laje and Danann are Jordan Peterson and Ben Saphiro, these two English speakers are just as criminal as these other Spanish speaking clowns.

In any dictionary a phobia is defined as an irrational fear, an irrational rejection or an irrational hatred, not all phobias are defined as a mental disorder, It is clear that there are people who have irrational fears, irrational rejection or irrational hatred that LGBT people did by generalizing them thinking that they are all pedophiles or pedophiles, but these are the same people who complain that people who call themselves feminists generalize and all men in the same bag.

In the case of the La Entropía de Valen channel, she states that she has never suffered discrimination or hurtful comments for being bisexual, but the fact that this has never happened to her does not mean that it has not happened to other people. We do not all have the same experiences and it is a mistake to claim that our personal experiences are the same as other people's.

In addition, we must take into account that the owner of the YouTube channel La Entropía de Valen is Argentine and white, and in Argentina there are racist people who believe they are superior because they are descended from Europeans, in Argentina the neo-Nazi groups have had a lot of power just like in Brazil, and Argentina has been noted for the murder of indigenous people in the past and for having historical figures who openly hated the indigenous people just as happened in Brazil with the government of Jair Bolsonaro.

Apparently these people related to the Right and Neoliberals or Libertarians are Egocentric, they think that their personal experiences apply to everyone, which is absurd.

It is like, for example, a Nicaraguan in Costa Rica telling me that he has never been insulted, attacked or discriminated against for being a foreigner and Nicaraguan, the fact that he has not been insulted, attacked or discriminated against for being a foreigner. and Nicaraguan, it never means that it has not happened to other people because they are foreigners and Nicaraguans.

Or to give another example, the fact that a Mexican in the United States tells me that he has never been discriminated against, insulted or attacked for being a foreigner and Mexican, that it has not happened to him, never means that to other people who They are foreigners and Mexicans, it has not happened to them, therefore, people related to the Right are absurd thinking that their personal experiences are the same as those of the whole world.

In the case of Dalas Review, in addition to saying that children's crying bothers them, just as the Right considers crying as a weakness, something bad, something annoying or the same as cowardice, and there are many cases of parents and mothers who physically, verbally or psychologically attack their sons and daughters just for crying and offer to hit them if they do not stop crying, Dalas has also had sexist and arrogant attitudes with women who give him constructive and respectful criticism.

Such is the case of the channel Questions Incomforts that gave him a very respectful and constructive criticism of his video Get me out of Latin America: THIS HAS TO STOP NOW!! As a result of that video, Dalas Review asks the channel to hold a debate, then the Awkward Questions channel accepts, but with conditions that are the conditions that are normally requested when there is a formal and serious debate, and not the informal and garbage debates that Dalas Review does on its channel.

This is how Dalas Review, which also has a channel called Dalas Sin Filtros, He called the host of the Incommodous Questions channel called Sabrina Tórtora a clown for asking him for conditions for the debate that are requested in any formal and serious debate, and of course his slaves like Javi Oliviera and Lada Amores applauded him for that attitude..

For Dalas, a debate is just an informal debate like the one he is used to doing, without moderators and without a turn to speak, that is, for this ignorant person, formal and serious debates do not exist, and only according to him, informal debates are valid, something completely absurd, which not only makes him look bad, but also reveals the ignorance of those who applaud him for everything and never question him about anything in a sectarian way, yes, he complains about how sectarian feminism is.

Then the guy tries to justify himself by stating that clown is not an insult, although it is true that clown or clown as a profession is not an insult, clown and clown in the context of ridiculing someone, of trying to tell them that they are stupid or stupid, if it is an insult, it is like that, as we see how Dalas Review is someone who has a sexist and arrogant attitude when a woman gives him constructive criticism without insults.

Dalas Review makes its ignorance evident by completely ignoring the basic norms and rules of a formal and real debate where there is a moderator, speaking time and debate is held respectfully without trying to ridicule the other.

Another thing that Dalas says is that beggar children are mafias, again he is generalizing by putting them in the same bag and generalizing, and assuming that all beggar children are so because they want to, as if they had never been abandoned on the street and they chose themselves to be beggar children, again Dalas assumes that their experience is the same as everyone, but they complain that feminists generalize, this about beggar children was said on his channel Dalas Sin Filtros in the video titled: Dalas agrees to a FEMINIST for the first time.

Atheism is equally harmful to Christian religions and a promotion of social Darwinism equally to Christian religions. Atheism and Christianity are useful instruments of a majority of humanity that is selfish, individualistic, narcissistic, lacking empathy and insensitive.

Many times when people on the Right talk about the Black Legend to refer to colonization and the inquisition, they never deny that crimes and atrocities were committed against indigenous cultures, nor do they deny that the Catholic Church tortured and murdered people in the inquisition, what these people say is that the victims were not so many.

Which is irrelevant, because regardless of whether the victims were many or few, the important thing is that these crimes were committed, Of course, these are the same people who complain that people who call themselves feminists say that the cases of men who suffer violence do not matter because there are few abused men.

And regarding the issue of cannibalism, it may be that some ethnic groups practiced it, although the fact that some ethnic groups practiced cannibalism could be a lie of the conquerors to justify the conquest since all the codices that talk about it were written at the time of the beginnings of colonization, but, although some ethnic groups practiced it, not all indigenous ethnic groups practiced it.

Other times, these people, in addition to generalizing and putting all indigenous ethnic groups in the same bag before colonization, other times, these people say that no indigenous people were simply murdered, which is reminiscent of the neo-Nazis when they deny the Holocaust by talking about holotale, that, by the way, these neo-Nazis are part of the Right and there are neo-Nazis in VOX.

¡TOP 5 PERSONAJES PROGRES!

Una Alienada

334,000 suscriptores

Video: TOP 5 PROGRESSIVE CHARACTERS! From: An Alienated Woman.
Capture recovered from: https://www.youtube.com/watch?v=6O3k0h70jWs

In the video TOP 5 PROGRESSIVE CHARACTERS! of the clown who calls herself Una Alienada says the following phrases:

1. - Cry for everything to achieve just as progressives do to try to impose their vision of the world on us.
2. - Number 5. Jerry Smith. The mangina, Mediocre, False projection of self-confidence, Being empty, Bland, His children are only going to visit him out of pity.
3. - Number 4. Nobita Nobi. He cries, Incompetent in everything he sets his mind to, He has two friends Gigante and Suneo who often bully him, deservedly so, a toxic and depressive personality.
4. - How progressives would like to impose themselves on others through violence.

Since people from the Right like Una Alienada and Agustín Laje Arrigoni, and people related to the Right like Dalas Review, La Entropía de Valen, Lada Amores, and Javi Oliviera are people with a sexist mentality, they believe that if someone cries it takes away their credibility or which undermines the validity of their argument, they believe that crying is the same as weakness or the same as vulnerability and Dalas himself has said that it bothers him to hear children crying.

These same Right-wing and Christian people are the same people who, if they have a son or daughter and that son or daughter cries, offer to hit them just for crying or say phrases like - I'm going to hit them (referring to hitting) so that they cry for something. When a boy or girl cries for something or cries for nothing, you are never hurting someone with this, and I know it, because I have known people like this very closely who unfortunately have children, which is regrettable.

This is why the thinking of the Right, Neoliberals and Christianity is the same as the toxic positivism promoted by the New Age and its founders of sects like Osho.

On the other hand, the criminal uses words like Mangina, Mediocre, Vació and Insulso to refer to those of us who are progressive, what the woman does not understand is that many of us think the same about Right and Libertarian people like her.

On the other hand, wanting equal rights between men and women, and being against machismo, never means the same as agreeing with a woman in everything just because she is a woman, never means the same as thinking that all women They are good only because of their sex and that all men are bad only because of their sex, therefore, when these bad people use the word mangina in that sense, they do it to entangle people and confuse.

They also use the word llorica as a synonym for inferior, effeminate, weak or to belittle, precisely, that is the meaning given to it by macho and retrograde people like our grandparents and great-grandparents.

When this criminal woman says in that video the phrase: - they bully her deservedly.

What she is saying is that for her, the bully children who bully, who are sexist like her, who believe that harming the weakest, according to them, makes them men and strong, according to this old clown, are right, which does not surprise me coming from someone from the Right and Libertarian, these people also use the word depressive as if it were something bad or an insult, demonstrating their lack of empathy with the suffering of others, it is clear that sexist people are completely insensitive towards those who suffer.

Also, with respect to that phrase that the old clown says: - they bully her deservedly.

It is saying that the victims of Bullying deserve the bullying that is done to them, which is the same as when the New Age and its sects blame the victims of mistreatment, abuse or rape, stating that they are paying karma from past lives, that they attracted him with their mind or that they are agreements with the perpetrator before incarnating, the relationship of the New Age and its sects with the Right and with the Libertarians as well as with Christianity is increasingly evident.

This blaming victims of bullying for the bullying that is done to them is the same as when people like her blame a woman who suffers rape for how she dresses or for the time she goes out.

And regarding the fact that we progressives want to impose ourselves with violence, to begin with, tolerance is a crime when evil is tolerated such as the rotten and disgusting Right-wing and Libertarian ideologies that it promotes, and, secondly, all the garbage that it supports was imposed with violence.

Christianity was imposed with colonization and with the inquisition where people were defamed and murdered, machismo is imposed with violence, the mere fact that a child is prohibited from crying by his machista parents is violence because it is repression of emotions.

Furthermore, sexist men are violent men who believe that harming and subjugating the weakest, whether humans weaker than themselves or animals of other species, according to them, makes them powerful, strong or brave, when in reality, they are cowards for harming those who do not harm them and for harming those who cannot defend themselves just like the people who support them like her. That's why this old woman is a criminal clown and complicit in all this.

On the other hand, these people use the word crying as if crying were something bad or it took away the validity of a person's argument because they don't reason, and they are mindless and hollow people.

But, they themselves are whiny when they complain about forced inclusion because LGBT, black, oriental and indigenous characters appear in films and series, because of course the ideal of these people is that it would be like the old days where there was no representation of these people in the entertainment industry, and in those times they didn't complain.

Video titled; Johnny Depp exposes DEFINITIVE PROOF vs Amber Heard. He could win his trial. Where this clown defends the Right and makes it clear using sarcasm that there is nothing wrong with supporting Donald Trump, on the Dalas Review channel. Screenshot recovered from: https://www.youtube.com/watch?v=lhjahRaYUu8

First of all, I know that there are ignorant atheists like Dalas who think that there is nothing wrong with the Right, but the reality is that voting for Right-wing parties like Donald Trump or VOX is bad people because the Right-wing parties Right is the Conservative and the Conservative is machismo, homophobia, hatred of the indigenous peoples of the present, racism, nationalism, speciesism, anthropocentrism and religious fanaticism.

The ideal is that there are schools and colleges in accordance with the teaching of this book. If there are religion classes in schools and colleges, religious schools and religious colleges, they must allow schools and colleges to exist where the content of this book is taught and of my other books, and if they prevent it, we must legally denounce the State and the media for intolerance and discrimination.

To this day, there are racist people who use the word Indian as if it were an insult or something bad, even people in the media or the entertainment industry.

And while it is true that there is representation of black people in the media, in the entertainment industry and in politics, although not in the same way as whites, indigenous representation continues to be a minority and often non-existent.

In his video: Christians ATTACK Burger King for THIS ADVERTISING CAMPAIGN, Dalas states the following: - Then we find people like this lady from VOX, VOX, for those who don't know, is a right-wing party in Spain that a long time ago I made a video talking about that I thought was the best party of all the ones there were, unfortunately, despite the fact that, from the social aspect, they seem horrifying to me.

Although Dalas says that in the social aspect he finds VOX horrifying, at the same time he says that it is the best party in Spain, I wonder if he would say the same about a Left party like Hugo Chávez's or Fidel Castro's trying to justify them with the fact that although the social aspect seems horrifying, they are the best parties in Venezuela and Cuba, clearly these Youtubers seek to favor the Conservative (machismo, homophobia, speciesism and nationalism) because supporting the Right or justifying it in some way is supporting the Conservative.

In his video: If you vote for Vox, DON'T SAY IT or the same thing will happen to you as here... From Dalas' other YouTube channel called Dalas SIN

FILTERS, Dalas says: - For those who don't know, VOX is a political party in Spain who have recently accused them of being the worst in the universe, more or less the same as what happened with Trump and what continues to happen to this day with Trump.

In response to this phrase that Dalas says in his video, It is not that we accuse the Right and Neoliberal parties of being the worst in the universe, it is that they are the worst in the Universe: sexist, speciesist, in favor of child abuse because the Bible says that hitting a child is educating, in favor of Christianity, racists, promote hatred of the indigenous cultures of the present, they are nationalists, against taking care of the environment because the Bible says that this god created nature so that it could be dominated or lorded over by human beings and because they are promoters of theories conspiracies.

Many schools and colleges are often instruments of Right-wing ideologies by teaching religion classes and promoting patriotism with hymns to the flag, Being patriotic or nationalist only causes division and conflict between human beings just for being born in different countries, and making them believe that they are superior to others for being born in one country or another, which is absurd.

In the video: TRUMP vs BIDEN Which is the least bad? Who you should vote for, Dalas says directly that Donald Trump is better than Biden, that Trump is the least bad and that people should vote for Donald Trump, which makes it clearer than these YouTubers who unfortunately are idols for many people young people if they seek to justify and support the Right and the Neoliberals.

Something very important to analyze is that even today there is hatred of people with indigenous features, that is, people with darker skin and shiny black hair, An example of this is what happens with people from the United States who are racist towards Mexicans who have indigenous features and in their xenophobia they generalize them all, stating that they are all criminals, but they complain about people who call themselves feminists because generalize and put all men in the same bag.

Another example is what happens in the case of racist Costa Ricans with Nicaraguans who clearly mostly have more indigenous features due to their skin and hair color, whom they also generalize by stating that they are all criminals, and on some occasions making xenophobic and racist jokes about them, and even saying that they are disgusted, but equally like every Christian they complain that people who call themselves feminists generalize and put all of us who are men in the same bag.

By the way, it must be said that many times in the United States it is immigrants such as Mexicans or others who do jobs that many Americans would never do and would even die of hunger because many Americans would not like to farm and work in the fields, Just as in Costa Rica, immigrants like Nicaraguans are the ones who do farm work such as cultivating, harvesting coffee or harvesting cane because the majority of young Costa Ricans do not like to work in the fields.

The truth is that generalizing immigrants is racism and xenophobia, and this also happens with Spaniards like Krometana, because bad people and good people will always exist both in immigrants and in those who are not, and you cannot get into the same bag and generalize all immigrants because of what some people do.

The other aspect to analyze is that Right-wing Youtubers like Dalas Review think that today we only exist mestizos, when today on the continent there are indigenous communities, although they are a minority, but just because they are a minority does not mean that they continue to suffer marginalization and in many cases extreme poverty, which clearly shows that colonization did not help at all to these indigenous communities that continue to exist in the present, the truth is that mestizos are privileged, we are left with more opportunities and we have the land that originally belonged to them.

A large part of our taxes go to corrupt politicians who do nothing to improve the world, the truth is, taking into account that indigenous communities in the present continue to suffer marginalization, contempt, torture, murders and extreme poverty and even genocide when they burn with forest fires in their homes in the Amazon and sometimes they are even murdered with the complicity of Right-wing governments like Jair Messias Bolsonaro, whom Right-wing people like Dalas so defend.

I would very much agree that part of our tax money was distributed among the indigenous communities, and not used to support corrupt politicians and freeloaders who often even have luxury pensions, while there are people dying of hunger.

Regarding the Right, it is ridiculous when they use the word Feminazi, which by the way is a word invented by a right-wing religious fanatic named Rush Limbaugh, and it is ridiculous that they use the word Feminazi because Hitler and the Nazis were sexists who believed that being cruel and It is insensitive to be a man, powerful or strong, Hitler and the Nazis were never feminists, and no feminist has created concentration camps.

Also that religious fanatic from the Right who invented the word Feminazi to refer to women who abort, was ridiculous, because he was comparing zygotes and embryos that scientifically do not feel because they do not have a formed nervous system with humans who do feel, curiously, this Pro-life people never talk about the parts of the Bible where their evil god commands the killing of small children and pregnant women, a god who by the way is worshiped equally by monotheistic religions (Jewish, Christian and Islamic) and by the New Age.

In the case of Valentina Ortiz from the channel La entropía de Valen, although she has said that she does not vote for VOX, which seems very good to me, however, it is clear that she does benefit and has favoritism with people on the Right, and it proves of this is when she collaborates with Una Alienada that is Right, and when on her other channel called La Catarsis de Valen she made a collaborative video with a VOX deputy named Alicia V Rubio, which does relate her to the Right even if it is indirectly and this makes her part of the Right, whether she likes it or not.

Being conservative is bad because it means being sexist, speciesist, nationalist, homophobic, hating the indigenous peoples of the present, anthropocentrist, racist, being in favor of conspiracy theories, being in favor of the Catholic Church, bullfighting, and hunting for pleasure and the destruction of the environment.

While being progressive means equal rights between men and women, valuing and respecting the life of animals of other species and any sentient being that may exist in the future, being against religious fanaticism and caring for the environment.

We must also understand that the problem is not that a man likes football, the problem is that a man thinks that men who do not like football, according to him, makes us less of a man, the problem is not that a man does not like the color pink, the problem is that a man thinks that a man is less of a man for liking the color pink, the problem is not that a man is heterosexual, the problem is that men who are heterosexual are discriminated against and insulted homosexuals, bisexuals and asexuals.

Now, I understand that there are progressives who say stupid things, but that doesn't mean that all progressives think that way.

Emmanuel Danann is a criminal who is totally associated with people on the Right who promote conspiracy theories with hoaxes about vaccines and hoaxes about COVID, and even with Neo-Nazi people.

A great friend of Dannan and with whom Dannan boasts of having a great friendship is Ricardo Iorio who is a Neo-Nazi who has made racist statements and where he promotes conspiracy theories, but these people like Emmanuel Dannan and his partner Lilia Lemoine who are the same ilk , are these types of people with whom they have great friendships and with whom they hang out, as the saying goes: - tell me who you hang out with and I'll tell you who you are.

When crazy people who invent conspiracy theories are censured for promoting conspiracy theories that are a danger to public health, such as Doctors for Truth, who promote lies about vaccines and against health measures, according to them, it is because they are persecuted, that the elite seeks to censor them and other nonsense.

The reality is that the crazy people who invent conspiracy theories when they are inquisitors because they are religious fanatics of the Right and Liberal deserve to be censured for harming human life, harming animals of other species and harming the environment with its stupid theories.

For me, when someone harms human lives, harms the lives of animals of other species and harms the environment by saying and writing nonsense, that is not freedom of expression, that is a crime and not freedom of expression, and it is They should be punished as in the case of those who invent conspiracy theories who, in my opinion, deserve jail or being admitted to a mental hospital.

One stupid thing that those who invent conspiracy theories say is that there are some planes that are fumigating us to kill us and that are called Chemtrails, If that were true, and the elite were fumigating the atmosphere to kill us, this would also affect and kill them because these elites also live on earth, and they would poison themselves by poisoning the atmosphere, in addition, at the height in that those planes, according to them, spray us with the wind, those poisons would not fall in an exact place, the wind would cause them to fall anywhere, even in the mansions where these elites live.

That those planes leave spirals or lines in the sky is never proof that they are fumigating us, it is simply vapor from the engine that condenses in the air and remains in those forms due to the movement of those planes.

A promoter of this Chemtrails nonsense is the criminal who invents conspiracy theories who calls himself Yom-5, who is another evil being who supports right-wing parties like VOX and that he is a friend of the criminal who invents conspiracy theories and a Christian who calls herself Katecon2006.

The Masonic duality: Right (Blue Apron) and Left (Red Apron), and black and white chess floor. That represents the two day and night versions of the music video called in English Who's That Chick? Rihanna and David Guetta.

Day version: word sky on the screen, pentagram on the right, symbol of women, cross on the right, and hippie symbol of love and peace like Lula or the ONU.

Night version: word hell on the screen, inverted pentagram, symbol of man, inverted cross, and weapon like Jair Bolsonaro and the Israeli army.

Furthermore, in both videos, day version and night version: when Rihanna's eyes transform into reptilian eyes, she seeks to promote the belief of the New Age and those who invent conspiracy theories in reptilians, and seeks that those who invent conspiracy theories to benefit Christianity and the majority give the videos a lot of publicity.

Continuing with Albert Pike, in one of the volumes of his book called Morals and Dogma you can read this: - The Mithraic mysteries were celebrated in caves where the doors were located at the four points of the zodiac of the equinoxes and solstices, and they were also represented the seven planetary spheres that the souls needed to cross when descending from the sky of the fixed stars to the elements that surround the earth.

Excerpts from Morals And Dogma by Albert Pike: - Zeus, the son of Saturn, became King of the Gods. Horus, son of Isis and Osiris, became the Giver of Life. Dionysus and Bacchus, like Mithras, became the origin of Light, Life and Truth.

The Persians knew that cats were sacred to the Egyptians. Therefore, in the Battle of Pelusium, the Persians used cats as shields to defeat and conquer the Egyptians. So the Egyptians preferred to surrender so as not to harm the cats.

Then the Greeks and Romans who descended from the Minoans, conquered Egypt, giving rise to the Greco-Roman period of ancient Egypt, in this period, all the pharaohs were Greeks and Romans since the original Egyptians were defeated, and from this period is Cleopatra, for That's it, Cleopatra is Greek.

The only thing that should matter to value and respect a life is that it can feel physical pain, that it can suffer emotionally or both by having a nervous system, never that evil that monotheistic religions and their books teach that it is human, intelligent, reasons or have a soul.

At present, thanks to science we know that having a central nervous system (brain) and nociceptors (pain nerve endings) is what allows a being to feel physical pain, and that having a brain (pain central nervous system) with a limbic system is what makes a being able to suffer emotionally.

Science has also proven that most animals of other species feel physical pain since they have a central nervous system (brain) and nociceptors (nerve endings for pain), and they also suffer emotionally because they have a limbic system in their brain.

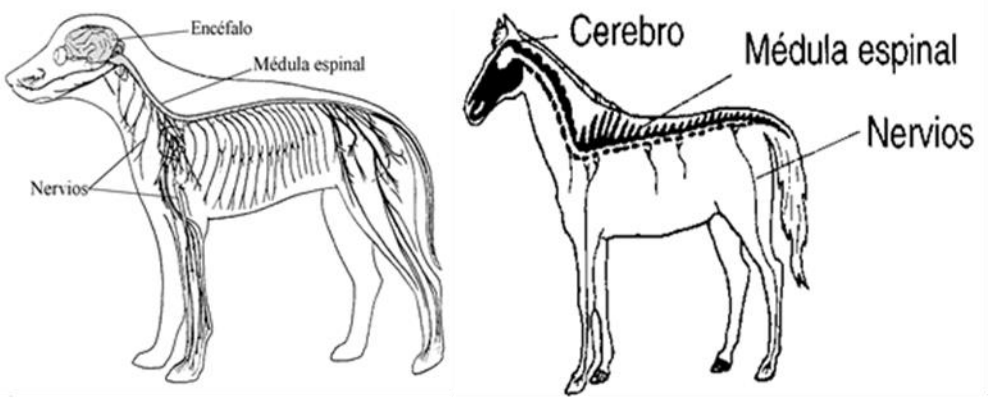

Image of the nervous system of animals of other species. Images recovered from: http://www.uco.es/saguera/tema1.html and https://www.fao.org/3/t0690s/t0690s03.htm

In the Bible it is written that only the human being was created in the image and likeness of this god who is the same as the Jews, the Christians and the Muslims. Believers interpret this in two ways, one is that only the Human beings have a soul because they are created in the image and likeness of that god, and therefore, only humans have dignity and deserve to have their lives respected.

And another that animals of other species have souls, but that only the human soul is created in the image and likeness of that god, and therefore according to these religions only human life has value, dignity and deserves respect.

Furthermore, from the Old Testament of the Bible, this god tells humans to dominate animals of other species, with which this god gives authority to humans to mistreat, torture and kill animals of other species, because it is understood that this god created animals of other species to be used as if they were objects by human beings.

Genesis chapter 1, verse 26: And God said, Let us make man in our image, according to our likeness; and exercise dominion over the fish of the sea, over the birds of the air, over the cattle, over all the Earth, and over every creeping thing that creeps on the Earth.

Only the religions that believe in this god such as the Jewish, Christian and Islam are the ones that say that animals do not have souls, therefore, most people assume that we all believe that animals of other species do not have souls, and if you believe that they have a soul, for the majority it means that you are crazy, what they don't realize is that they are quite sick in the head for believing in a god as bad as this one.

In other cultures, it is believed that animals do have a soul, there are even cultures that believe that everything that exists has a soul, these cultures also had a meaning for the soul and the spirit different from that given by Christianity

These people say that this god is good and compassionate, but, their god says in his word, which is the Bible, that he created animals of other species for us to eat and use.

What kind of good, compassionate god creates sentient beings for humans to eat and use?

If it is good and compassionate, why do I not believe that they have no sentience and no nervous system, if it was for us to eat and use?

Genesis chapter 9, verses 2 and 3: The fear and fear of you will be on every animal of the earth, and on every bird of the air, on everything that moves on the earth, and on all the fish of the sea; into your hand they are delivered. Everything that moves and lives will be your maintenance.

Also, these same Christian vegans and Christian animalists who, in their ignorance and perhaps in their evil, think that Abel was a good person and that Cain was a bad person, forgetting that the conflict between these two brothers was caused by this same god, by preferring precisely the sacrifices of defenseless lambs that Abel offered and rejecting the vegetable offerings that Cain offered him.

What kind of vegans and animalists (in quotes) if they can be called vegans and animalists believe in a god who prefers animal sacrifices and rejects plant offerings?

It must also be understood that at present many call themselves vegan because of a diet, because of a spiritual belief inspired by Buddhism or the New Age, because of health or because of the environment, and not because of animals of other species, when that It is called strict vegetarianism and not veganism, veganism is only for animals of other species.

Genesis chapter 4, verses 3, 4 and 5: Time passed, and one day Cain presented to God an offering of the fruits he grew. For his part, Abel chose the first fattest offspring of his sheep, and took them to God as an offering. God received Abel's offering with great pleasure, but he did not receive Cain's offering with the same pleasure. This bothered Cain a lot, and you could see on his face how angry he was.

When Adam and Eve ate the fruit of the forbidden tree and discovered that they were naked, this god made them clothes with animal skins, being an almighty god who could make clothes for them with plant materials such as cotton or linen.

This is why even the belief in this god and in the stories of the Bible serves as a justification for those who make coats and other clothing with animal skins, and for those famous people who are insensitive to the pain of animals of other species that use skins of animals like the Spanish singer Rosalía.

Genesis chapter 3, verse 21: And God made the man and his wife coats of skin, and clothed them.

Spanish singer Rosalía wearing coats made from animal skins. Images recovered from: http://www.lasrosas.com.ar/portal/rosalia-usa-pieles-de-animales/ and https://www.eleconomistaamerica.com/ocio/noticias/9986798/07/19/Rosalia-desata-la-ira-de-sus-fans-por-lucir-abrigos-de-piel.html

Furthermore, there are many parts of the Bible where this god asks that sacrifices be made to him of animals that, being herbivores, are defenseless and states that he finds the aroma of the meat of those sacrificed animals very pleasant when it is burning, really these people who believe defending the lives of animals with the Bible does not realize that in reality the Bible is the cause of everything that animals suffer.

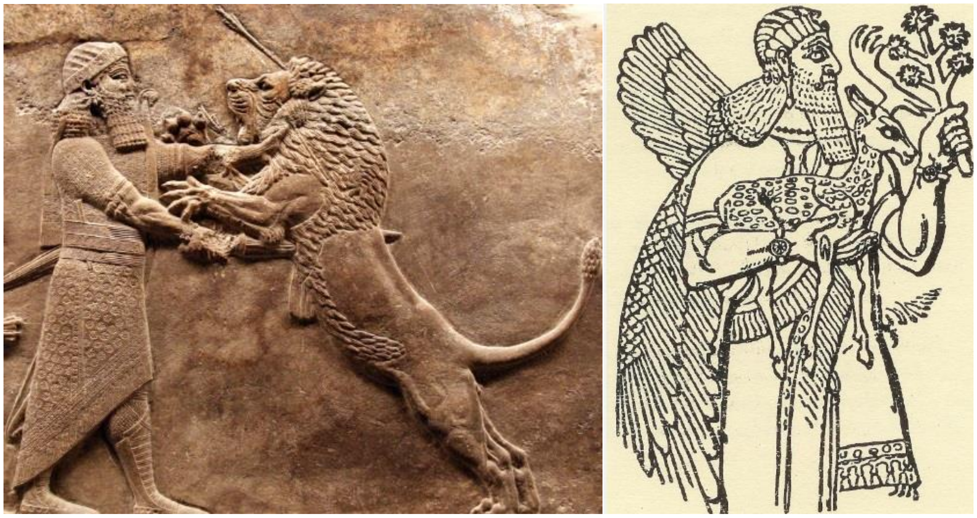
Genesis chapter 8, verses 20 and 21: Then Noah built an altar to the Lord, and on that altar he offered pure animals and pure birds as a burnt offering. When the Lord perceived the pleasant aroma.

There is even a part where the god of the Bible states that he admires one of his prophets for being a great hunter.

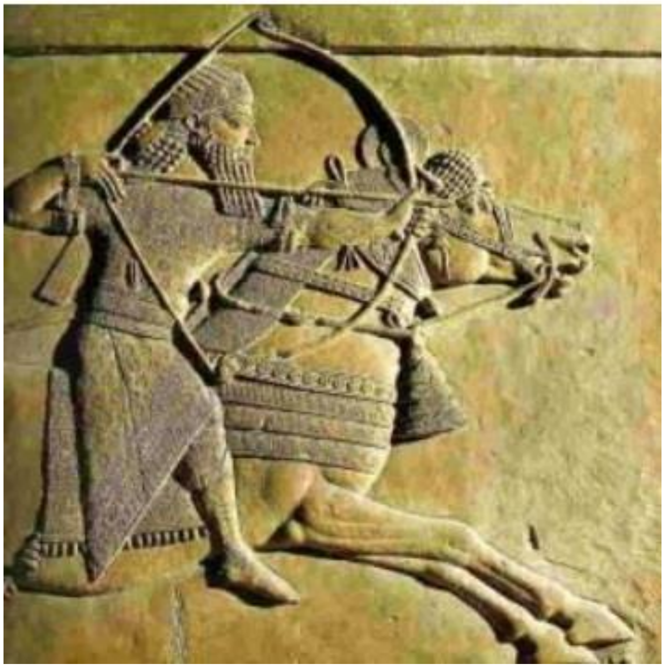
Genesis chapter 10, verse 9: He was a mighty hunter before the Lord; therefore it is said: Like Nimrod, a mighty hunter before the Lord.

When the Jews wrote the Old Testament (Torah and Tanakh), in some passages they put the noose around their own necks, and it was a big mistake that they mention Nimrod because they prove that Jewish texts are plagiarisms from ancient Middle Eastern cultures such as the Sumerians, Assyrians and Persians.

Nimrod is a character described as a hunter and a divine being in the ancient Assyrians who inhabited the Middle East in the past:



Assyrian engraving photograph and Assyrian engraving illustration recovered from the Internet.



Photograph of Assyrian engraving, recovered from the Internet.

In the above photographs of the Assyrian engravings you can see Nimrod hunting, in one engraving he is piercing a lion with a sword, and in the other engraving he is hunting with a bow and arrow.

Remember that these Middle Eastern ethnic groups such as the Persians, Assyrians and Sumerians hunted for pure pleasure, without it being a necessity to survive. And the Persian king had to be the best hunter and the best warrior, according to them to demonstrate power, manliness, virility or strength.

Remember that El of Isra-El, Migu-El and Rafa-El comes from a Middle Eastern ethnic group called the Canaanites who believed in a god called El. The god called El, was known by the Canaanites as King, Father and Creator who They are the same attributes that the Jews in the Bible give to their god YHVH or YeHoVaH.

God of the Canaanites called El. Photograph recovered from the Internet.

The Sumerian equivalent of the Canaanite god called El, is the Sumerian god called Anu. The Sumerian god Anu was known with the attributes of King, Father and Creator.

In the Sumerian engravings of the god Anu: the god Anu appears with the symbol of the Maltese cross or the solar cross used by European royalty and Freemasonry.

The legend of the universal flood was copied by the Jews from a Sumerian text called the Epic of Gilgamesh. In the Epic of Gilgamesh it is written that the gods sent a flood and that Gilgamesh built a boat. Then the Jews copied this same text, changing the word gods to the word god. The following is a Sumerian statue of Gilgamesh in the Louvre Museum:

Photograph recovered from the Internet

The Sumerians were older than the Jews and the Sumerian texts were older than the Old Testament of the Bible (Torah and Tanakh of the Jews), this shows that it was the Jews who copied the Sumerians and not the Sumerians the Jews.

Excerpts from the Sumerian poem known as the Epic of Gilgamesh: Gilgamesh and Urshanabi climbed into the boat, They launched the boat into the waves and set sail. That city was ancient as were the gods within it, when their hearts moved the great gods to raise the flood.

Zecharia Sitchin invented that the Sumerian gods were extraterrestrials, that is why Zecharia Sitchin is always mentioned by those who invent conspiracy theories, by the New Age, the New Age sects and their promoters such as the History Channel with the program Ancestral Aliens.

Zecharia Sitchin did not know how to translate Sumerian languages, he was simply an economist, who took translations from people like Henry Creswicke Rawlinson or Leonard William King and transformed them at his convenience.

In his books, Zecharia Sitchin claimed that the Sumerian gods were aliens called Anunnaki, which, by the way, singers like Ozuna and DJ Snake in their song Taki Taki mention the Anunnaki because the entertainment industry knows that conspiracy theories are the best way to get advertising and video views.

Zecharia Sitchin mentions in his books that the Sumerian gods came to earth for gold, but in the true translation of the Sumerian tablets it is never mentioned that the gods came to earth for gold.

Zecharia Sitchin mentions in his books that the Sumerian tablets mention that the gods created humans through genetic engineering. In the true translation of the Sumerian tablets, it is mentioned that the god Enki created humans with clay, never with genetic engineering.

Zecharia Sitchin mentions in his books that the god Ea and god Enki were two different gods and that they were rivals. In reality, Enki and Ea were the same god, Enki was the name given to him by the Sumerians, and Ea was the name given to him by the Akkadians and Babylonians.

It is like someone saying that Zeus of the Greeks and Jupiter of the Romans were two different gods and that they were rivals or someone saying that Athena of the Greeks and Minerva of the Romans were two different goddesses and that they were rivals.

In summary: Zecharia Sitchin is a charlatan who did not know the Sumerian language, nor did he know how to translate Sumerian tablets, he was only a promoter of the New Age and its sects, and there are indications that Zecharia Sitchin belonged to this stupidity of Freemasonry.

Or in this photo where Zecharia Sitchin appears next to the Catholic priest of the Vatican named Corrado Balducci:

Those who invent conspiracy theories claim that governments, royalty and elites are all-powerful beings that no one can defeat them, that they are wise and very intelligent.

But, in reality, these political elites and religious elites are so imbeciles and stupid that they cannot erase evidence such as photographs published on the internet.

There is much evidence that the Vatican itself promotes New Age beliefs such as that extraterrestrials visit us, in 1985 for the newspaper The Sun: Loris Francesco Copovilla, personal secretary of Pope John XXIII, stated that Pope John XXIII maintained contacts with extraterrestrials in the garden from the vatican.

Photograph recovered from the Internet

The topic of UFOs, always associating them with the belief in extraterrestrials that visit us, has always been a shameless promotion of Christianity. What if they are a fraud: satellites or drones placed that way in the sky, or a holographic projection using technology that projects those shapes in the sky.

There are photos that suggest that the same United States government that murdered the majority of natives (indigenous people) in the United States and imprisoned the few surviving natives on small reservations, could this same United States government manufacture airplanes shaped like flying saucers, airplanes manufactured by the United States military itself, and not extraterrestrials.

ARMY
USAF

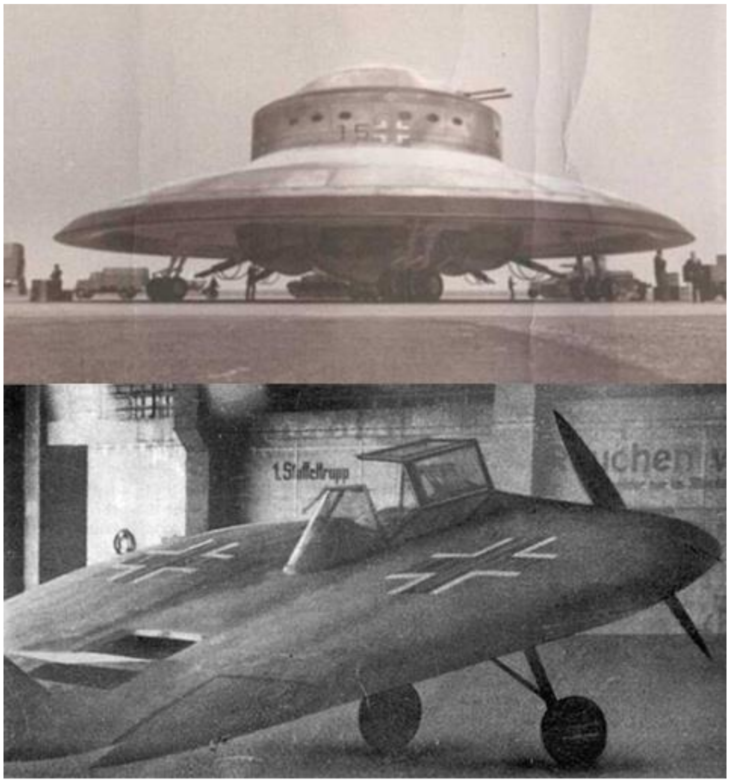
Photographs recovered from the Internet

There is possible evidence that the Nazis in Germany made airplanes with those same flying disc shapes. Planes made by evil humans from Earth and not by aliens.



Photographs recovered from the Internet

It seems that this lie that UFOs are ships of extraterrestrial origin is a lie used by governments and elites to divert attention, and a lie used to promote Christian beliefs.

Celebrities like Katty Perry and Kanye West in the ET music video promote the belief in extraterrestrials that visit us, and when in the lyrics of the song Katty Perry says the phrase: -Could you be the devil? Could you be an angel?

She is promoting Christian beliefs implying that the devil, angels and aliens are the same.

And when I see photos of the mestizo Anuel I can easily identify in the non-verbal language part: the type of look, gestures and facial expressions.

Photographs recovered from the Internet.

The same type of look, gestures and facial expressions that can be found in the portraits of the Argentine Domingo Faustino Sarmiento who was president of Argentina from 1868 to 1874, was a Freemason and openly said phrases where he expressed his hatred of the indigenous people. And he was also Catholic.

Exodus chapter 24, verses 5 and 6: And he sent young men of the children of Israel, who offered burnt offerings and bullocks as peace offerings to the Lord. And Moses took half of the blood, and put it in bowls, and sprinkled the other half of the blood on the altar.

Leviticus chapter 22, verses 26 and 27: And the Lord spoke to Moses, saying: When a calf, a lamb, or a goat is born, it will remain with its mother for seven days, and from the eighth day forward it will be acceptable as a sacrifice of fire offering.

Isaiah chapter 34, verses 6 and 7: The sword of the Lord is full of blood, It is full of fat, the blood of lambs and goats, Of fat from the kidneys of rams. For the Lord has a sacrifice in Bozrah, And a great slaughter in the land of Edom. Buffaloes and bulls will fall with them along with bulls. So their land will be drunk with blood, And their dust will be greased with fat.

There are vegans, especially New Age vegans, who claim that there are apocryphal gospels such as The Gospel of the Twelve Saints or The Essene Gospel of Peace where Jesus Christ, according to them, defends animals from other species.

However, regarding The Gospel of the Twelve Saints, it seems that this gospel was never an authentic gospel and was a gospel invented by an occult priest named Gideon Jasper Richard Ouseley, but, even if this gospel was authentic, in this gospel Jesus Christ makes it very clear that his father is the same god of Abraham and Moses, that is, the same god of the Old Testament, if Jesus Christ really defended animals of other species:

What are you doing claiming that your father and god is the same god of the Old Testament?

Extract from The Gospel of the Twelve Saints: God said to him: I am the god of Abraham, Isaac and Jacob.

As for The Essene Gospel of Peace, in this gospel it is written that Jesus Christ endorses the consumption of animal milk, for a cow to produce milk it is first impregnated and when the calf is born, if it is male, most of the time it is taken to the slaughterhouse because It's not profitable.

Excerpts from The Essene Gospel of Peace: And Jesus milked a sheep that was feeding among the grasses. And I empty the milk on the sand. Animal milk is good for food.

As for the canonical gospels, in them, Jesus Christ expelled demons from a man, allowed them to enter some pigs and then caused them to drown in the water, and, in addition, both Jesus Christ and his disciples participated in the Passover where they sacrificed A lamb.

Mark chapter 5, verse 2: And when he left the boat, immediately there came to meet him from the tombs a man with an unclean spirit. And they begged him very much not to send them out of that region. There was a large herd of pigs grazing there near the mountain. And all the demons besought him, saying, Send us to the swine, that we may enter into them. And then Jesus gave them permission. And those unclean spirits went out and entered into the swine, which were about two thousand; and the herd rushed down a cliff into the sea, and they were drowned in the sea.

Luke chapter 8, verses 27, 28, 30, 31, 32 and 33: When he arrived on land, a man from the city who had been possessed for a long time came to meet him; and he did not wear clothes, nor did he dwell in the house, but in the tombs.

When he saw Jesus, he cried out loudly, and fell at his feet and exclaimed with a loud voice: What have you to do with me, Jesus, Son of the Most High God? I beg you not to torment me. And Jesus asked him, saying, What is your name? And he said: Legion. Because a lot of demons have entered him. And they begged him not to order them to go into the abyss. There was a herd of many pigs there that grazed on the mountain; and they begged him to let them enter them; and gave them permission. And the demons came out of the man and entered the swine; and the herd rushed down a cliff into the lake and was drowned.

Luke chapter 22, verses 7 and 8: The day of unleavened bread arrived, in which it was necessary to sacrifice the Passover lamb. And Jesus sent Peter and John, saying, Go, prepare the Passover for us to eat.

A lie that the New Agers sometimes tell is that Jesus Christ worshiped a different god than the one in the Old Testament, but, in the New Testament, Jesus Christ says that his father is the same god as Moses, the same god as Elijah, the same god of Abraham, the same god of Isaac, the same god of Jacob and the same god of Abel.

Therefore, Jesus Christ makes it very clear that his god and father is the same god of the Old Testament, and I have also read the apocryphal gospels and in them practically the same thing is written that Jesus Christ said that his father is the same god of Moses and of Abraham, that is, the same god of the Old Testament.

Who are they trying to fool?

Matthew chapter 8, verse 11: And I say to you that many will come from the east and the west, and will sit with Abraham and Isaac and Jacob in the kingdom of heaven.

Matthew chapter 22, verses 31 and 32: But regarding the resurrection of the dead, have you not read what was said to you by God?, when He stated: I am the God of Abraham, the God of Isaac and the God of Jacob . God is not God of the dead, but of the living.

Mark chapter 12, verse 26: But regarding the dead being raised, have you not read in the book of Moses how God spoke to him in the bush, saying: I am the God of Abraham, the God of Isaac, and the God of Jacob.

Luke chapter 20, verses 37 and 38: But as for the dead being raised, even Moses taught it in the bush passage, when he calls the Lord, the God of Abraham, the God of Isaac, and the God of Jacob. Because God is not the God of the dead, but of the living, since for him all live.

Furthermore, the Bible states that salvation comes from the Jews and the Jews are the authors of the Old Testament, therefore, this is another proof that the father and god of Jesus Christ is the same as the Old Testament.

John chapter 4, verses 22: You worship what you do not know; we worship what we know; because salvation comes from the Jews.

In ancient times, there were Gnostic religions that were practically the same as the New Age, some of them were Christian that contained Buddhist and Hindu beliefs such as reincarnation, others mixed the belief in Jesus Christ with pagan beliefs and pagan gods like the Greek gods.

In any case, these Gnostic religions repeated the same lie that Jesus Christ worshiped a different god than the one in the Old Testament, but if one reads both the canonical gospels that are in the Bible and the apocryphal gospels that are not in the Bible, in them Jesus Christ makes it very clear that his god is the same god of Moses and Abraham, and, therefore, the same one as the Old Testament.

Furthermore, these Gnostic religions were so stupid that in their own gospels discovered in Nag Hammadi, they left evidence that Jesus Christ worshiped the same god of the Old Testament, and in their own Gnostic gospels these religions validate the Old Testament.

Gnostic Gospel According to Philip, verse 100: -God planted a garden-paradise. Humanity lives in the garden, but their hearts do not exist in God. This garden is the place where it will be said: My son, eat this or do not eat that, according to your desire. In this place I will consume all things, for the tree of knowledge exists there. He killed Adam, but the place of the tree of knowledge gave life to humanity. The Torah is the tree.

The Torah called Pentateuch by Christians are the first five books of the Old Testament: Genesis, Exodus, Leviticus, Numbers and Deuteronomy written by the Jews.

The Jews take this number five from the pentagram (five-pointed star) that the Greeks like Pythagoras and his Pythagorean school used as a symbol of the Greek goddess Hygieia to represent the five senses (sight, smell, taste, hearing and touch).

In their hatred of the indigenous people: these religions claim that the indigenous gods in the form of a snake or dragon such as Quetzalcóatl, Kukulkan and Amaru represented the devil, and that, therefore, the indigenous people are children of the snake that represents the devil, and that they They deserve the hatred and oppression they suffer.

But, the number 5 (pentagram) is a symbol of the Greek goddess Hygieia, from which the Jews got the idea for the Torah (Pentateuch for Christians) from the pentagram.

And it turns out that in the white culture of the Greeks: the snake was a symbol of the Greek goddess Hygieia, but since it is a white culture from which the Jews took ideas for the Old Testament, they never say that the Greeks and the whites are children of the Devil.

Statue of the Greek goddess Hygieia with her serpent symbol and Greek coins with the Pythagorean Pentagram:

By the way, it was from that same Gnostic Gospel of Philip that Dan Brown, who says he feels great admiration for the Freemasons, took the idea that Mary Magdalene was the wife of Jesus Christ for his book The Da Vinci Code.

Gnostic Gospel of Philip, verse 36: - There were three named Mary who walked with the Master all the time: his mother, his sister and Magdalene, who is called his partner. Thus his real Mother, Sister and Partner, is also called María.

When I went to the cocoa ceremony given by an indigenous person from the Maleku ethnic group, this ceremony was attended by white people who are New Age, and in the lunch part of the space I remember that these white people mentioned Mary Magdalene.

This is a kind of Christian feminism, which is totally absurd because everything that comes from the Jews (Christianity and Islam) is sexist, and those religions are sexist in their essence, they are sexist at their roots.

Dan Brown is also the writer of the book Angels and Demons, a book where he suggests that the Illuminati exist in the present and that their purpose is to destroy the Catholic Church, thereby giving validity to conspiracy theories invented by Christians, conservatives, the Right and the Neoliberals.

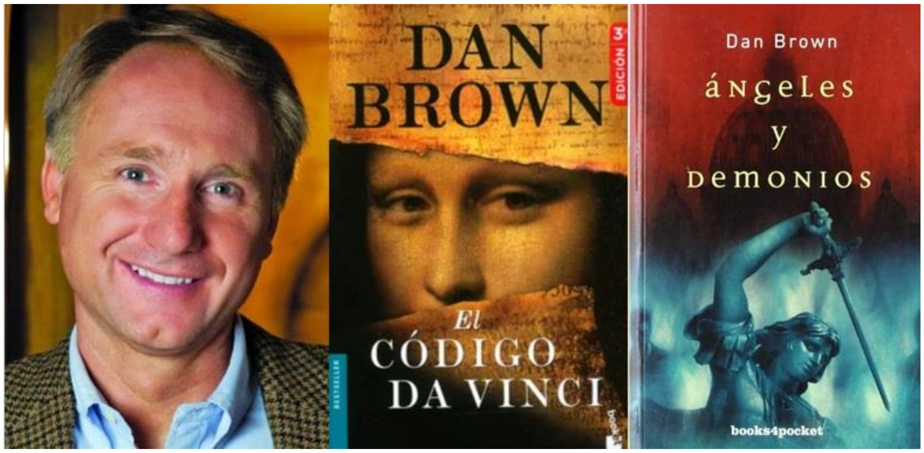
Also, a film was made based on the book Angels and Demons by Dan Brown, with the same name produced by Imagine Entertainment, which is associated with Universal Studios and distributed by Columbia Pictures.

The same people who invent conspiracy theories to benefit Christianity, the Right, Neoliberals and conservatives say that the entertainment industry such as movies and series are controlled by the elites in power, the question is:

What is this entertainment industry doing promoting the same conspiracy theories that defend the church?

When I saw the movie Angels and Demons I remember very well that a recognized bank financed the screening of the film, because the note appeared on the screen, those who invent conspiracy theories say that the banderos are part of the Illuminati elite, the question is:

What are they doing financing the screening of films where they are supposedly exposed?



Photographs recovered from the Internet

Another reference where the Old Testament written by the Jews is given validity in the Gnostic Gospel of Philip written by the Gnostics:

Gnostic Gospel of Philip, verse 46: First the adultery occurred, then the murder. And Cain was conceived in adultery, for he was the son of the serpent. That's why he became a murderer like his father, and killed his brother.

Remember that, in the Christian religion and related to the Freemasonry of the Mormons or the Church of Jesus Christ of the last days, it is believed that people with black skin and that people with brown skin such as indigenous people, have those skin tones like a curse because they descend from Cain.

Cain, the fictional character of the Old Testament, like everything written by the Jews, who offered vegetable offerings to that god, but that god preferred the animal sacrifices that Abel offered him and rejected the vegetable offerings that Cain offered him, demonstrating the stupidity that They are the vegans and animalists who believe in this god.

In the Gnostic gospel of Thomas, Jesus Christ makes it clear that his god is the same god of the Old Testament when he mentions the fictional character of Adam invented by the Jews:

Gnostic Gospel of Thomas, verse 85: Jesus has said: Adam came into existence by great power.

Also, these apocryphal gospels, among which the Gnostics are found, are promoted by the New Age to promote the belief in extraterrestrials who visit us with parts with this:

Excerpts from the Gnostic Gospel of Judas: - Adamas was in the first luminous cloud. Judas lifted his eyes and looked at the luminous cloud, and entered it. Those on the ground heard a voice coming from the cloud.

It seems that the New Age and Freemasonry are not new, everything is part of a plan of the Jews since ancient times, because Gnosticism emerged from Judaism itself in the Middle East.

Conspiracy theories are invented by religious fanatics and people on the Right, these beliefs generate hatred against minorities. These nefarious beings who invent conspiracy theories also promote the perverse belief in the antichrist who causes murders.

Screenshots of thumbnails of channel videos Krometana gives his opinion where he supports VOX, speaks out against abortion and makes people believe that it is the same as killing a baby, and defends Bullfighting.

Krometana is the greatest example of the evil that is the Right by deceiving people into believing that all abortions are fetal and that according to them they feel, even though they do not have a formed nervous system, these people defend zygotes and embryos that do not feel, are sensitive to respecting the life of zygotes and embryos that do not feel because they do not have a formed nervous system, and even use corny words like baby to refer to zygotes and embryos.

While they are totally insensitive and cruel with lives that, if they feel that they have a nervous system formed as in the case of bulls that, if they feel and they don't care, they justify bullfighting with the fact that it is a tradition when a tradition should never be above lives with the capacity to feel.

They are also totally insensitive and cruel to human lives that do feel unimportant, causing them pain and suffering by promoting machismo, religious fanaticism, hatred of the indigenous peoples of the present, racism, homophobia and nationalism.

They consider being compassionate and sensitive to the pain and suffering of human lives and animals of other species that, if they feel having a formed nervous system as a weakness, just like the conservatives of our grandparents and the people of before that they idealize so much some ignorant people.

Other trashes like Krometana are Jordan Peterson and Ben Saphiro. Tolerance is a crime when what is tolerated is evil, freedom of expression or opinion should be considered a crime when it causes harm to innocent human lives, causes harm to animals of other species and causes damage to the environment.

By the way, Ben Saphiro is Jewish:

In this video, the criminal on her channel Alienada Café says the phrase - With the New Law of Spain, animals are already sentient beings.

It is strange that the clown says that in Spain the lives of animals are defended, when the Spanish government and its perverse laws defend hunters and bullfighters, even those who insult or call a hunter or a bullfighter a murderer are legally punished, the same Facebook allows bullfighters and hunters to post photos of what they do.

It is curious that these people complain that we progressives try to impose, when they try to impose on us, that we all think like them and have the same concept of murder based on Christianity where according to Christianity only torturing is a crime and murder and kill a human being, but not animals of other species.

On the other hand, when this Right-wing and Neoliberal criminal woman says the phrase: - With the New Law of Spain, animals are already sentient beings.

She does it as if to imply that the fact that animals can feel, according to her, is a story of communism and the other Left, that according to her it is an invention of those of us who are progressive and that according to her it is an invention of governments.

Do you realize why people from the Right and Neoliberals or libertarians are the most ignorant and stupid people that exist, and that is also why they are the ones who believe the most in conspiracy theories?

The fact that animals can feel physical pain and suffer emotionally is not something that communism invented, nor that we progressives invented it, nor that governments invented it, it is something confirmed by science, but we cannot wait more people who defend and promote right-wing parties that are anti-science because they promote hoaxes against vaccines, support anti-vaccines and other conspiracy theories such as denying that climate change exists or downplaying its importance.

In no way does valuing and respecting the life of animals of other species take away humanity from a human being, but what does take away humanity from a human being is being cruel and insensitive to the pain of others, of beings with the ability to feel whether these most vulnerable humans or whether these animals are from other species or any sentient being that may exist in the future.

This Spaniard named Frank Cuesta is also from the Right since he supports VOX.

A mistake that many make is to believe that, if someone likes animals and studies animals, like, for example, that Spanish and Right-wing character called Frank Cuesta who has advertising in media such as Animal Planet, among others, It means according to your ignorance that you value and respect the life of animals of other species, this is false.

To value and respect the life of animals it is not necessary that the person like them, nor be interested in studying them.

In a video titled: Frank Cuesta de los toros: Bullfighters are not murderers, they are people. Frank Cuesta affirms that bullfighters are not murderers and that prohibiting them is horrible.

In speciesist society, it is true that the concept of murder only applies when someone kills another human, we must keep in mind that concepts evolve and change over time, and there are people who do not share the definition of murder of a sick and speciesist society.

It is curious that these people talk about freedom of expression and opinion, but that it is fascist governments like that of Spain and these same people who try to censor the freedom of expression and the right to express an opinion of those of us who do consider bullfighting as murder.

What if someone said that banning the rape and murder of humans was horrible?

Why do people like Frank Cuesta think it's good that things that harm human lives are banned, but they think it's horrible that atrocities that harm animals of other species are banned?

Dalas Review published a video called: Vegan humiliated by a Farmer BOY on TikTok. A phrase that Dalas Review said in said video is: - animals are not good, in fact, they are quite evil, especially to each other.

As I explained before, valuing and respecting the life of animals of other species is not humanizing them, but believing that they are evil or immoral as the Dalas Review does or as Christianity does is humanizing them.

In agreement, with science, the intelligence of many animals is the intelligence of a month-old child, and in the most intelligent ones, such as dogs, cats and pigs, the intelligence is like that of a one-year-old child, of two years and maximum of three years, Some research says that moral conscience in humans begins to develop up to four years of age.

That is, animals of other species do feel physical pain because they have a central nervous system (brain) and nociceptors (pain nerve endings), and they suffer emotionally because they have a limbic system.

But, they completely lack a moral conscience, and this means that they do not know what is good and what is bad, therefore, by not understanding what good means, nor what bad means, They cannot be accused of being evil or being kind because their behavior is not guided by a moral conscience that tells them what is good or what is bad.

In the video: Johnny Depp exposes DEFINITIVE PROOF vs Amber Heard. He could win his trial. Dalas states the following: - because in fact they canceled other Hollywood actors like Chris Pratt because it was discovered that he voted for Trump, oh my god, what a crime, he is a devil on earth (in a mocking and sarcastic tone).

For those who don't know: Chris Pratt is a billionaire Hollywood actor who hunts for pleasure without it being a necessity to survive. And I recognize those types of looks, gestures and facial expressions from thousands of miles away.

Many who hate indigenous people as a part of Brazilians have made comments calling indigenous people ordinary or ordinary, referring to indigenous ethnic groups where nudity is practiced such as those of Xingu and others, since they hate the indigenous people because of their physical appearance.

It turns out that Chris Pratt, like Eduardo Verástegui, has posed completely naked in photos, and Chris Pratt has appeared completely naked in Hollywood movie scenes.

Photographs recovered from the Internet

But, since this is a white man from the United States, in favor of Donald Trump and who hunts for pleasure without it being a necessity to survive: these trash from Brazil called Roni Secco, Miro Carpes and Maria Clara Pulcheirio do not consider it disgusting, no They consider it ordinary.

Since Chris Pratt is an old man with a fat body like Donald Trump's, white, with the appearance of a Viking or Celtic: I suppose that the Right and Neoliberal garbage that supports VOX, Donald Trump and Jair Bolsonaro, surely even have many fantasies to see those photos and movie scenes where he appears naked.

How the entertainment industry in the United States and the world is controlled by neo-Nazis and Zionists who hate natives (indigenous people): Chris Pratt acts as a cowboy in the movie The Magnificent Seven.

Image recovered from the Internet.

Many people, in their stupidity, can say that the film does not promote hatred of indigenous people (natives) because one of the magnificent seven is a native named Red Harvest who is played by actor Martin Sensmeier.

Photographs recovered from the Internet

But, since we already know that the majority of humanity does not reason, I feel obliged to explain it: this, as in other films and series, represents the indigenous (native) who hates himself, who is a traitor, and that serves the interests of the white, Christian man.

On the other hand, another character in this disastrous film is Jack Horne who, according to the character's description, was a religious Montañez who made a living killing Indians. And although he is just a character in a movie, he really has the appearance of being a murderer of indigenous people, and that Viking or Celtic appearance.

Image recovered from the Internet

And that Jack Horne will dedicate himself to murdering indigenous people, in the film they present it as if it were a profession as respectable as growing food, teaching or any other profession. In this film they present it as if it were something good, sublime and honorable.

In the video: VioPet: Elisa Beni, Irene Montero, Rocío Vidal and animalism of Un Tio Blanco Hetero, the guy mentions Adela Cortina's statements which are the following: - animals are valuable, but only humans have rights and dignity . I believe that animals do have value, and there should be regulations for their good treatment, but they do not have dignity, because only humans have it, according to the 1948 Declaration.

It seems that these people forget that humans are animals, that we belong to the kingdom Animalia, to the subphylum of vertebrates, to the class of mammals and to the order of primates, therefore, to say that animals of other species They lack dignity, it is the same as saying that humans also lack dignity since biologically we are animals, it seems that they believe the Christianity story that we are not animals.

On the other hand, the 1948 Declaration is an outdated declaration and invented by people who rely on prejudices of monotheistic religions (Jewish, Christian and Islamic) and their books (Torah, Bible and Koran) to say that animals lack dignity, because this idea that animals of other species lack dignity is based on a religious belief that says that humans are created in the image and likeness of that evil god, and that only humans have a soul.

Regarding the fact that animals of other species do not have rights, we return to the same thing, humans are animals and saying that animals of other species do not have rights is the same as saying that humans do not have them either, since we are animals, but these people believe the evil of Christianity that says that we are not animals.

Other times, they say that animals do not have rights since to have rights you have to fulfill duties and animals of other species cannot fulfill duties, But, they forget that newborn children and very young children cannot fulfill duties and do have rights, and that humans with a severe mental disability also cannot fulfill duties and do have rights.

And finally they say that they do not have rights because rights are always legal rights, as if laws were always something just and good, they forget that before human slavery was legal, that before human slaves lacked legal rights and that before the law allowed have human slaves.

The species that have most overpopulated the earth, generated pollution and caused destruction to the environment are humans who are not indigenous, we have almost reached eight billion humans and we do not see Adriá Nuñez and those who think like him, proposing that exterminate the majority of non-indigenous humans to control their overpopulation.

If we talk about invasive species, white European humans (Spanish, Portuguese, French, Irish, Scottish, Italian, English and British) and their descendants (Creoles and mestizos) were at the beginning of colonization and they continue to be an invasive species at present, who came to steal lands from the indigenous people, to exterminate them, to replace them and to harm them.

And that is why at present, indigenous peoples are only 5% of the world population and continue to suffer the consequences of colonization in the present, colonization that only benefited Europeans, Creoles and mestizos.

In fact, miscegenation, in the case of the Spanish and Portuguese, was part of the plan so that white genetics would prevail over indigenous genetics, the following generations would become increasingly whiter, and to impose Christianity on the following generations, to mestizos were always taught to see indigenous people as inferior and even in the present there are mestizos who see indigenous people as inferior.

Another nonsense that Adriá Nuñez says is: - you cannot treat animals like people, in fact, normally those who want to treat animals like people what they are basically looking for is to treat people like animals.

In the Christian mentality of these people, treating like people means respecting and valuing, and treating like animals means mistreating, torturing and murdering, but beyond this it is about the fact that humans are also animals, and, therefore, by respecting and valuing the life of animals of other species for the sake of feeling, human life is also respected and valued because we are animals and we also feel.

Another disastrous YouTuber is NauterPlay who in a video agrees with Libertad Y Lo Que Surja that hunting is necessary to control overpopulations, many people think that people from before and people now are totally different, but the reality It's not like that, many young people today have their brains washed and full of garbage by these YouTubers who should have a high, no subscription and no visits to their videos.

However, these same disastrous YouTubers who have unfortunately become an example to follow for many young people who are already brainwashed by the Right, are the same ones who call sick, excrement with legs, madman, murderer, animal abuser, damned psychopathic, vomiting, disgusting and mentally ill Peluchin for torturing, mistreating and murdering cats.

Another guy of the same ilk is Jordi Wild who has channels like El Rincón De Giorgio and The Wild Project who is a guy who has attacked those of us who defend animals in his videos, and who has collaborated on videos with Frank Cuesta, where In these videos, he justifies and supports hunting for pleasure and bullfighting. Jordi Wild also calls Peluchin a son of a bitch, a disgrace, a bad person, cruel and a psychopath.

It is true that Peluchin is a criminal and murderer who should and deserves to be punished, the double standards and hypocrisy of these youtubers is that they only care about the pain and suffering of animals of other species when it is only dogs and cats, as if only dogs and cats felt, when other animals also feel.

If someone tortures, mistreats or murders a cat or a dog, for these YouTubers, they are a murderer, criminal and bad person, but, if someone tortures and murders a bull as in the case of bullfighting, or tortures and murders bullfighting animals, other wild species, as in the case of hunting for pleasure, these Youtubers do not think that he is a murderer, nor that he is a criminal, nor that he is a bad person.

When it is exactly the same that someone tortures, mistreats or murders a cat or a dog as someone tortures, mistreats or murders a bull in bullfighting or wild animals of other species in hunting for pleasure, but for these YouTubers it is not the same, demonstrating his evil.

And they even consider bullfighting and hunting for pleasure as something respectable, these YouTubers are a cancer and their content is carcinogenic.

Do you realize how hypocritical and double standards these Youtubers are, because they should not be an example for anyone to follow and they should not even have views on the videos on their channels, or subscriptions to their channels?

The YouTube channel Lada Amores, who also has another channel called Lada Opina, is another pathetic and unfortunate channel that seeks to favor Right-wing parties like VOX, and I recommend everyone to unsubscribe from those channels and never watch their videos again.

In a video of the guy titled: FRANK CUESTA CANCELED for VOTING for VOX. On her channel Lada Opina, this woman defends VOX and those who vote for him, but, in addition, we see comments from ignorant people on her channel who believe that Frank Cuesta is against bullfighting and against hunting for pleasure just to have a wildlife refuge, be an expert in wildlife and like animals.

Many people, in their ignorance, think that the fact that someone has a shelter to help wild animals, who is a biologist, an expert in wild animals and likes animals makes them defenders of animals, when there is nothing further from reality; Many people who are biologist, experts in wildlife and who like animals are also speciesist people, some of them are also bullfighters and hunters for pleasure without it being a necessity to survive.

The truth is, it is better for someone not to like animals of other species, but respect and value their life, without distinction of species.

Another unfortunate Youtuber who defends Frank Cuesta is WildHater, he is another Youtuber who calls Peluchin a son of a bitch and a murderer, but he thinks it is very good that Frank Cuesta justifies bullfighting and hunting for pleasure, and it seems respectable to him, when those animals of other species that are not cats or dogs also feel by having a nervous system.

If they consider Peluchin a murderer, son of a bitch, garbage and scum for torturing and killing cats, in the same way, they should consider those who torture, mistreat and murder animals of other species that are not cats or dogs, and those who They defend or justify like Frank Cuesta, and not be speciesists where only the life of dogs and cats is valid for them, but not the life of animals of other species.

When the elections were in Brazil between Jair Bolsonaro and Lula, although Lula is bad, but Jair Bolsonaro is worse: many Brazilians who are Christians and stupid, said that with Lula marijuana and drugs were going to be legalized.

It is proven that the fact that drugs are illegal does not reduce their consumption, what does reduce drug consumption is prevention through education. It is proven that the fact that many drugs are illegal is what increases the problem of drug trafficking.

On the other hand, alcohol and tobacco are drugs, any expert knows that, even if they are legal, they are drugs. These Christians who defend the Right and the Neoliberals to oppose the legalization of drugs like Agustín Laje, are not opposed to alcohol and tobacco remaining legal.

And many of these Christians consume the drug of alcohol in alcoholic beverages, and they consume the drug of tobacco in cigarettes. It is proven that alcohol consumption and tobacco consumption cause more deaths than marijuana.

The majority of traffic accidents occur due to the consumption of alcoholic beverages and the majority of lung cancer is related to tobacco consumption, but these right-wing Christians and neoliberal Christians do not oppose these legal drugs.

Consumo de alcohol aumenta 17 veces el peligro de accidentes de tránsito

News titled: Alcohol consumption increases the risk of traffic accidents 17 times. Recovered from: https://www.diariolibre.com/actualidad/salud/2022/11/16/alcohol-aumenta-17-veces-el-peligro-de-accidentes/2141826

The truth is that tobacco and alcohol have nothing different from other drugs, they are no less harmful than other drugs, they are the same as other drugs, but these Right-wing and Neoliberal garbage do not oppose these drugs just because they are legal by law and because they consume them.

And I'm not going to lie, I drink alcoholic beverages from time to time, I have a beer or two, but I'm not a moralist, hypocrite, or double-standard, wanting drugs other than alcohol to be illegal.

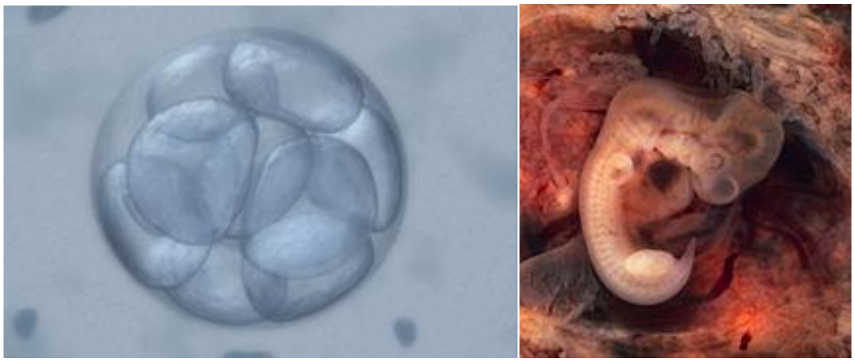
People who consume drugs are going to consume them whether legal or illegal, the fact that some drugs are illegal does not prevent their consumption and does not prevent it.

The issue of abortion is another issue that those on the Right and Neoliberals are quite bothered by. This is because pro-lifers carry out campaigns where they imply that all abortions are fetal, that there is a fetus formed from conception and that there is the capacity to feel from conception.

I understand that the majority of humanity, in addition to being perverse, is quite ignorant, and they believe that from conception there is a fetus formed with the capacity to feel, and they also believe that zygote, embryo and fetus mean the same thing.

But, the few of us who are not ignorant, know that from conception there is no formed fetus, from the first day of conception there is no ability to feel, and we know that both in human pregnancy and in the pregnancy of animals of other species There are three stages: zygote, embryo and fetus. And we know that zygote, embryo and fetus are not the same.

This is a zygote (dividing cell) and an embryo:



Photos recovered from the Internet

Scientifically, zygotes and embryos do not feel physical pain because the central nervous system (brain) has not been formed and the nociceptors (pain nerve endings) have not been formed and they do not suffer emotionally because they have not formed the limbic system, which is the part of the brain that is in charge of emotions.

And he is a fetus:

Photograph recovered from the Internet

A fetus is not a zygote. A fetus is not an embryo. But, in the ignorant mentality of the majority: zygote, embryo and fetus are the same.

Right-wing and Neoliberal people like the Argentine Agustín Laje and those Brazilians he mentioned oppose the abortion of zygotes and embryos that do not feel, but they support that indigenous people who do feel suffer invasions of territories, abuses, rapes, torture and murders, where they are abused , tortured and murdered even indigenous children.

The Right and Neoliberals such as Donald Trump and his children in the United States, and VOX in Spain, oppose the abortion of zygotes and embryos that do not feel, but they support hunting for pleasure, cockfighting and bullfighting where torture and kills animals that do feel because they have a formed nervous system.

On the other hand, these monsters of the Right and Libertarians or Neoliberals oppose that a woman who was raped has the right to abort because they say that the child, referring to zygotes and embryos (which sounds like a joke or joke that they refer to a zygote or embryo as if it were a child) is not to blame for an adult man raping the woman, it is the fault of the rapist and not the child (zygote or embryo).

But, these monsters worship a nefarious and fictitious god invented by the Jews who in the Bible orders the murder of children and pregnant women for what adult men did:

Isaiah chapter 13, verse 18: They will sweep away the young with bows, they will not have mercy on the fruit of the womb, nor will their eyes have mercy on the children.

Hosea chapter 13, verse 16: Samaria will be desolate, because she rebelled against her God; They will fall by the sword; Their children will be dashed to pieces, and their pregnant women will be cut open.

And a disastrous and fictitious god invented by the Jews (Jews who are a horrible religion and not a race) who in Isaiah, which is based on the Old

Testament of the Christian Bible and the Jewish Tanakh, in addition to ordering the murder of children, that god orders the rape of women (but they have the nerve to accuse all the thousands of indigenous ethnic groups and all the indigenous people of being sexist):

Isaiah 13, verses 16 and 17: Their children will be dashed before them; Their houses will be looted, and their women raped. Behold, I awaken the Medes against them.

These monsters who call themselves pro-life care about zygotes and embryos that scientifically do not feel, but not the lives of indigenous children who do feel:

And the damn shit of the majority of humanity that is not indigenous is totally complicit and guilty for this, for their silence, for their indifference and for voting for deputies, senators and presidents who cause this.

The majority of humanity that is not indigenous are not innocent victims, but the criminals who invent conspiracy theories to defend the majority, Christianity and conservatism present the majority as innocent victims, and even people who claim to be progressives of Left say the poor and middle class majority are innocent victims.

These pro-life monsters care about zygotes and embryos that scientifically do not feel, and the stupid people say that a zygote and an embryo are children, ha ha ha, but, they do not care that children who do feel are sexually abused and raped by Catholic priests, by evangelical pastors and Mormons like these disgusting monsters:

Movies and series that are part of the entertainment industry that is part of the system like The Gift say that the majority of humanity deserves another chance. And the system always tries to justify the majority for the damage they do and for being accomplices to criminals, overlapping them and telling them what they want to hear, that they are good people.

The worst of all is that the majority believe they are good because of their beliefs and their ways of thinking, they are not aware of the garbage they are, they believe they are good people or good citizens as the Brazilians of the Right and Neoliberals say 🤢 🤮 🤢 🤮 🤢 🤮.

But the majority of humanity who belong to Christian religions such as Catholic, Evangelical or Mormon are rubbish when they want these religious people who sexually abuse or rape minors to be covered up, when they justify them by saying that they are simple errors, when they do not They want people to talk about the issue and to be complicit with these pedophiles they say Christian phrases like don't judge so you don't be judged 🤢 🤮 🤢 🤮 🤢 🤮.

Many of these Right-wing and Neoliberal morons oppose the cultivation of hemp even to make paper, plastic and rope, just because marijuana is a species of hemp. And, furthermore, stupid people do not understand that marijuana is not the only species of hemp.

Many solutions that non-indigenous people propose to protect the environment are not solutions, for example, they propose electric cars, when to extract nickel from electric cars and lithium for electric car batteries, the environment is contaminated and destroyed.

The real solutions to protect the environment are: 1- The protection of indigenous territories and guarantee the rights of indigenous people, 2- Eliminate the consumption of red meat from cows, bulls, pigs, sheep and goats, and eliminate the consumption of animal milk and dairy derivatives, 3- Eliminate the consumption of Soy and 5- Use hemp to make paper and plastic.

A plastic bag made from petroleum takes 150 years to decompose. While a plastic bag made from hemp takes only 80 days to decompose.

To make paper from trees, trees that took 10, 15 or more years to grow are often cut down and that causes a lot of damage to the environment. While to make hemp paper, hemp plants that only took three months to grow are cut.

Some have proposed growing bamboo as an eco-friendly option for making paper, but bamboo takes 5 years to grow and bamboo takes up more land space than hemp so growing bamboo causes more deforestation than hemp. Therefore, bamboo cultivation is not viable for the environment.

Hemp paper and hemp plastic. Photographs recovered from: http://cannarelax.com/el-canamo-el-papel/ , http://www.buddhagenetics.com/las-utilidades-del-canamo/ and http://www.sietede.com/2015/11/21/que-es-el-canamo-5-usos-que-deberias-conocer/

Since most people are ignorant: I once told someone about paper, plastic and ropes made from hemp, and he told me that if that were done, students in schools and colleges would use hemp paper and hemp plastic for smoking.

For someone to say or write that a sheet of paper made from hemp and a plastic made from hemp can be smoked sounds like a joke. 😂 🤣 😂

If someone burns a sheet of paper made from hemp, it burns the same as a sheet of paper made from trees; it cannot be smoked. And if someone burns plastic made from hemp, it burns just like plastic made from petroleum, you can't smoke it. But the majority are ignorant.

The human overpopulation of non-indigenous humans that generates so much air and water pollution is also a command from that god in the Bible.

And from there we can begin to see why the crazy people who invent conspiracy theories to support the human overpopulation of those who are not indigenous, invent conspiracy theories that say that an elite wants to reduce the human population, even if it is not true, because the human population of non-indigenous people continues to increase and no one does anything to stop this.

While the indigenous people who, if they take care of the water and the forests, are only 5% of the world's population, and, even so, businessmen, politicians and the elites in power want to eliminate all indigenous people.

Genesis chapter 1, verse 28: And God blessed them, and said unto them, Be fruitful and multiply; fill the earth.

Genesis chapter 9, verse 1: God blessed Noah and his sons, and said to them, Be fruitful and multiply, and fill the earth.

Genesis chapter 9, verse 7: But be fruitful and multiply; procreate abundantly on the earth, and multiply in it.

Genesis chapter 26, verse 4: I will multiply your descendants as the stars of heaven, and I will give to your descendants all these lands; and all the nations of the earth will be blessed in your seed.

Obviously when that nefarious god gives the order to humans to overpopulate the earth, he refers only to humans who are not indigenous, because before the arrival of the Europeans, the indigenous people did not believe in that god, and before When the Europeans arrived, the indigenous people had their own gods that represented forces of nature.

Also, right-wing politicians like Donald Trump are those who promote conspiracy theories that deny climate change, or like VOX who, although they do not deny it, do downplay the importance of climate change, affirming that the responsibility lies only with governments and companies, and they take responsibility away from the majority of humans who buy products from those companies and vote for those governments.

YouTuber Dalas Review, who on several occasions has defended right-wing politicians like Donald Trump and right-wing parties like VOX, made a video titled: The truth about Climate Change: THEY LIED TO YOU AT SCHOOL.

In that video, the atheist trash who calls himself Dalas Review claims that our individual actions do not count in stopping climate change and taking responsibility away from the majority of humanity, which is the same thing that Christians and conservatives who invent theories of conspiracy to remove responsibility from the majority and place the majority as an innocent victim.

The Dalas Review video was denied by another YouTube channel called EcoDiuku with a video titled: DALAS REVIEW RESPONSE VIDEO: The truth about Climate Change: They Lied to You at School. Dalas Review made the video that I already mentioned where it states that our individual actions are irrelevant in the fight against climate change and that we can do nothing to stop it, this same character says that he would like to be able to dedicate himself to researching how to lengthen our life or become immortal through science.

What is the point of searching for ways to stop aging, lengthen our life or be immortal if at the same time this person claims that our individual actions do not count to stop climate change, That is to say, that life on earth is going to end anyway and we are all going to die?

If in any case, we are going to die from climate change, for Dalas Review it is useless what we can do individually, and he says this, because he knows that he gives publicity to right-wing parties like VOX or right-wing politicians like Donald Trump that promote conspiracy theories that deny climate change or downplay it, then it is useless to seek to stop aging, extend life or be immortal because we will still die from climate change and pollution.

So much so that the clowns boast that they respect human life and that according to them human life is the most important thing (referring only to the life of those who are not indigenous because the life of the indigenous people does not matter to them), and these clowns do not care that the air pollution and water pollution that they support with their silly theories cause human illness and death.

Another stupid thing that those who invent conspiracy theories say is that the HAARP antennas located in Alaska modify the climate of the entire planet, which is absurd, antennas located in one place do not have the power to modify the climate of the entire planet.

These criminals are simply crazy, furthermore, the HAARP project facilities are publicly accessible, anyone can visit them, and see that the garbage written and said by those who invent conspiracy theories about HAARP is just a vile lie.

The criminal who invents conspiracy theories, Christian and New Age that goes by Parafantático said in a video called: GLOBAL WARMING - The Hidden TRUTH. The following stupidities:

- ● - That is real censorship, not what is happening with Global Warming.
- ● - This is what many of us refer to as the New World Order.
- ● - For those awake to this channel.
- ● - They make us feel guilty for problems that we did not generate, such as Global Warming.
- ● - The reduction of the world population, something that is already being done in a very discreet way.
- ● - how everything leads to blaming us as individuals
- ● - If climate change is caused by humans or solar activity.
- ● - Agenda 2030.

Parafantastic is an example of how perverse conspiracy theories are. On the other hand, these criminals refer to the protection of the environment as an agenda, but they never talk about the agenda they have to end life on this planet. which also means the end of human life due to the theories in favor of air pollution and water pollution that they promote based on the Bible.

It is curious that they complain about humans being blamed for climate change that is clearly caused in large part by the majority of humans who are not indigenous, But, never talk about the guilt that Christianity has placed on human beings by talking about the stupidity of a hell and a tyrant god who punishes people with a hell for the mere fact of questioning him or not worshiping him.

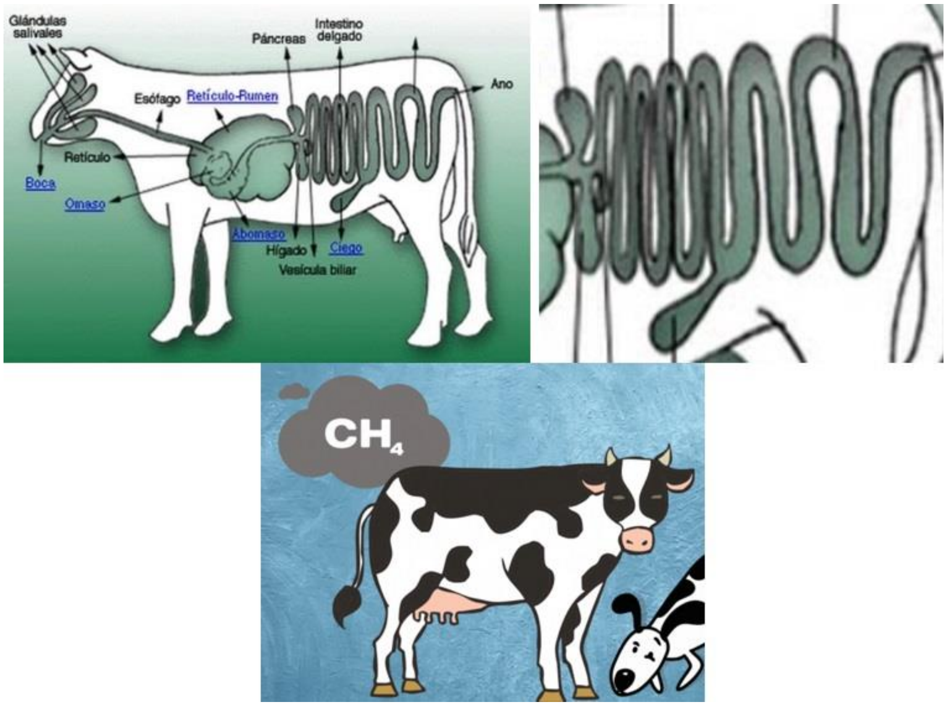
I don't understand how the majority of humanity can be so stupid to believe in these clowns who invent conspiracy theories, but I guess it has to do with the fact that they defend the majority and the majority loves to pretend to be innocent victims.

And if there is an overpopulation of the majority of those who are not indigenous because they are 95% of the world's population, they are polluting all the air and contaminating the water. While indigenous people are only 5% of the world's population and yet the criminals in power want to eliminate them all.

The lifestyle of the majority that is not indigenous, being a lifestyle based on individualism, selfishness and consumerism, is contaminating and destroying the entire planet. Although the majority of indigenous people use technology, indigenous people are not consumerists, they are not individualistic and they are not selfish.

The majority who are not indigenous consume red meat from cows, bulls, pigs, sheep and goats, and consume animal milk and dairy derivatives. And the reproduction of animals such as bulls and cows, having a larger digestive system than other animals, causes many methane and carbon dioxide emissions that harm the environment.



Images recovered from the Internet

Furthermore, in livestock farming that raises bulls, cows, sheep and goats: many hectares of forest are destroyed and many hectares of jungle are destroyed to make pastures for the animals.

Photographs recovered from the Internet

In my research, I have read comments from criminals in Brazil who defend agribusiness that harms indigenous people, stating that agribusiness feeds us all, including the indigenous people themselves.

The majority of humanity is criminal: it is fed by the criminal agribusiness industry because they eat red meat from cows, bulls, pigs, sheep and goats, and consume animal milk and dairy derivatives.

But, the criminal agribusiness industry does not feed me because I would never eat beef, I would never eat bull meat, I would never eat pork, I would never eat sheep meat, I would never eat goat meat, I would never drink animal milk, I would never consume dairy products and I would never consume soy.

And the majority of indigenous people are not fed by agribusiness because, although it is true that they hunt to survive (not for pleasure) and that they fish to survive (not for pleasure): the majority of indigenous people do not eat beef, the majority do not They eat bull meat, the majority do not eat sheep meat, the majority do not eat goat meat, the majority do not drink milk, the majority do not consume dairy products and the majority do not consume soy.

In fact, the majority of indigenous people have a natural intolerance to lactose, so they cannot consume animal milk or dairy derivatives, there are very few indigenous people who do not have this lactose intolerance.

And as for soy: the majority of Guaraní in Brazil, Argentina and Paraguay have suffered expulsion from their territories and murders by criminals who grow soy. Because of these criminals, the majority of Guaraní live in extreme poverty and are hungry, which is why agribusiness does not feed them.

In Costa Rica: those who invade indigenous territories in Buenos Aires de Puntarenas are mostly criminals who are dedicated to livestock raising bulls and cows, they are sexist mobs who go to cockfights, and they are fanatics of Christian religions such as Catholicism or the evangelical who believe they are good people for that reason.

In Panama: the criminal government approved a mining company in exchange for money, apparently this mining company comes from the colonialist country of Canada. Many indigenous people, people who support indigenous people and people who defend the environment have come out to demonstrate against this mining company.

And an indigenous person from the Gnobe ethnic group who was demonstrating against this mining company was murdered after a truck tried to run over several of those who were demonstrating.

Aleister Crowley belonged to the OTO sect (Order of the Eastern Temple) which was a sect founded by the Freemason and Rosicrucian Theodor Reuss.

Aleister Crowley claimed to communicate with Egyptian spirits, and one of the spirits he claimed to communicate with was called LAM. Aleister Crowley drew LAM this way:

It seems that the New Agers to invent the gray aliens were based on the drawing of LAM made by Aleister Crowley. By the way, Aleister Crowley is one of the antecedents of the New Age movement along with Theosophy.

Aleister Crowley wrote a book called The Book of the Law. In The Book of the Law written by Aleister Crowley you can read this phrase: - Sacrifice livestock, small and large; then a child.

It is the same thing that happens in all countries on the continent. And if the indigenous people defend themselves or take revenge: the damn television channels, the police, the damn governments and the damn criminal majority treat them as savages, as criminals or as terrorists.

In Panama, this is what whites and mestizos do to indigenous people who go out to protest:

Captures recovered from Instagram

And this is what they do to the indigenous people in all the countries of the continent. As long as the majority on this continent are not indigenous and someone does something to reduce the population of non-indigenous people by 98% or 99%: indigenous people in all the countries of this continent will continue to suffer from all of this.

As long as in the countries of this continent those who govern are not only indigenous, the police are not made up only of indigenous people and the military is not made up only of indigenous people: the indigenous people will continue to suffer all types of attacks, torture, oppression and murders.

In Brazil, because of the majority who are not indigenous, who are individualistic, selfish, they only care about money and they only care about technology: the Amazon River is drying up and many areas of the Amazon are suffering from droughts:

But, the majority of Brazilians and the majority of Mexicans do not care about the lives of the indigenous people and are indifferent to what the indigenous people suffer, when the indigenous people are the ones who take care of the forests and those who take care of the water.

The majority of Brazilians and the majority of Mexicans only care about money and technology, they say hateful phrases towards indigenous people such as that miscegenation is improving the race, they have a concept of beauty that revolves around whiteness and Europeanness, they prefer white European, they prefer white from the United States and they prefer to watch junk content on television.

But, it is not only in Brazil and Mexico, in reality, this is the case in all countries on the continent equally, only in some more than others. In some, less because the majority of the indigenous population was exterminated and in others more because the criminal state seeks to exterminate the majority of the indigenous population.

Sometimes what happens, like in the United States, for example, is that first the majority of the indigenous people are expelled from their territories and the majority of the indigenous people are murdered, and then when the damage to the indigenous people is done, Hypocritical people come out to defend the indigenous people who, when the indigenous people were suffering all this, never took radical actions to defend them.

Although this does not surprise me, in the New Age: the Christian occultist Eliphas Lévi, who was the one who invented the image of Baphomet (the goat), used magic to, according to him, communicate with angels and demons, and Eliphas Levi claimed to be Catholic, although that god in the bible condemns the practice of magic.

Eliphas Lévi was also a Freemason and practiced the Jewish Kabbalah. He was the one who invented this image of Baphomet that many have associated with the Knights Templar:

These New Age people always promoting Christian beliefs such as Jesus Christ, as on the cover of this book written by the Argentine contactee named Dante Franch entitled: Extraterrestrials and the Cosmic Plan.

For, that is, the New Age (New Age) is a form of modern Christianity since they continue to believe in Jesus Christ, but interpreting it with modern New Age beliefs such as when they affirm that Jesus Christ is an extraterrestrial or when they affirm that Jesus Christ is an ascended master.

And they invoke Jesus Christ in New Age meditations, in metaphysical decrees because many of these sects call themselves Metaphysics, in channeling when they use the Ouija board or automatic writing, or in magic rituals, although the father of Jesus Christ (the god of the Old Testament) condemns magic in the Old Testament and orders in the Bible that the sorceress is not left alive.

I wonder:

Why do Christians murder indigenous people who believe in their gods and invoke them in ceremonies such as those of the Guarani Kaiowa ethnic group, but do not murder New Age whites who practice witchcraft and spiritualism? 🤔

Furthermore, the New Age has always been linked to white supremacy, they always claim that most good aliens are like white humans. For example, on the cover of this book written by the Argentine Dante Franch entitled: Cosmic Telepathy and Contact.

And on the cover two aliens with the appearance of white humans in reference to the Bible story of Adam and Eve:

Or in this book called: Ami, the child of the stars. A hippie book that believes that injustices are resolved with love and peace, and that most change with love, where its author, a Chilean named Enrique Barrios, writes about an alien from another planet called Ami, whom he represents as a white boy (an Aryan as Hitler and the Nazis would say):

ENRIQUE BARRIOS

Photography and images recovered from the Internet

According to Wikipedia: - The trilogy, as well as other works by Enrique Barrios, has received various awards and recognitions, such as the blessing of Pope John Paul II in 1987 and 1988 for Ami, the Star Child and Ami Returns, which They were also declared Didactic Material for National Education by the Ministry of Education of Chile together with Ami and Perlita.

Regarding what Wikipedia claims, try to find photos that verify these claims, but they do not appear, Although the truth is that finding the photos of the Catholic priest of the Vatican Corrado Balducci that prove that he did promote the belief in extraterrestrials that visit us took me a lot.

As we already know, both the state of Chile and the state of Argentina are based on hatred of the indigenous people, just as happens in the United States and Brazil, only in Chile and Argentina the hatred of a large part of the population is directed against the indigenous people of the Mapuche ethnic group, although those of other ethnic groups also suffer all kinds of injustices, with the silence and indifference of the complicit majority.

I did not find photographic evidence that Pope John Paul II blessed Enrique Barrios' book, although it is possibly true, only that since the official Christian religions pretend to be enemies of the New Age in front of the majority, as the song The Secret of Love by Joan Sebastian: in front of people, don't look at me, don't sigh, don't call me, even if you love me.

But, on the website of the national library of Chile, I did find this proof that the Chilean Ministry of Education declared Enrique Barrios' book on Ami as teaching material:

Another proof of white supremacy in the New Age is the belief in extraterrestrials from the Pleiades (Pleiadians) who are represented with the appearance of white humans, with light blue eyes and yellow hair in accordance with the Nazi ideal of the Aryan race, like these books: The New Earth Age According to the Pleiadians and PLEIADIANS: MULTIDIMENSIONAL VISIONS.

We would take all these stupidities as a joke and we would only use them to laugh, if it weren't for the fact that a majority takes these stupidities very seriously and these stupidities do a lot of damage. Therefore, I take this seriously, because it is something serious since it is totally harmful on a social level, I do not take the nonsense these people say seriously, but I do take the impact they cause seriously.

Christian religions make people only care about an afterlife in a fictional heaven, while they despise life in this world. And it is the same with Gnosticism that is promoted by the entertainment industry that makes people only care about the spiritual beliefs of Christianity, while hating life in this world.

The same thing that capitalism, atheism and skepticism do by making people care only about money, Western science and technology, while despising and hating the protection of nature.

And the same thing that the New Age does by making the majority only care about the belief in stupid extraterrestrials that visit us and in life on other planets, while they do not care about taking care of life on this planet Earth and that is why believe in conspiracy theories that deny climate change.

Therefore, it is no coincidence that in the sick society in which we live: the words world, worldly and earthly are used as synonyms for evil, inferiority or rejection, and that the fictional character of Jesus Christ said according to the Bible that his kingdom does not It is from this world. That is, the destruction of this real world is sought in the name of fantasy worlds.

John chapter 18, verse 36: Jesus answered: My kingdom is not of this world.

It seems that the Jews planned this lie about the aliens visiting us from the past:

John chapter 14, verse 2: In my Father's house there are many mansions.

Isaiah chapter 60, verse 8: Who are those that fly like clouds and like doves to their dovecote?

When I was in the New Age in the past, I remember a documentary made by these crazy people with the name: THE BIBLE AND THE UFOS.

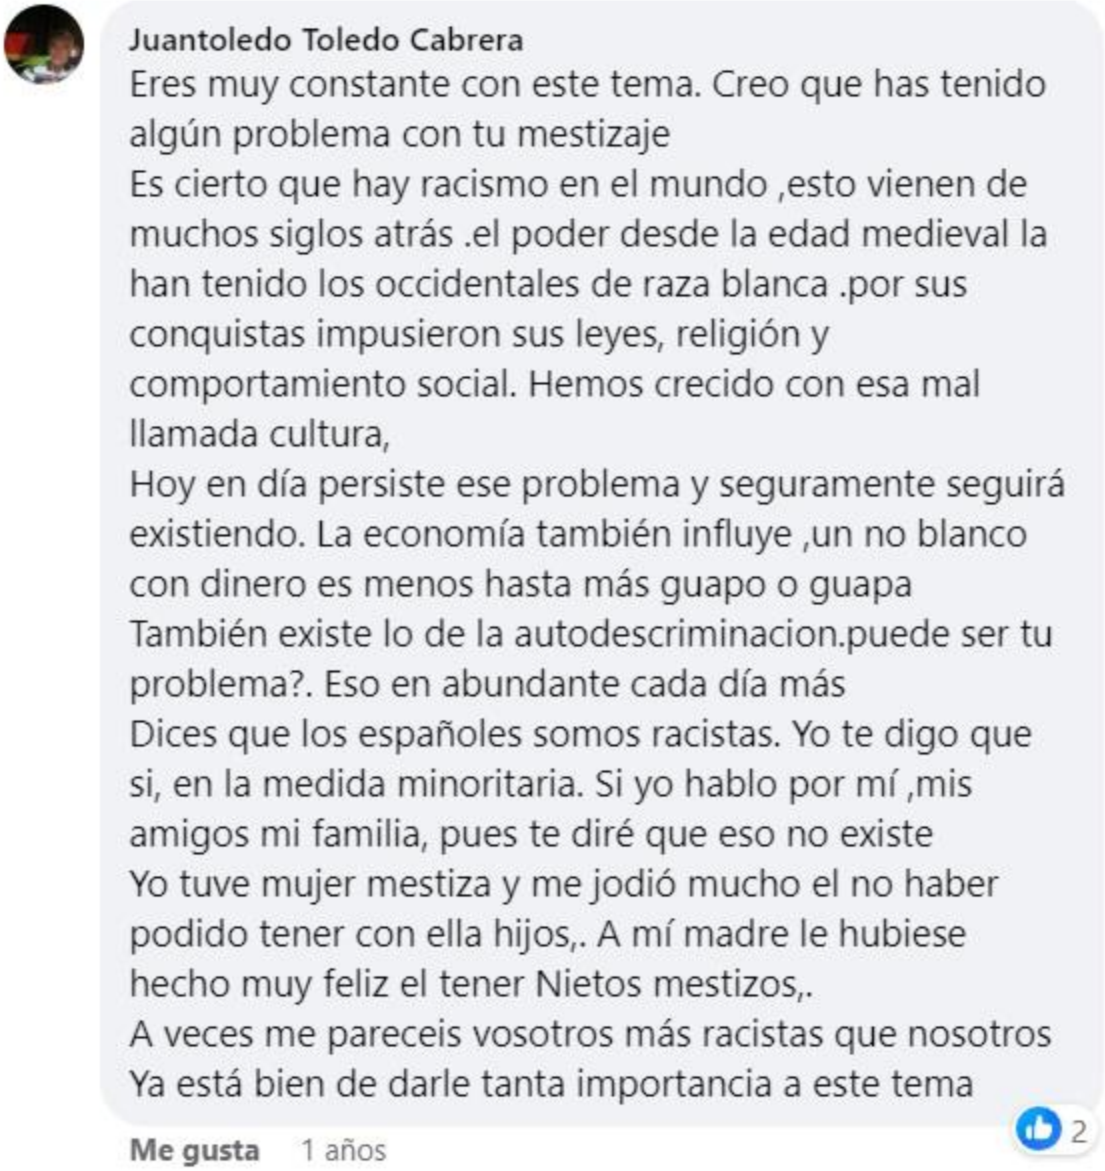
To show how idiotic many Europeans are, the following comment was made by a man from Spain, and it is very tedious to have to read such a long and boring comment, but this excerpt:

Juantoledo Toledo Cabrera: - I had a mestizo wife and it bothered me a lot that I couldn't have children with her. It would have made my mother very happy to have mestizo grandchildren.



Juantoledo Toledo Cabrera

Eres muy constante con este tema. Creo que has tenido algún problema con tu mestizaje
Es cierto que hay racismo en el mundo ,esto vienen de muchos siglos atrás .el poder desde la edad medieval la han tenido los occidentales de raza blanca .por sus conquistas impusieron sus leyes, religión y comportamiento social. Hemos crecido con esa mal llamada cultura,
Hoy en día persiste ese problema y seguramente seguirá existiendo. La economía también influye ,un no blanco con dinero es menos hasta más guapo o guapa
También existe lo de la autodescriminacion.puede ser tu problema?. Eso en abundante cada día más
Dices que los españoles somos racistas. Yo te digo que si, en la medida minoritaria. Si yo hablo por mí ,mis amigos mi familia, pues te diré que eso no existe
Yo tuve mujer mestiza y me jodió mucho el no haber podido tener con ella hijos,. A mí madre le hubiese hecho muy feliz el tener Nietos mestizos,.
A veces me pareceis vosotros más racistas que nosotros
Ya está bien de darle tanta importancia a este tema

Screenshot recovered from Facebook

Who cares if he wants mixed-race children? Who cares what his mother wants?

In truth, most Europeans are very egocentric and conceited, they think that everything revolves around them and what they want.

But, let's get to the reasons why the comment seems stupid to me:

Does he think like many Europeans that mestizos and indigenous people are the same? Or does he believe that being born on this continent makes someone indigenous?

What relationship is there between the majority of mestizos and the majority of indigenous people, if they are often enemies, if they are often like oil and water?

What relationship do mestizos have with indigenous people, if mestizos often have the same way of being, the same way of thinking, the same vision of the world and the same concept of beauty that Europeans have?

What is good about mestizaje, if many mestizos hate the indigenous people, if many mestizos do not have the simple and humble way of being of the indigenous people, if many mestizos are consumerists, and if many mestizos do not have a vision of the world in harmony with nature and many mestizos see nature as a simple economic resource?

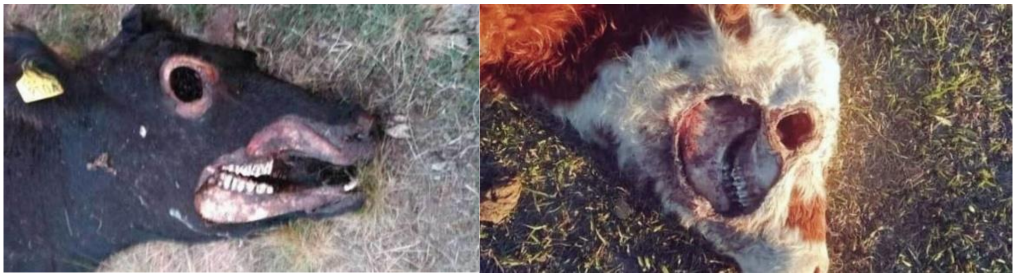
I read that comment and I don't know what's more stupid: his conceit and egocentrism, thinking that we care about his personal life, that he and his mother want mixed-race offspring, or the fact that he somehow confuses mestizos with indigenous people, or If the fact that he thinks that miscegenation is a good thing.

Or perhaps with that comment, like Dalas Review, he is saying that only Creoles and mestizos should matter on this continent, and not the indigenous people or the lives of the indigenous people. It's just that many Europeans are such a strange species that sometimes it's hard to understand what they're trying to say.

It is also that many Europeans are imbeciles who, in addition to thinking that mestizos and indigenous people are the same: the very imbeciles do not know how Creoles, mestizos and even blacks, mulattoes and Asians treat indigenous people on this continent. I'm not saying that all of them, there are 1% like those who work at Survival International who are different, but only the 1%.

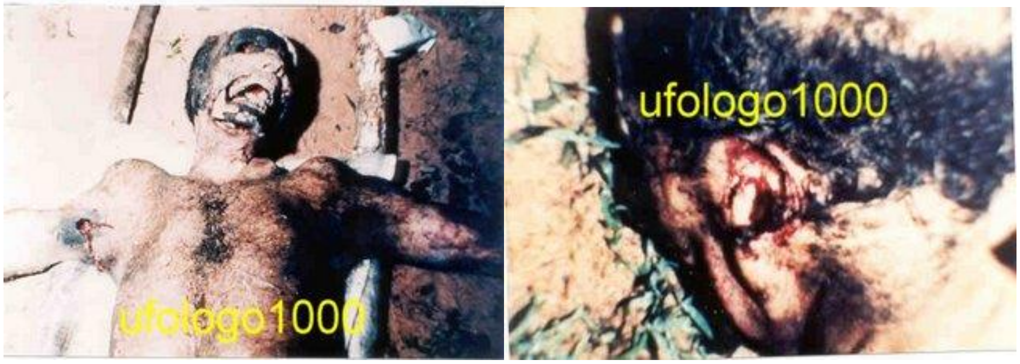
Did you know that there is a relationship between New Age beliefs with the livestock that raises cows and bulls brought by Europeans?

I know it sounds crazy and I'm going to explain it. According to the New Age, the following mutilated cows and mutilated bulls are carried out by aliens of the gray race:



Photographs recovered from the Internet

But, things don't end there. According to New Age beliefs, this human in Brazil was mutilated by aliens of the gray race:



Photographs recovered from the Internet

I don't believe in New Age nonsense. I don't think aliens visit us. And for me, the killings of those cows and those bulls, and that human that was mutilated in Brazil, were not done by aliens. But what I do believe is that the governments of Brazil, Argentina and the United States may be involved in all of this.

And it is obvious that those who carry out this atrocity carry some special equipment to make those cuts on the bodies of animals and on the body of that human.

For me, these atrocities are carried out by humans related to the million-dollar livestock business that raises bulls and cows, and who could have relations with governments.

Of course, just like UFOs, they do the same with these mutilations of telling the lie that they are made by extraterrestrials.

And always linking all this to racism: that aliens of the gray race do this because they are the bad guys, while the good ones are the aliens in the shape of white, tall humans, blue eyes and blonde hair. The nonsense that the New Age claims was always a blatant promotion of racism.

In New Age beliefs in extraterrestrial abductions: the case of Antonio Villas Boas in Brazil is mentioned.

Photograph recovered from the Internet

Antonio Villas Boas claimed that he was kidnapped by extraterrestrials and that inside the ship he had sexual relations with an extraterrestrial woman who looked like a white human with blonde hair:

The fault that these hippos are going to be sacrificed is Pablo Escobar for bringing them to this continent to which they do not belong.

Nature and ecosystems do not understand what is politically correct, they do not understand that all species can live together in the same ecosystem and in a hippie way in harmony, for that nature produced different ecosystems so that the different species lived separately according to its ecosystem.

On the other hand, these hippos could perfectly be transferred to their natural habitat on the continent to which they belong, but according to the colonialist state of Colombia, there are no resources and there is no money for this. But, they do have the resources to pay police and military to attack indigenous people and to expel indigenous people from their territories, as in the case of the Emberá.

What Pablo Escobar did of introducing hippos to this continent was the same thing that the European colonizers (Spanish, Portuguese, English, French, British, and the Irish and Scots like those who murdered indigenous people in the United States) did of introducing animals that did not belong to this continent such as: cows, bulls, sheep, goats and those species of pigs.

And we already know the damage to the environment that continues to be caused by the fact that Europeans introduced these animals to the continent: excessive emissions of carbon dioxide and methane, contamination of drinking water with waste and blood from these animals, destruction of forests and destruction of jungles to make pastures for those animals, to make enclosures for those animals, to make dairies and to make slaughterhouses.

And the livestock farming of those animals brought by the Europeans is a constant sacrifice of those animals: cows, bulls, sheep, goats and pigs are constantly killed for red meat, most of the calves are killed so that all the milk remains for human consumption, and cows and female goats are killed when they no longer produce milk.

It is a lie that the Celts were great protectors of the environment: all the Celts, whether from Spain, Portugal, Ireland, Scotland, England, Great Britain or other European countries, destroyed large hectares of forest and destroyed large hectares of jungle to make pastures for cows, bulls and sheep.

In Ireland, the Celts destroyed most of the forests and destroyed most of the jungles to make castles, and to make pastures for bulls, cows and sheep:

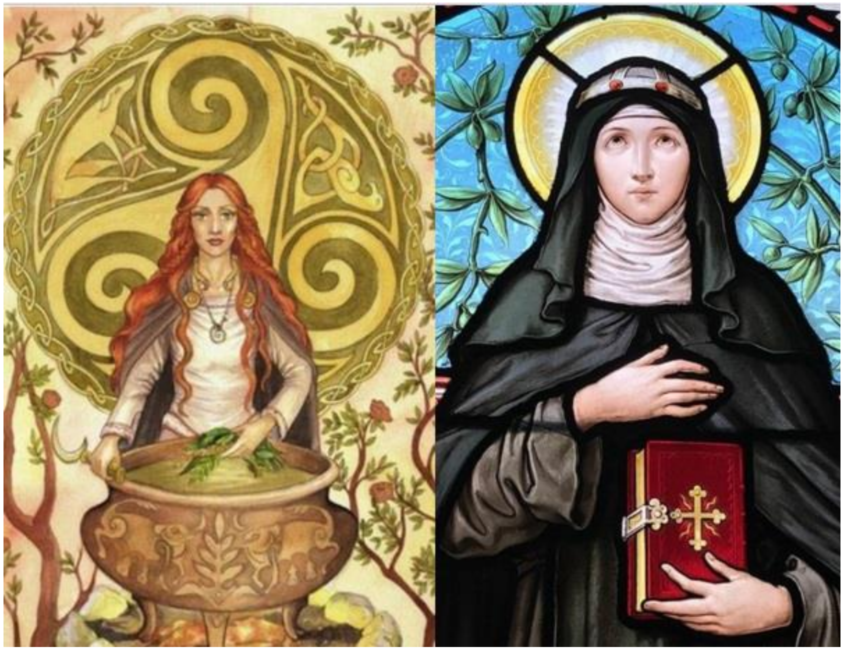
To the goddess Brigid in the Celts of Ireland, who was called Bríxida by the Celts in Galicia of Spain, Brìde by the Celts of Scotland and Brigantia by the Celts of Great Britain, the Celts offered as offerings: cow's milk, meat lambs (baby sheep), meat of calves and meat of cows.

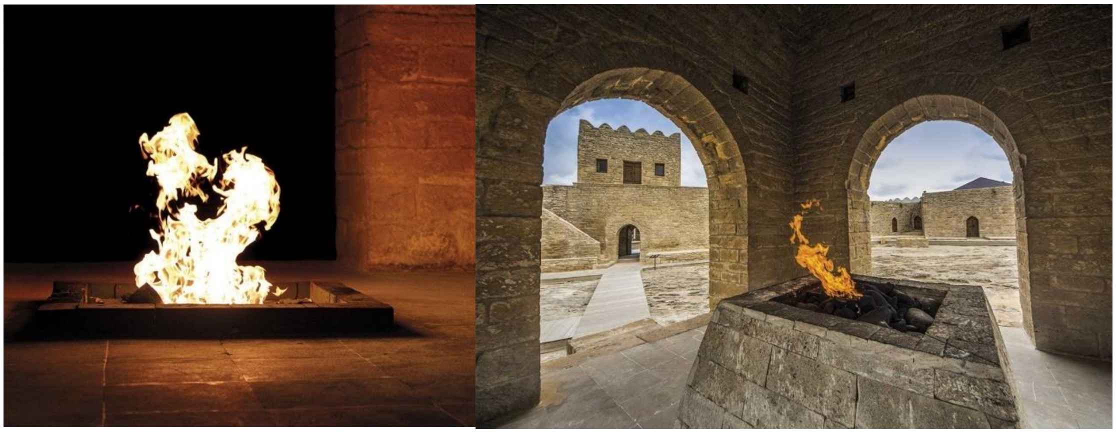
It is believed that the Celtic goddess Brigid is the same Catholic saint named Saint Brigid, because the Celts kept a flame of fire lit all year round in honor of the goddess Brigid, and the Catholic temples dedicated to Saint Brigid also keep a fire flame burning all year round.



Images recovered from the Internet

Apparently the Celtic, Roman and Greek gods continue to be worshiped in the guise of Catholic saints, virgins and Christian angels.

This about the flame of fire that the Celts kept lit throughout the year in honor of the goddess Brigid, the flame of fire that is kept lit throughout the year in the Catholic temples dedicated to Saint Brigid, is the same as in the Zoroastrianism of the Persians that gave rise to Judaism: in the temples of Zoroastrianism a flame of fire is kept burning all year round.



Photographs recovered from the Internet

The people of Europe who follow Celtic paganism still practice that fire ritual of the goddess Brigid:

OTRA PERSPECTIVA SOBRE BRIGIT

Images and photographs recovered from the Internet

How do I know all this?

Because, just as in my past I was New Age (New Age) and I was inside, in the recent past I was also inside those white paganisms. The good thing about having been inside all of that is that knowing this information in the past allows me to divulge it in the present.

Thus, how Catholics in Europe make bonfires where they keep the fire lit in honor of Saint Brigid:

Nothing is a casuality. Everything is connected: Zoroastrianism of the Persians that gave rise to Judaism, white paganisms like the Celts and Catholic Christianity.

It is easy to recognize Celtic genetics, in addition to the tribute they pay to cowboys, whether they are conservatives in favor of Donald Trump or pretend to be left-wing progressives:

Photographs recovered from the Internet

Photographs recovered from the Internet

In my case, although unfortunately I have Celtic genetics and probably also Basque, I cannot be compared to these famous people and for me it would be an offense if someone compared me to those in the previous photos, because I am 100% against the livestock that raises those animals and that livestock that raises those animals seems totally disgusting to me.

I never liked cowboys, nor those movies, I always hated cowboys, in the past I hated cowboys because of the damage they do to those animals like cows and bulls that have a highly developed nervous system, and in the present hatred of cowboys both for the damage they do to animals and for the damage they have done to indigenous people and for the damage to the environment.

When I was a child and they took me to places where there were pastures with cows and bulls from the ranch, that aroma that reaches hundreds of meters away always seemed disgusting to me.

When many of these feminists talk about women being empowered, they often mean that women do the same as sexist men.

I dislike many feminists, because if I don't agree with them on something they tell me that I am a sexist, that I am a misogynist and I hate women 😂🤣😂. They look like a religious fanatic to me.

I am not against women having the same rights as men, I am not against women being able to study and I am not against women working in whatever they want. But, it is a fact that most women are exactly the same as most men.

It is true that in the past women were oppressed because of Christianity. But, many feminists today are from Christian religions and many are New Age.

At present, women are not oppressed: they can study what they want, work at what they want, and if they report that they suffer aggression or harassment from a man, they are believed without hesitation and legal action is taken immediately. It is true that there are still men who sexually harass women, but it is not all men who harass women.

Whereas, if a man reports that he suffers aggression or harassment from a woman, they are often laughed at and no legal action is taken. And it is true that this is also the fault of machismo, but it is a machismo promoted by many of these feminists.

Those who continue to be oppressed are the indigenous people. And those who continue to be oppressed are animals like cows, bulls, pigs, goats and sheep.

My goal is to eliminate the machismo part of social Darwinism that believes that harming the weakest, the most vulnerable and the innocent is power, bravery and power as many men and women alike think, and to eliminate those who think this way without matter your gender.

The goal of most of these feminists is not to eliminate social Darwinism and many of them even promote social Darwinism.

¿Qué es el feminismo taurino y por qué está tan de moda?

I do not deny that historically women have suffered oppression because of sexist religions such as the Jewish, Christian and Islamic religions, and their books such as the Torah and the Tanakh, the Bible and the Koran.

But, if I affirm with complete certainty that the majority of women are equal to the majority of men, they are just as cruel, just as insensitive and believe that harming the weakest or most vulnerable is power.

And most heterosexual women love sexist men: cruel, insensitive, who harm the weakest, who harm the most vulnerable, and who harm the innocent.

In schools and colleges: men and women do bullying equally. When I was in school and college, I was bullied by both men and women equally.

Most women, including many feminists because I have met them, love going to the stops where macho men dressed as cowboys who ride horses go because they love those men, or they love going to wagon parades with oxen (castrated bulls).

It is true that the bullying that men do in schools and colleges focuses more on physical violence such as hitting, pushing or kicking, but the bullying that women do in schools and colleges is sometimes worse because it focuses more on verbal violence such as insults, humiliating words, words of contempt and words of hatred that can lead the victim to suicide.

I met women of different skin tones: who are classist, who are racist, who prefer white men as partners and who love trash soap operas like Pasión De Gavilanes.

And I always remind myself that those sexist men who bully, who harm the weakest, who harm the most vulnerable, who harm the most innocent, who believe they are strong and powerful because of that, always: they have many women in love with them, They have many women as partners and the worst of all is that those men are the ones who have the most children 🤢🤮🤢🤮🤢🤮.

And for example these feminists who went to protest with a pig's head: What is the pigs' fault for machismo?

Photograph recovered from the Internet

Regarding the New Age: few people know that one of the disciples of Helena Blavatsky (founder of Theosophy) was Annie Besant and that Annie Besant was a feminist.

Photograph recovered from the Internet

In the New Age they tell women who are victims of abuse, mistreatment, rape or torture that all that they suffered is because they are paying karma from past lives because in other lives, they did the same thing or they were men who did that in other lives, because they attract it with their mind through the law of attraction or that they are agreements with the perpetrator before incarnating for learning. But still, many feminists are New Age.

And with respect to these women who have been presidents: Michelle Bachelet in Chile, Laura Chinchilla in Costa Rica, Dina Boluarte in Peru and Jeanine Añez in Bolivia.

Photographs recovered from the Internet

I want someone to explain to me:

What have these old women done differently from male presidents?

I see the photos of those old women, and I see the same criminals as the male presidents, I can't find the difference.

By the way, that Michelle Bachelet was totally related to Freemasonry:

If a man and a woman harm the weakest, harm the most vulnerable and harm the innocent: for me, both that man and that woman deserve to be insulted and destroyed for what they did, and they can insult and destroy both that man and that woman, people of the same sex as people of the opposite sex.

And many of those feminists, when I say or write this, would say that I am a sexist, misogynist and hater of women 🤣 😅. I would be sexist and misogynist if I said that only women who do harm deserve to be insulted and destroyed, but I am not saying and I am not writing that, what I am writing and saying is that both women who do harm and men Those who do harm deserve to be insulted and destroyed equally.

I don't care in the least about a person's gender, if someone is bad like the majority, I am going to hate them regardless of whether they are a man or a woman, a person's gender is irrelevant to me. And if someone is good like the minority, I am going to support them regardless of whether they are a man or a woman.

Many of these feminists believe that we all care about gender and that we are all obsessed with gender like they do.

I do not deny that women still suffer sexual harassment and I do not deny that they can still earn less in some jobs. That continues to happen and it is important to fight against it. But, machismo currently does not focus so much on discrimination against women, currently machismo is more focused on the part of social Darwinism.

If a human is weaker, more vulnerable or innocent, and suffers injustices or crimes such as mistreatment, abuse, rape, torture or others, That human, regardless of whether he or she is a man or a woman, must be helped, helped to take revenge or, if he or she cannot take revenge on his or her own, help by taking revenge for the harm he or she suffered.

The past videos of the Camelot Project are no longer on YouTube, but one of its members, Kerry Cassidy, has a YouTube channel where you can see what the true intentions of the Camelot project were, as she interviews patriotic and conservative people favor of Donald Trump.

For example, this woman interviews a man who calls himself Chris Eryx Baby TRUMP, who from what I can find out is a model, is a Christian and supports Donald Trump.

During the interview, the most reprehensible of all is an image where Donald Trump is represented as a bullfighter, that is, the image has two things equally reprehensible at the same time: Donald Trump and bullfighting.

I found out that what is deleted are the videos of Project Camelot interviews from the past, but this Project Camelot is still active only now directed solely by Kerry Cassidy, and that Bill Ryan is no longer part of the project.

I am very honest, In the past I watched the complete videos of these people, but currently, since I already know everything they say, just by reading the title of the videos I already know where they are going and what their purpose is, in addition to the fact that they It makes me very tedious to see all that complete repetition.

In the following video, Kerry Cassidy of Project Camelot says that Iran and China have a plan for the world, and they are planning a global war, as if to say that the United States has nothing to do with it, and that the United States is good:

The video is complete nonsense.

It would be nice if someone did it, but no one has. Nobody has exterminated patriotic conservatives who are descendants of murderers who murdered indigenous people. And I don't understand when the old clowns talk about being survivors, if the patriotic conservatives have overpopulated the world and are the ones who are most abundant.

The questions for these old clowns are:

Survivors of what?

Who has exterminated them or who has tried to exterminate them?

If those old clowns didn't do all the damage they do and didn't have such an influence on the majority, I think those videos could even be considered humorous videos or a parody. But, unfortunately, these crazy women do a lot of damage and influence the world's population a lot.

There is evidence that the Camelot project now run solely by Kerry Cassidy continues to promote New Age beliefs in aliens visiting us from other planets. For example, the following video titled: Solaris Blueraven extraterrestrial intelligence and gateway to Orion, AI and clones.

Where they talk about something as stupid as portals to other dimensions that connect with other planets in the universe.

That this stupidity was taken from a fiction series created in the United States, called:

StarGate: door to the stars.

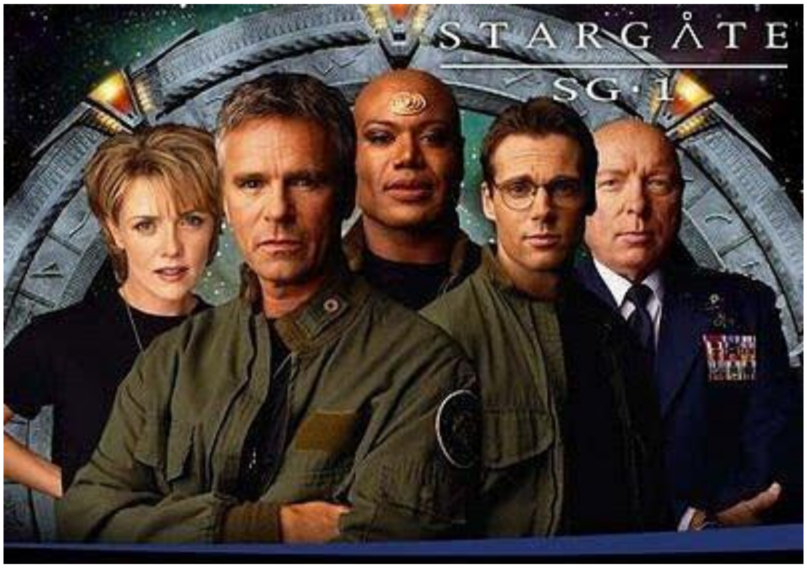

Image recovered from the Internet

This is how ridiculous this is: the sources of all these people who invent conspiracy theories and these New Age ones are all fictional films and series. But, the stupid majority believes them.

For example, Ronald Hubbard, the founder of the sect called Scientology with great influence in Hollywood, and that this sect serves CIA espionage just like the Pentecostal churches:

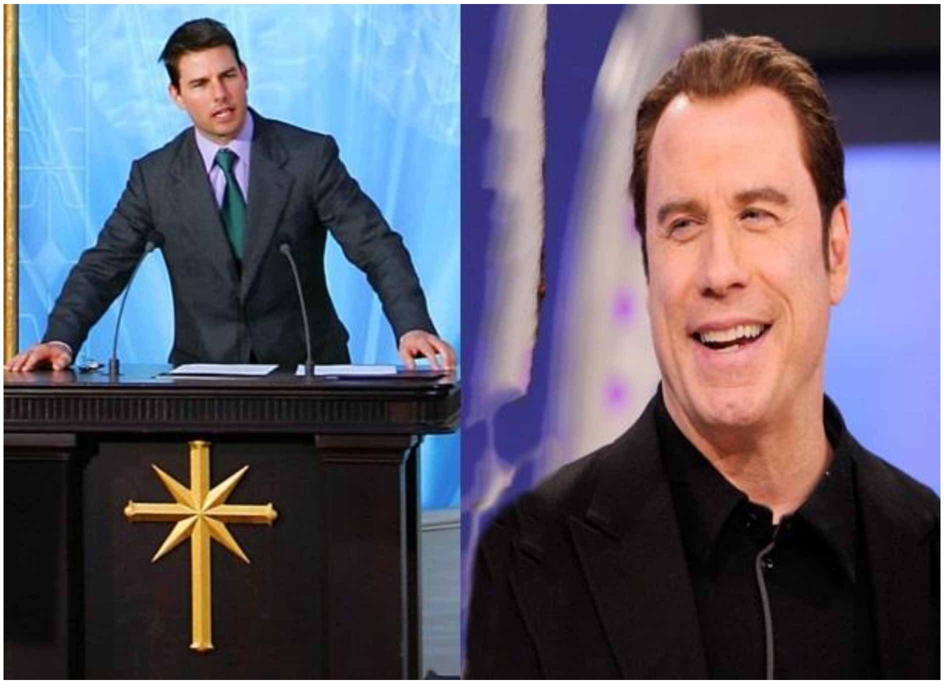
And this sect called Scientology has as followers famous actors like Tom Cruise and John Travolta who clearly have serious mental problems like every fanatic:



Photographs recovered from the Internet

Ronald Hubbard, before founding the Scientology sect, was a fiction writer, and, in fact, he wrote his sacred writings for the sect based on the fictional novels he had previously written:

But, all these clowns are the same: the clown who took the ridiculous name of Samael Aun Weor who founded the Gnosis sect, the clown of Aleister Crowley, the clown of Gerald Gardner who invented Wicca and the clown Anton Lavey who founded the Church of Satan.

V.M. SAMAEL AUN WEOR

In fact, it is known that these four clowns (Ronald Hubbard, Samael Aun Weor, Gerald Gardner and Anton Lavey) were inspired by writings by Aleister Crowley, Helena Blavatsky, Alice Bailey and Annie Bessant.

By the way, the racist concept of white magic, where the color white is racistly associated with good, comes from Annie Bessant and Alice Bailey.

And the book written by Alice Bailey titled: Treatise on White Magic. It is in three languages: English, Spanish and Portuguese.

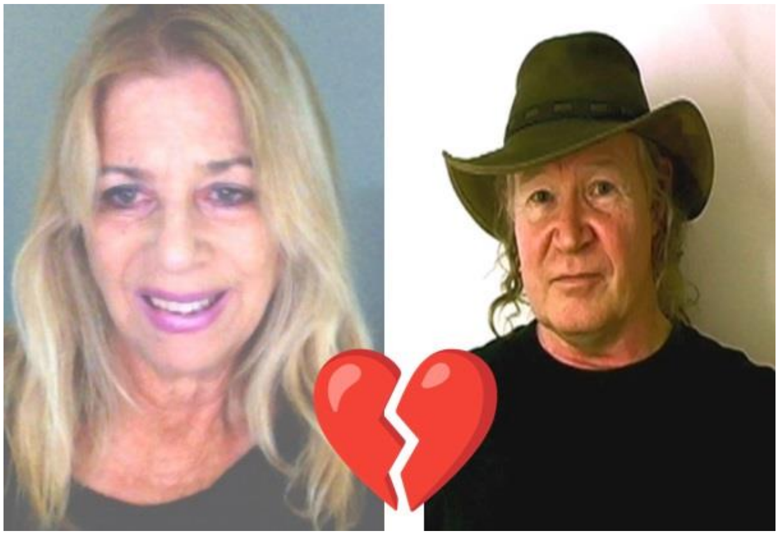
Returning to the topic of the disastrous Project Camelot: first this project was promoted by Kerry Cassidy and Bill Ryan.

Photograph recovered from the Internet

But, it seems that there was a disagreement between Kerry Cassidy and Bill Ryan over some issue, so they broke up. And the disastrous Project Camelot was left in charge of Kerry Cassidy alone.



Photographs recovered from the Internet

As she says a phrase, and she still makes the stupid face:

Kerry Cassidy and Bill Ryan are essentially the same, both promoting conspiracy theories invented by patriotic conservatives and New Age beliefs that aliens are visiting us. The thing is that sometimes there are disagreements among white people themselves.

It's like colonialism:

The colonialism of Jair Bolsonaro, Guillermo Lasso and Donald Trump of subduing and dominating the indigenous people through violence and causing them terror.

And the colonialism of Joe Biden, Lula and Gustavo Petro of subduing and dominating the indigenous people through pacifism, making the indigenous people believe that everything they suffer is resolved with love and peace, giving them only crumbs to keep them happy and not giving them back control of the countries.

By the way, in this interview where Kerry Cassidy interviews another old woman who claims to communicate with aliens from the Cassiopeia constellation (Cassiopeans) through the Ouija board called Laura Knight-Jadczyk: Kerry Cassidy is seen with disheveled hair and red eyes as if something had happened before the interview.

Sometimes the majority, just by their face, claim that someone is good, but those people who claim that they are good are often the worst:

Many people can tell that Martin Sensmeier is someone good from his face alone. This being called Martin Sensmeier has acted in these films:

Images recovered from the Internet

By acting in these films, he is being part of the promotion of hatred, prejudices and stereotypes against indigenous people.

I understand that Martin Sensmeier is a mestizo, he is a mix between an indigenous ethnic group from the United States with someone from Europe.

But, even if he were indigenous, he would simply be a traitor, because all these films have the objective of promoting hatred, stereotypes and prejudices against indigenous people.

In fact, everything produced by Hollywood or the US entertainment industry is pro-US, even if they pretend to be Left-wing progressives like Netflix.

Just look at the Netflix series and movies that refer to the present: they include black people, but not indigenous people because they hate indigenous people. It's just too obvious.

Or also in the Netflix series and movies that refer to the present, mestizos appear as Mexican immigrants, but not indigenous. Now it is unbearably hot here and this is entirely the fault of the majority who are not indigenous.

By the way, Shawn Mendes is also a New Age promoter:

Photographs recovered from the Internet

Photographs recovered from the Internet

This reminds me a lot of the black and white chess floor of Freemasonry:

Photograph recovered from the Internet

Costa Rica is a country that sells itself as ecological and that is because it is a country that depends a lot on tourism, so of course it presents itself as ecological so they have to attract tourists to the natural parks and landscapes of Costa Rica.

In Costa Rica, most people are white supremacists, but in a more unconscious way. In Costa Rica, livestock raising bulls and cows is highly defended.

In Costa Rica, white and mestizo invaders continue to be allowed to remain in the indigenous territories in Buenos Aires, Puntarenas and other indigenous territories.

In Costa Rica, people are very religious fanatics and conservatives, of course not to the extreme level of Brazil, but they are still that way.

In Costa Rica, there are stops where old macho men go to parade on horses, there are parades of carts with oxen, and there are bullfights that, although they do not kill the bull, are still animal abuse.

It must also be remembered that the government of Costa Rica has always had friendship with the government of the United States.

In Costa Rica, Freemasonry has a lot of influence on politics like that lawyer and politician Juan Diego Castro, and conservative Christians like Fabricio Alvarado also have a lot of influence on politics.

In Costa Rica, the media such as television channels, such as Teletica channel 7 and Repretel, promote Catholicism a lot, and when the indigenous people defend themselves they also treat them as criminals and terrorists, and they always show the ranchers who invade indigenous territories as good people, and, in addition, they show ignorant and traitorous indigenous people who defend the invaders and talk about pacifism 🤢 🤮.

But, it would be a lie to say or write that this happens only in Costa Rica. This happens like this in all countries on the continent.

In Costa Rica, Teletica channel 7 and Repretel channel 6 promote bullfights that, even if the animal is not killed, is still animal abuse and they promote bullfights where old macho men are dressed as bullfighters and mounted on horses.

And when Repretel says the phrase part of their life, they mean that they are part of the life of the majority, not of minorities such as indigenous people.

Both Repretel and Teletica transmit trash content from Televisa such as soap operas and television programs that promote religious fanaticism, and also provide trash content in the form of movies and series that come from the United States entertainment industry.

Cockfighting is illegal in Costa Rica. But, even so, there are many people who practice them. And these people who participate in cockfights are totally related to livestock farming that raises bulls and cows.

Photographs recovered from the Internet

We know that cockfighting originated in the Middle East and is related to the Persians, then Europeans such as the Romans practiced cockfighting and then the European colonizers brought cockfighting to this continent to which they gave the name America, just as they brought livestock that raises bulls, cows, sheep and goats.

In Mexico, it is a country where mestizos with indigenous features despise the indigenous people and say hateful phrases towards the indigenous people such as that miscegenation is improving the race, just as happens with Guatemala, Nicaragua, Peru, Bolivia and Brazil. In Mexico cockfights are legal.

Photographs recovered from the Internet

The main belief of machismo is that harming the weakest, the most vulnerable and the innocent is power, bravery, manhood, masculinity or strength. And these weaker, more vulnerable and innocent people can be humans, as in the case of indigenous people or in the case of those who suffer bullying in schools or colleges, or they can be animals of other species.

In Costa Rica, hunting for pleasure is illegal, but there are still many people who hunt for pleasure without it being a necessity to survive in Costa Rica. And those who hunt for pleasure, the majority are related to livestock farming that raises bulls and cows.

The liberal deputy Otto Guevara loves to go to the stops where macho men dressed in cowboys and riding horses go:

In this video, an indigenous activist from the Mapuche ethnic group faces off against Michelle Bachelet. And as always, the majority of criminal and clown humanity defend Michelle Bachelet in the comments.

When the indigenous woman of the Mapuche ethnic group tells Michelle Bachelet that she is going to accompany her, and Michelle Bachelet answers that she has nothing to do there because those people do not have to see you because they are people of a different type, the answer is totally racist and classist.

By saying that they are people of a different type, Michelle Bachelet means that they are white, European and millionaires, and that according to Michelle

Bachelet's monster they are superior, and that is why according to her it would be a lack of respect or a shame for her to an indigenous woman accompany her.

On the other hand, this monster Michelle Bachelet was president in Chile and when she was president in Chile, the political prisoners of the indigenous Mapuche ethnic group were never released.

In that video, the feminist who was part of ONU Women and related to Freemasonry named Michelle Bachelet talks about promises like the majority of politicians who never keep them and I imagine that when he says I promise he means giving crumbs to the indigenous people who do not solve their problems:

Joven fue detenido tras escupir en la cara a Michelle Bachelet en Arica

Video titled: Young man was arrested after spitting in Michelle Bachelet's face in Arica. Screenshot recovered from: https://www.youtube.com/watch?v=cLBeqGz3UEQ

A young man spat in Michelle Bachelet's face and I think it's excellent, although it would have been better if they had killed her and the police or military who defended her. What that young student did is a heroic act and something to applaud.

The most disgusting thing is when Michelle Bachelet plays innocent talking about Democracy. Democracy = will of the majority 🤢 🤮 .

And always posing as an innocent victim just because she is a woman and a feminist.

What does it matter if it is a woman or a man?

What relationship does gender have with them doing what she deserves?

If he is a monster, it doesn't matter if he is a woman or a man, it doesn't matter if he claims to be from the Right, Neoliberal or the Left: because he is a monster he deserves to be given what he deserves.

In truth, many of these feminists are the most sexist, they have an obsession with gender, that even revenge and justice are related to gender and misogyny.

If Michelle Bachelet were a man, I would agree with someone spitting in her face, just as I would like someone to spit in Jair Bolsonaro's face. Which, by the way, Michelle Bachelet and Jair Bolsonaro pretend to be enemies when they are the same trash.

The feminist with Pope Francis:

The feminist with Pope Benedict XVI:

A feminist who is totally happy to share with criminals who cover up pedophiles and who can sense from afar the great friendship they have.

On the other hand, conservatives often claim that women are victimized by feminism because they take any attack on them as being due to the fact that they are women and that they do not take into account that there may be other reasons for them to be attacked.

But, these conservatives, when it suits them, if it is a conservative woman, both that conservative woman and the men who defend her use the same fallacy that they attack them for being women and pro-life.

To me it is completely irrelevant if someone is a man or if someone is a woman, gender is irrelevant to me. If I attack someone in a writing or comment, my reason is not gender.

If I attack someone in a writing or comment it is because it hurts and I don't care if they are a man or woman, I don't even care about their sexual orientation if they are heterosexual, homosexual, bisexual or asexual.

I have many times denounced in writing and publications the damage that many men and women alike do. Gender is irrelevant to me. But, many times: both many feminists and many sexist conservatives, whether men or women, have an obsession with gender.

Also, many times I have attacked with publications and writings both men who hunt for pleasure, who are bullfighters, who are cockfighters or who hate indigenous people and their wives because being married to these men and having children for them are the same.

It is necessary for me to repeat that Jews are not a race, Jews are a religion, and that lie that Jews are a race was invented by Hitler and the Nazis. And the Neo-Nazis of the present repeat this same lie that Jews are a race.

So whoever accuses someone of being anti-Semitic for criticizing Judaism, and claims that Jews are a race, is only repeating lies told by Hitler, the Nazis and the Neo-Nazis.

And those Jewish soldiers with those long beards look disgusting, they look exactly like the Vikings that right-wing criminals, Neoliberals and Neo-Nazis like so much:

What Israel has done to Palestine where it murders even Palestinian children cannot be forgiven:

Photographs recovered from the Internet

But the damn media like the damn television controlled by the United States government, by the European Union, by the Vatican, by Christian religions (Catholic, Evangelical, Mormons and Pentecostal), by Freemasonry and by the New Age make Israel believe that it is an innocent victim.

It is known that it was the Jews who invented the Old Testament of the Bible: the Jews invented the Torah, which are the first five gospels of the Old Testament, and the Tanakh, which are the other gospels of the Old Testament.

Then from the Old Testament, the New Testament emerged, giving rise to the Christian religions and then Muhammad invented the Koran based on the Old Testament, giving rise to Islam.

To invent the Old Testament: the Jews relied mainly on the Zoroastrianism of the Persians, which is where most of their beliefs come from, but they also copied parts of Sumerian texts, Greek texts and Egyptian texts, changing the word gods to god.

But, although a Christian of any denomination (Catholic, Evangelical, Mormon, Pentecostal, Orthodox, Jehovah's Witness or other) believes in the same god of the Jews and an Islamic or Muslim believes in the god of the Jews, only he calls him Ala .

These unpleasant beings that are the Jews believe themselves to be superior, and they consider that a Christian and a Muslim are inferior because in the Torah (first five books of the Old Testament) and in the Tanakh (the other books of the Old Testament) it is written that they (the Jews) are the chosen people of that god.

And in the non-verbal language part such as looks, gestures and facial expressions I can notice that that minister of Israel is someone bad, because it is the same non-verbal language of the Christians, politicians and Freemasons who murdered indigenous people on this continent:

By the way, Nike was the name of a Greek goddess, whom the Romans knew as Victoria. To invent images of angels with human appearance and bird wings: Jews and Christians based themselves on Greek and Roman goddesses, and on Egyptian goddesses such as Isis and Maat.

It is very evident where the Jews and Christians copied the idea for angels in human form and with wings because the Greeks, Romans and Egyptians are older than the Jews. Sumerians, Persians, Assyrians, Greeks, Romans and

Egyptians existed before the Jews invented the Old Testament, and this is proven by the carbon 14 test.

Freemasonry is a mixture of Judaism and Christianity with Greek, Roman and Egyptian paganism, meaning Freemasonry is the same as the New Age.

Nothing is a coincidence, for thousands of years these people in power, starting with the Persians, planned what the sick society (majority) in which we live would be like, the destruction of the world they are now living in was something planned for millennia, these people are Nihilist (consider that life in this world is meaningless).

Many Argentines feel superior for descending from Spaniards and Italians who exterminated indigenous people. Just like many Brazilians who hate indigenous people, many Argentines also hate indigenous people, especially indigenous people of the Mapuche ethnic group.

Many Argentines feel superior for having white skin that is less resistant to the sun and more prone to skin cancer, and with more body hair because Spaniards and Italians descend from Romans and Celts.

The supposed opposites: Donald Trump and Joe Biden very happy with the Israeli minister named Benjamin Netanyahu.

I once heard the following Argentine YouTuber named Valentina Ortiz who supports people from the Right and Neoliberal, and has a YouTube channel called La Entropía De Valen that she has lived in Spain and has never been discriminated against.

It is logical that they are not going to discriminate against her because she is white, and the majority of Argentines and the majority of Spaniards are the same. And if I look for photos of many Basques and I look for photos of many Argentines, they have the same genetics.

Perhaps the Greek Lamias were where the Jews were inspired to write in the Old Testament that the devil deceived Adam and Eve in the form of a serpent.

The Greek god Pan is where the Jewish and Christian religions took to represent the devil with horns and tail, which, by the way, Pan was a god of sexuality and lust who had sexual relations with women, men and animals.

The Christian occultist named Eliphas Lévi based himself on the god Pan to invent the image of Baphomet.

Unforgivable crimes that the Israeli army is committing against the civilian population of Palestinians who have no relationship with Hamas:

Israeli ground Troop are causing genocide round up but it's senior civilian in Musgrave and shoot
Israeli ground Troop are causing genocide round up but it's senior civilian in Musgrave and shoot them

It seems strange to me: that Jair Bolsonaro and Donald Trump support both Neo-Nazis and Zionists of Israel. That is why I believe that Neo-Nazism and Zionism are the same, and they pretend to be an enmity that does not exist. I even suspect that it was like this from the beginning of Nazism and with Hitler.

All the power and weapons that Israel has is because the United States and the European Union gave them to them, and they control the television channels and the entertainment industry like Hollywood. In fact, it's the same as when Hollywood made movies venerating the cowboys and the United States Army that massacred indigenous people, and portraying those cowboys and the United States Army as the good guys.

Pacifism and compassion for the monsters who do what you see in the video are their accomplices for making them never pay for their crimes. With the monsters that commit these atrocities, there is no need to have compassion or pacifism, someone should simply do the same to them.

Those Christian teachings of forgiving everything, loving your enemies and turning the other cheek defend these monsters who commit these crimes.

A group should emerge with the same weapons and military technology as Israel, the United States and the European Union to make them pay for their crimes: make them feel double or triple the pain they caused, and that they suffer double or triple what they made them suffer along with the complicit majority that keeps them in power, that votes for them, that maintains complicit silence and that are complicit by their indifference, since the majority are selfish, individualistic, They only think about themselves, and only care about technology and money.

And all the Masonic lodges must also be burned throughout the continent, and the places and monuments in honor of Masons like George Washington and the others must be destroyed, since Freemasonry is not a conspiracy theory, Freemasonry is completely related to Zionism because it gives credibility to the Old Testament (Torah and Tanakh) stating that Hiram (the builder of Solomon's temple) really existed and that he was the first Freemason, they also use the Star of David which is a symbol of Judaism

And Freemasonry is also related to white supremacy and Neo-Nazism: Freemasons like John Milton Chivington, Andrew Jackson, Julio Argentino Roca and Julio Popper murdered indigenous people, and Freemasons like Domingo Faustino Sarmiento made hate speeches against the indigenous people.

Therefore, both the Freemasons, the Zionists and the Neo-Nazis deserve all our hatred and repulsion, and to be totally destroyed.

Hamas is a creation of Israel itself. The television channels controlled all by the United States, Freemasonry and Zionism, lie when they say that this is a war of Israel against Hamas, it is not a war of Israel against Hamas.

It is an extermination of the Palestinian civilian population by Israel equal to the extermination of natives (indigenous) by the United States government.

These Israel, the United States and the European Union are monsters with whom there should be no compassion and there should be no pacifism, because compassion and pacifism with these monsters are their accomplices that make them never pay for their crimes.

Where do Israel, Hamas, ISIS and other Middle Eastern terrorist groups have military technology and weapons?

And the answer is that the United States and the European Union give them these weapons and military technology. It is suspicious that Russia, which claims to be an enemy of the United States and the European Union, does not destroy the United States and does not destroy the European Union having the power to do so. I think they are not enemies, they just pretend to be for the public.

Also, in the case of the majority of Brazilians who are not indigenous, it is their fault that there are those deputies and senators who support agribusiness and the extermination of indigenous people for voting for them, who are selfish, individualistic, they only care about the Money and technology are the same garbage that supports Israel. I'm not saying all of them, but the majority. Majority is not the same as all.

I even believe that the Nazis and Hitler was a plan to create the State of Israel, the State of Israel was created with the excuse that the Jews had suffered extermination by Hitler and the Nazis.

What if behind the Nazis and Hitler were the Jews themselves, after all, they have always killed each other and sacrificing a part of themselves to achieve their goals is nothing for them.

Because let's remember that these Zionists are the same as a Taliban, in order to achieve their objectives they are capable of sacrificing a part of themselves.

It is very possible that it is true that the European Union sought to first remove the Jews and then use them for its plans, because remember that the state of Israel was created with the help of the United States and the European Union.

We must also remember that both the United States and the European Union continue to be related to the extermination of indigenous people in the present, and there is a lot of evidence in this regard, remember that when Jair Bolsonaro said that in his government there would not be a centimeter of land demarcated for the indigenous people did it at a Zionist conference.

And that Israel remains standing, with weapons, military technology and an anti-missile shield because all this was facilitated by the European Union and the United States.

So what Israel is doing to the Palestinians is the same thing that the elites in power and the governments want to do to the indigenous people on this continent, only in the case of the indigenous people they want their plan to exterminate them to be carried out more subtle and covert ways.

If we observe the physiognomy of Ashkenazi and Sephardic Jews, it is the same as that of Europeans:

Photographs recovered from the Internet

As I had already mentioned, there are white Arabs and brown Arabs. Arabs can be of any of the Abrahamic religions: Jews, Christians or Muslims (Islamic).

In the case of white Arabs, their physiognomy is identical to that of many Europeans such as Spaniards and Basques, and also to that of many Argentines, especially because of that pointed nose:

And that many Argentines, who are mostly Right-wing and Neoliberal, but there may be a few Left-wing, celebrate these atrocities as when followers of Agustín Laje celebrate the conquest of the desert.

And they also celebrate the Freemason and Catholic named Domingo Faustino Sarmiento because according to many Argentines he made great contributions to education.

There are even books dedicated to Julio Popper like this one titled: Julio Popper. The last king of Tierra del Fuego.

Remember that Domingo Faustino Sarmiento expressed his hatred for the indigenous people in these phrases: - Will we be able to exterminate the Indians? For the savages of America I feel an invincible disgust without being able to remedy it. These scoundrels are nothing more than some disgusting Indians who

I would have hanged now if they reappeared. Incapable of progress, their extermination is providential and useful, sublime and great.

But, many Argentines justify the hatred that Domingo Faustino Sarmiento felt for the indigenous people. Domingo Faustino Sarmiento, in addition to being a Freemason, was a liberal equal to Simón Bolívar.

The Facebook page of Argentine Freemasonry celebrates that Domingo Faustino Sarmiento was a Freemason, and when they talk about inclusion and equal opportunities they refer to inclusion and equal opportunities for all those who are not indigenous, not for the indigenous, since they hate Indigenous.

It must be said that when Freemasonry speaks of equality and fraternity it refers to equality and fraternity among those who hate the indigenous people, the union of all to replace the indigenous people and replace them until the indigenous people no longer exist.

And I could go on with thousands of screenshots of Argentinians openly expressing their hatred for indigenous people in comments on Facebook, Twitter and Instagram, but I wouldn't have enough time.

It must be clarified that not all Argentines are like this, there is 1% who are not like that and they even defend the indigenous people, but they are only 1%. The majority of Argentines do hate the indigenous people, one part expresses this hatred with comments, and the other part expresses the hatred of the indigenous people with silence and indifference, but this happens throughout the continent.

For this reason, I have often commented that elites and governments are not enemies of a majority that serves them. Elites and governments are enemies of indigenous minorities.

FAMILIAS DEL TERRITORIO INDÍGENA MALEKU RECIBEN NOVILLAS PREÑADAS PARA MEJORAR SUS EMPRENDIMIENTOS GANDEROS

Se trata de la primera entrega de ganado de la iniciativa impulsada por la oficina del Inder en Guatuso y que beneficia a un total de 29 familias del Territorio Indígena Maleku. El anuncio se realizó en el marco de la visita del mandatario de la República, Rodrigo Chaves, a Guatuso.

Cada una de las familias recibió, las primeras dos novillas preñadas, lo que significó una inversión del ₡41,1 millones por parte del Inder, por medio de su servicio "Fomento a la Producción y Seguridad Alimentaria"; se entregaron un total de 58 novillas. Además, para el primer trimestre del año 2024, cada familia recibirá otras dos novillas, para completar un total de 116 novillas entregadas y una inversión final de ₡82.2 millones.

This is the problem of indigenous people having contact with a majority that is not indigenous. President Rodrigo Chávez is related to this, the same one who criticizes the indigenous people of Buenos Aires in Puntarenas for defending themselves against invaders, just as Teletica channel 7 and Repretel channel 6 do.

When this happens, most indigenous people are not aware that the farming of bulls, cows, sheep, goats and pigs was brought to this continent by Europeans, nor do they know the amount of methane and carbon dioxide emissions that this generates, and that forests and jungles are destroyed to make pastures and slaughterhouses for these animals.

I consider that what Rodrigo Chávez does is the same as Jair Bolsonaro of integrating them into the sick society, it is like the fact that many indigenous people are Christians, they are not aware that they are beliefs brought by the Europeans.

But, I questioned myself:

Why does Rodrigo Chávez make them participate in bull and cow farming?

Why don't you give them land since the whites and mestizos have kept the majority of the land?

Why don't you give them fields to cultivate?

Why don't you create organic product companies and give them to indigenous people?

If indigenous people had contact with who we are different from the majority, it would not be the problem. The problem is that many times this contact of indigenous people is with people who are like the majority.

It's like the colonizers, all the colonizers were people like the majority, that's why contact with these colonizers was disastrous for the indigenous people.

I have some questions:

Why are most indigenous people not aware that livestock raising bulls, cows, pigs, sheep and goats was brought by Europeans, and that the raising of these animals causes large emissions of methane and carbon dioxide, and destruction of forests and jungles to make pastures, enclosures and slaughterhouses for these animals?

Why are they not aware that Christian beliefs were brought by Europeans?

I would never be part of a criminal industry like livestock farming that raises bulls and cows, which massacred indigenous people like cowboys in the United States and Canada or as in the case of the extermination of indigenous people of the Selknam ethnic group in Chile and Argentina.

In Brazil: these ranchers who raise bulls and cows are the ones who most destroy the Amazons and murder indigenous people, in addition to being an industry that generates large emissions of methane and carbon dioxide, which destroys jungles and forests to make pastures for these animals, and that harms animals with a highly developed nervous system such as cows and bulls.

Let us be aware that in the system we live in, money is needed to live, the problem is that money is placed above everything, above life and above the environment. It seems disgusting to me that people talk about food security referring to the farming of bulls, cows, pigs, goats and sheep.

It's stupid because you don't need red meat to live, you don't need milk to live and you don't need dairy products to live. Furthermore, the majority are so stupid that they talk about food safety for industries that are not needed for our food.

Food security is the cultivation of corn, cassava, bananas, fruit trees, chickpeas, lentils, beans, palm hearts, greens and vegetables, these crops are food security, not the livestock that raises bulls and cows.

It is like in Brazil, those who defend Agribusiness that harms indigenous people affirm that livestock raising bulls, cows, pigs, sheep and goats, and that soybean cultivation are food security. It's stupid.

The problem is that it is not produced to feed the population, it is produced to generate money with things that are not needed for our diet such as red meat, animal milk and dairy derivatives, and soy.

It is proven that red meat and sausages are harmful to health, and animal milk is not necessary for calcium. Calcium can be obtained from almonds, sesame, and broccoli, and always accompanied by a source of vitamin C so that the body can absorb it.

An idiot told me that the indigenous people are lazy and when I enter the profile of the idiot from Costa Rica, it turns out that he is a cockerel. The profile is called Brian Rodríguez and had the image of the League, which is the Alajuela soccer team.

I reviewed all those who commented against the indigenous people and they are ranchers who raise bulls and cows. I criticized the integration of indigenous people into sick society and making them participate in livestock farming that raises bulls and cows.

But what they criticized is that the indigenous people are helped, and they are all ranchers who raise bulls and cows, and cockfighters.

In the following screenshot, Flor Soto Quesada from Costa Rica uses the word Indians, which is a derogatory and contemptuous word, and talks about the disastrous ideology of equality, which is the same garbage as conservative right-wing and neoliberal ideologies.

The worst thing is that these types of people are the ones who reproduce the most, the fact that they reproduce is considered a right and that is why the world does not change.

And since these police and soldiers are old sexists, homophobes, racists and religious fanatics, we must always respond to them with the parts of the Bible that support human slavery, and since they claim to be pro-life because they are against abortion, we must respond with the parts of the bible where that god commands the killing of children and pregnant women, with the part of the bible where that god says that if a woman is raped she must be forced to marry her rapist, and with the parts of the bible where that god contradicts himself.

Deuteronomy chapter 22, verses 28 and 29: if a man finds a virgin girl without a commitment to marriage, and forces her to sleep with him, and they are discovered, then the man will have to give the girl's father fifty silver coins ; and, since he has dishonored her, he will have to take her as his wife, and he will not be able to divorce her throughout his life.

I ask colonialists like police and soldiers similar to Freddy Avila Z, if you have a daughter and that daughter is raped:

Would you comply with those teachings of your perverse god from the Bible to sell your daughter to the rapist for 50 silver coins, and force your daughter to marry the rapist?

The god of the Bible, who is just an invention of the Jews, is a bipolar god who contradicts himself in many parts of the Old Testament (Torah and Tanakh):

In Deuteronomy chapter 24, verse 16: Parents cannot be put to death for what their children have done, nor children for what their parents have done, but each one will die for his own sin.

But, in Isaiah chapter 14, verse 21: prepare to kill the children for the crimes their parents committed.

In Leviticus chapter 1, verse 3: If the animal you offer as a burnt offering is your livestock, it must be a perfect bull.

But, in Isaiah chapter 1, verse 11: I have had enough of your burnt offerings of rams and the fat of calves; The blood of bulls, rams and goats disgusts me.

Therefore, I do not understand how the majority of humanity can be so stupid and ignorant to believe in a nefarious god who contradicts himself in many parts of his word (the Bible).

And by believing in that god, the majority is complicit in all the crimes committed by the governments of Israel and the United States and Europe, because if they had never believed in that nefarious god invented by the Jews, none of these monsters would be in power.

Also in Costa Rica, although cockfighting and hunting for pleasure are illegal. Many of these same police officers support cockfighting and hunting for pleasure.

In conclusion: the majority of those who are against the indigenous people are mostly ranchers who raise bulls and cows, or people who are in favor of livestock farming who raise these animals for meat, milk and dairy products, they are sexist people, in favor of hunting for pleasure and cockfighting who believe in Social Darwinism that harming the weakest is power, strength or bravery, they are conservatives, religious fanatics, police, politicians and military.

And people related to Zionism, that is, in favor of the state of Israel like Mora Salazar.

Those who are not indigenous have never suffered everything that indigenous people have suffered.

The Maleku were victims of a genocide in the past where the majority of their population was exterminated by invaders. And indigenous ethnic groups have suffered unforgivable atrocities throughout the continent, with the complicit silence and complicit indifference of a majority that is not indigenous.

I hate most men as much as I hate most women. But, if many clown feminists read or heard me say this, they would say that I am a sexist and a misogynist (who hates women)).

That's why I dislike most feminists just as much as sexists. I would be sexist and misogynist if they said or wrote that I hate only most women.

But, I hate the majority of humanity, regardless of whether they are men or women.

I hate the majority of humanity regardless of whether they are poor, middle class or millionaires because they are the same. Furthermore, most of the poor and most of the middle class gladly serve the millionaires who are like the majority.

And when I mention that they work for them, I don't mean that they work for them out of necessity because we all need money to live in the system in which we live. What I mean is that they have the same way of being, the same way of thinking, the same vision of the world, and the same concept of beauty that revolves around whiteness and Europeanness that the majority of millionaires have.

I hate the majority regardless of whether they are white, black or brown because they are the same, most of them serve colonialism, they have the same way of thinking, the same way of being and the same vision of the world.

In the case of indigenous people it is different: because their way of being is humble and simple, and when I say humble I do not mean that they feel inferior and I do not mean that they have to have low self-esteem, I am not referring to the Christian concept of humble.

For example, the indigenous people of the Arhuaco and Kogi ethnic group know that they are better than the majority and that is why they call themselves older brothers, and that does not mean that they stop being humble and simple.

In the case of indigenous people they are different: because in their vision of the world they feel part of nature and integrated with nature. On the other hand, the majority consider other nature as a simple economic resource, as a simple object, they do not consider themselves part of nature and feel separated from other nature.

It is true that the majority of indigenous people today use technology and use money, but they are not consumerists. Money itself and technology itself are not consumerism. What is consumerist is placing money and technology above life and above nature.

What consumerism is is accumulating money, and thinking only about money, without sharing, without helping. Having money alone is not consumerism, consumerism is when someone believes that money is the most important thing, when someone believes that money is the only thing that matters, they place money above everything, they only accumulate, they do not share and it doesn't help.

Both most speciesists and most vegans are the same.

In addition to the fact that bacteria and viruses evolve over time, it is obvious that due to so much pollution and the consumption of animals without being a necessity to survive, these harmful bacteria and viruses evolve into super bacteria and super viruses.

Predicting that new viruses and new bacteria will come is not creating those viruses, it is simply a logical conclusion of how evolution has so much pollution, climate change and consumption of animals without being something necessary to survive, that are kept locked in small spaces where their waste accumulates and bacteria accumulate, all this causes new variants of bacteria and viruses to emerge because we remember that bacteria and viruses evolve faster than other organisms because in one year thousands have passed of generations of those viruses and bacteria.

When they talk about the 2030 agenda, they do so to deny climate change so that no one cares about continuing to contaminate and destroy the environment. They can use conspiracy theories such as that viruses and vaccines are to reduce the world population, but the essence of Talking about the 2030 agenda is denying climate change and denying that non-indigenous humans are overpopulated.

On the other hand, something that I have mentioned thousands of times, people who live in extreme poverty and indigenous people do not have the information and do not have the resources to be vegan, talking about forcing them to be vegan without giving them the information and without giving them the resources does not have In order for them to be vegan, they must first be given the information and resources.

We know that pollution and destruction of the environment causes the death of wild animals, and that they have a slow and painful death.

But, the majority of vegans who accuse those who only care about dogs and cats as speciesists: the majority of these vegans when talking about the 2030 agenda to deny climate change and deny that the non-indigenous majority is overpopulated, What they are causing is making the majority not care about the environment and then causing the death of wild animals, therefore, these vegans are also speciesists because they care about animals domesticated by humans, but they do not care about wild animals..

For this reason, one day I commented that when those who invent conspiracy theories attack vaccines, they do not do it because they care about animal testing, nor do they do it because they are against the majority since the majority is not against vaccines, The reason they do it is because they promote conspiracy theories that make the majority look like innocent and harmless victims of the elites, and they say this nonsense that the elites want to reduce the majority through vaccines, when the The only ones the elites want to exterminate are the indigenous people, not the majorities.

It's like when all those who invent conspiracy theories, those on the Right, the Neoliberals or Libertarians and the majority attack Greta Thunberg and say that Greta Thunberg reflects the current generation, complete nonsense, because Greta Thunberg is only 1% of the world's population, 99% of today's generation is just as harmful as 99% of the previous generation, there is no difference, both before and now the majority remains the same, without a radical change.

Greta Thunberg is only 1% of the world's population who defend the environment, defend indigenous people and defend animals. 99% don't care about the environment, they don't care about indigenous people and they don't care about animals, they only care about money and technology.

Those who support those who invade indigenous territories and vote for politicians such as presidents, deputies and senators who support these invaders, those who support Agribusiness, those who support livestock farming that raises bulls, cows, sheep, goats and pigs where jungles and forests are destroyed to making pastures for those animals, enclosures and slaughterhouses, those who believe in conspiracy theories that deny climate change, the Right, the Neoliberals or Libertarians, and the majority who are selfish, individualistic, who only think about themselves, who only care Money and technology, which are complicit in their silence and equally guilty in their indifference, are to blame for this:

As explained before, blacks on this continent are not indigenous, and when we talk about blacks we are talking about blacks who are not indigenous.

The blacks who are indigenous are in Africa and also in Asia there is an indigenous ethnic group that descends from the blacks, the blacks in Africa who are indigenous like Bushmen and Pygmies are a minority in Africa and they also suffer a lot because of the blacks who They are not indigenous.

Could there be indigenous ethnic groups on this continent that descend from black people?

The answer is that there may be some, but they are a minority, there are also mixtures of blacks with indigenous people within indigenous ethnic groups such as the Pataxó in Brazil and the Miskitos in Nicaragua, and they continue to be indigenous because they meet all the criteria.

However, the majority of blacks on this continent cannot be considered indigenous because their way of being, way of thinking and worldview is the same as whites, and many blacks also hate indigenous people.

I am not saying that all blacks because there are zambos, blacks and mulattoes who help indigenous people and care about the lives of indigenous people, and if there are black people who are part of the indigenous people because they meet all the criteria and are accepted in an ethnic group , but they are like 1%.

It is known that the majority of indigenous ethnic groups on this continent descend from indigenous Asians who arrived on this continent thousands of years ago. And unfortunately you have to be careful when this information is given, because the damn people who hate indigenous people also imply that the lives of indigenous people, according to them, do not matter because they are descended from Asian immigrants.

But, white people also descend from Asians, and from immigrants, it is known that the origin of white people is related to the Aryans of Persia who conquered India, and that all white ethnic groups are of Indo-European or Eurasian origin, which in the end it's the same thing.

The Celts were not always in Spain, Portugal, England, France, Great Britain, Ireland and Scotland; the Romans were not always in Rome and Italy; The Vikings were not always in Norway, Denmark and other places in Europe; and the Slavs were not always in Russia. They all descend from Indo-European or Eurasian ancestors.

The difference is that white people come from ancestors from the part of Asia that was more western and whiter due to the conquest of India by the Aryan Persians. While indigenous people are more related to ancestors who came from Siberia and Mongolia.

Iran means land of the Aryans, and yet the Hindus are mestizo because they are a mixture of Aryans and Dravidians, and I suppose that the first inhabitants of Europe were dark-skinned and then their skin became whiter because at that time Europe was colder than other continents, it is like other white Asians like the Japanese whose skin became lighter due to the climate of the place and lifestyle.

When it is said that Europe had a pre-Indo-European period it is because obviously there were other inhabitants in Europe who were later conquered by the Celts, Slavs, Vikings, Saxons, Norsemen and Romans who are of Indo-European origin. On the other hand, when the ancestors of the indigenous people arrived on this continent, there were no other human inhabitants here.

Regarding the construction of Stonehenge, in different sources you can read the following excerpt: radiocarbon determination showed that the site was erected at least a millennium before the Celts were in the area.

Photographs recovered from the Internet

This means that Stonehenge was built by a culture before the Celts that when the Celts came to England, the Celts conquered that culture. But, the Celts did not destroy Stonehenge, in fact, the Celts and their priests (druids) used Stonehenge for rituals, ceremonies and sacrifices, even though they did not build it.

In the present: New Age groups, Celtic pagans and Celtic neopagans along with the druids (their priests) also use Stonehenge for ceremonies and rituals, although the Celts did not build it:

The origin of paganisms and neo-paganisms inspired by the Celts in a present-day context is also related to Freemasonry.

British Freemasons named John Toland and Henry Hurle created the first known neopagan organization, the Ancient Order of Druids, in 1781. That's where other variants of paganism and neopaganism inspired by the Celts come from, such as Wicca and many others, where they even mix with Viking paganism because they are the same.

A suspicious similarity with Judaism: Wiccans organize eight celebrations called Sabbaths that are related to the solstices and equinoxes.

Jews also have a celebration called Sabbat:

There is something else about Viking paganism like the Asatru: one of those who most influenced the creation of this paganism was Ernst Wachler, Ernst Wachler's mother was a Jew who later converted to Protestantism, Ernst Wachler claimed to be anti-Semitic and with this What he means is that he affirmed that the Jews were a race that is practically the same as what Hitler and the Nazis affirmed.

It is very suspicious that, although the first founders of Viking neo-paganism had Jewish ancestors, many followers of Viking paganism today are Right-wing and Neo-Nazis.

Although it is believed that Hitler's ancestors on his paternal side were Jewish. In fact, William Patrick Hitler, who was Adolf Hitler's nephew, threatened his uncle with revealing his grandfather's Jewish status.

Like other former neo-Nazis:

David Saavedra recognizes that many neo-Nazis worship Viking gods like Odin and that when he was a neo-Nazi he himself worshiped these gods, that they believe in conspiracy theories that make white people appear as victims of a conspiracy to replace them, that they have New Age beliefs like the hollow earth, underground cities like Agartha and sunken continents like Atlantis, and that they use the word progressive as an insult to refute those who oppose them, just as all those on the Right and Libertarians or Neoliberals use that word.

Heinrich Himmler, Nazi soldier and neopagan, visited Montserrat in Spain. Montserrat is a famous place in Spain for its Catholic cathedral and for New Age UFO sects that visit the place to, according to them, come into contact with extraterrestrials who visit us from other planets according to their beliefs.

Nothing is a casuality. Himmler with Franco:

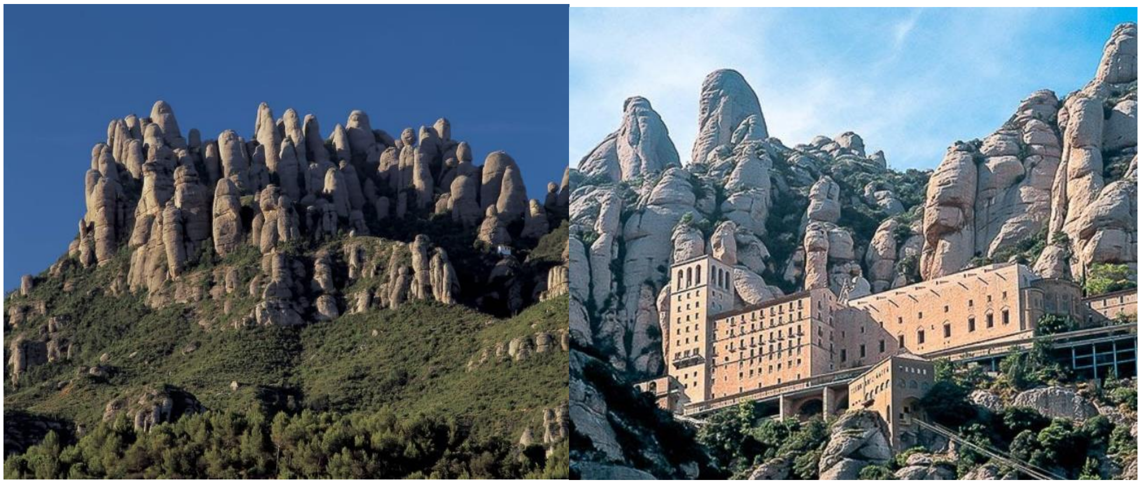
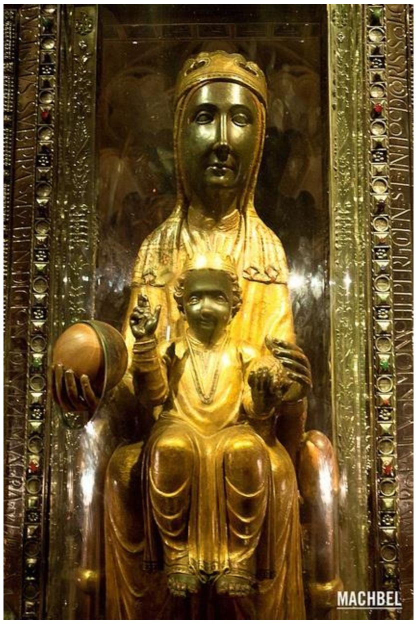
It is very suspicious that the Catholic Church looks for places with certain formations to build its cathedrals, as happens in Montserrat in Spain:



Photographs recovered from the Internet

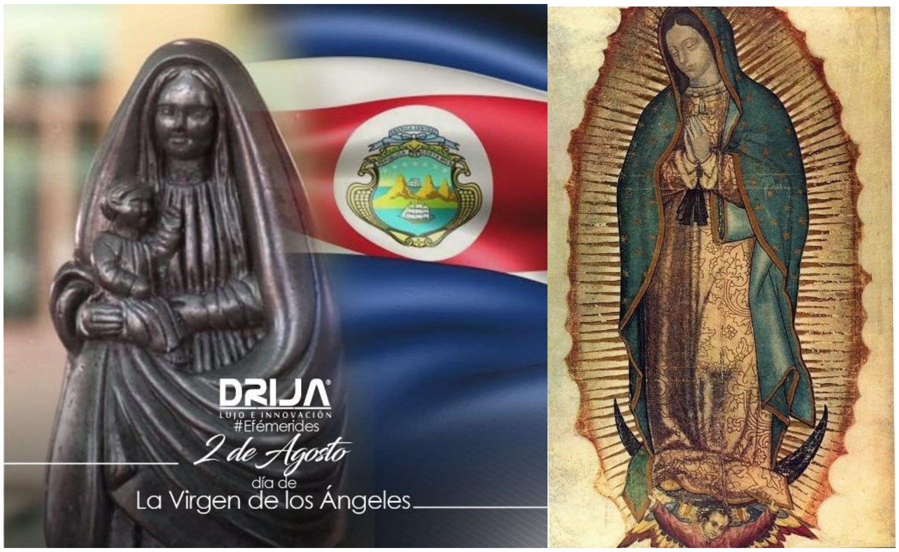
And it is suspicious because the Celts and Vikings also chose sites with unusual geological formations for their rituals.

But, in addition, the statues of the Virgin of Monserrat have a suspicious similarity with statues of Greek goddesses, Roman goddesses, goddesses of Celtic ethnic groups such as the Gauls and Egyptian goddesses:



Photograph recovered from the Internet

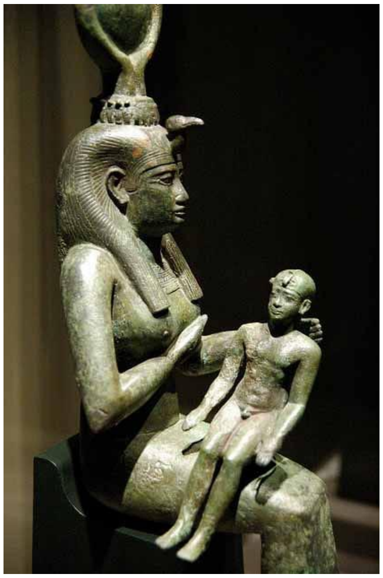
This is similar to the Virgin of the Angels in Costa Rica and the Virgin of Guadalupe in Mexico:



Images recovered from the Internet

Many times sacred places for indigenous people were destroyed to build Catholic cathedrals in those places. And the fact that the stories of these virgins include indigenous people represents the indigenous people who accept Christian domination and serve the white man who hates them.

The statue of the Virgin of Monserrat with the child Jesus is related to the statue of the Egyptian goddess Isis with the child Horus:



Photograph recovered from the Internet

Remember that Egypt had its Greco-Roman period where it was conquered and ruled by the Greeks and the Romans, that the Celts of Spain, Portugal, France, Great Britain and England were conquered by the Romans, and that when the Romans conquered them, the Romans still They had not converted to Catholic Christianity.

The Catholic cathedral of Monserrat is managed by the Benedictine Monks:

Photographs recovered from the Internet

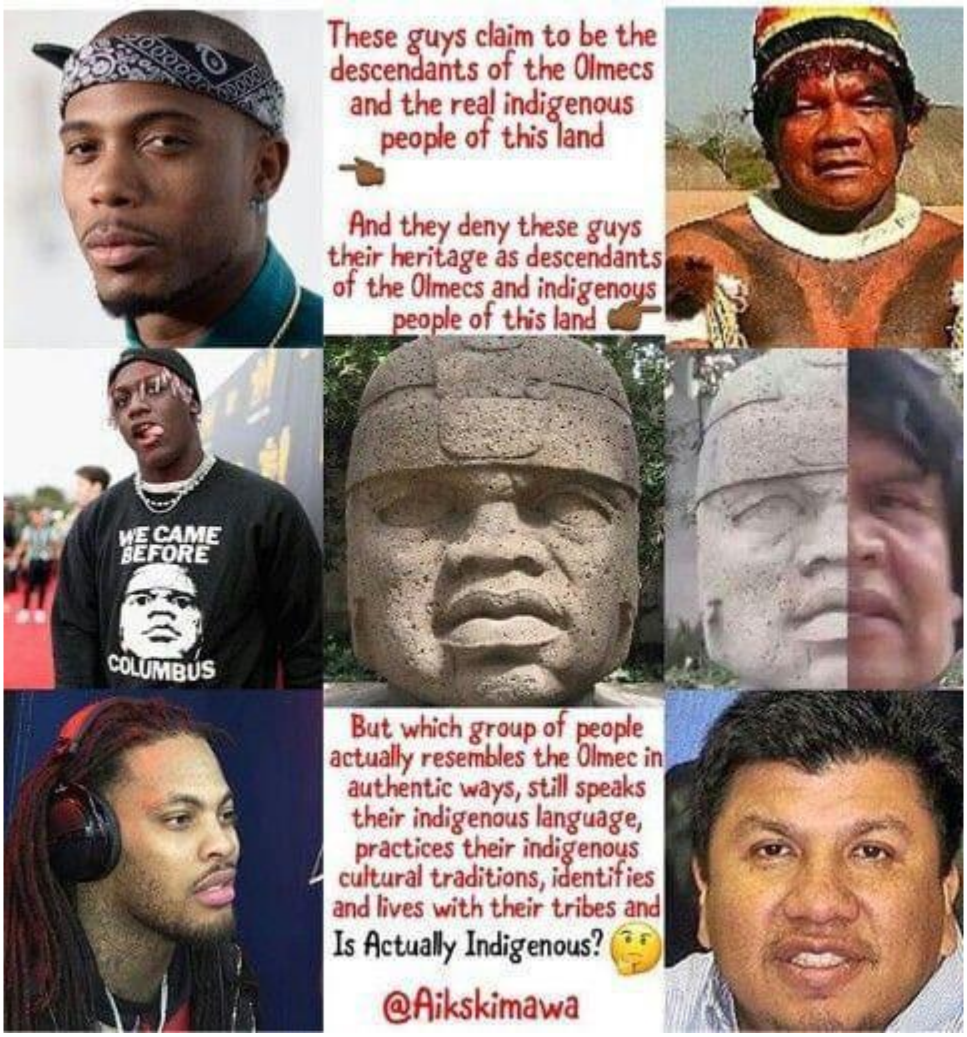
The Egyptian name for Egypt is Kemet, therefore, Egyptian paganism in the present is also called Kemetism. Kemet means both fertile land and black land.

In fact, in ancient Egypt, the color black represents fertility and for these monks to appropriate that color is a way of saying that they are going to make the Catholic church fertile in the world. Christianity that condemns paganism is totally related to paganism.

There are blacks who, without meeting the criteria to be indigenous, say that they are the true indigenous people and that those called indigenous people are mestizos, when in reality the slanted eyes present in the majority of indigenous people on this continent prove that their ancestors are the indigenous people of Siberia and Mongolia:



These guys claim to be the descendants of the Olmecs and the real indigenous people of this land 👈
And they deny these guys their heritage as descendants of the Olmecs and indigenous people of this land 👉

But which group of people actually resembles the Olmec in authentic ways, still speaks their indigenous language, practices their indigenous cultural traditions, identifies and lives with their tribes and Is Actually Indigenous? 🤔

These black people do a lot of damage because they make the indigenous people invisible and are part of the plan to replace the indigenous people. In addition, I repeat again that those black people who do that do not meet the criteria to be indigenous since they have the same way of being, vision of the world and way of thinking as white people.

I had explained how music, the use of images and more if it is something group, can lead to hypnotic states of relaxation or deep concentration that produce different types of trance. Any activity that refers to beliefs, metaphors and symbology can be considered a ritual or ceremony.

In the following screenshots from a video of a Katy Perry concert where she represents Cleopatra and many references to the Egyptians appear, and always whites and blacks together like the black women who sing in the choir, but never indigenous people because they want to eliminate the indigenous people. In addition to all that, the New Age belief in aliens visiting us and extraterrestrial abductions is promoted:

Screenshots recovered from YouTube

In a part of the concert video where the image of an Egyptian pyramid is projected on the screen, there comes a moment when the pyramid becomes a spaceship, implying that it was an extraterrestrial ship from another planet. And the truth is that the atmosphere of that concert gives the impression of being some kind of ritual or ceremony.

1. You tasked me to provide an assessment of the Gateway Experience in terms of its mechanics and ultimate practicality. As I set out to fulfill that tasking it soon became clear that in order to assess the validity and practicality of the process I needed to do enough supporting research and analysis to fully understand how and why the process works. Frankly, sir, that proved to be an extremely involved and difficult business. Initially, based on conversations with a physician who took the Gateway training with me, I had recourse to the biomedical models developed by Itzhak Bentov to obtain information concerning the physical aspects of the process. Then I found it necessary to delve into various sources for information concerning quantum mechanics in order to be able to describe the nature and functioning of human consciousness. I had to be able to construct a scientifically valid and reasonably lucid model of how consciousness functions under the influence of the brain hemisphere synchronization technique employed by Gateway. Once this was done, the next step involved recourse to theoretical physics in order to explain the character of the time-space dimension and the means by which expanded human consciousness transcends it in achieving Gateway's objectives. Finally, I again found it necessary to use physics to bring the whole phenomenon of out-of-body states into the language of physical science to remove the stigma of its occult connotations, and put it in a frame of reference suited to objective assessment.

2. I began the narrative by briefly profiling the fundamental biomedical factors affecting such related techniques as hypnosis, biofeedback and transcendental meditation so that their objectives and mode of functioning could be compared in the reader's mind with the Gateway experience as the model of its underlying mechanics was developed. Additionally, that introductory material is useful in supporting the conclusions of the paper. I indicate that at times these related techniques may provide useful entry points to accelerate movement into the Gateway Experience.

The physics of altered human consciousness deals with some conceptualizations that are not easily grasped or visualized exclusively in the context of ordinary "left brain" linear thinking. So, to borrow Dr. Bohr's mode of expression, parts of this paper will require not only logic but a touch of

2. I began the narrative by briefly profiling the fundamental biomedical factors affecting such related techniques as hypnosis, biofeedback and transcendental meditation so that their objectives and mode of functioning could be compared in the reader's mind with the Gateway experience as the model of its underlying mechanics was developed. Additionally, that introductory material is useful in supporting the conclusions of the paper. I indicate that at times these related techniques may provide useful entry points to accelerate movement into the Gateway Experience.

3. Niels Bohr, the renowned physicist once responded to his son's complaints about the obtuse nature of certain concepts in physics by saying: "You are not thinking, you are merely being logical." The physics of altered human consciousness deals with some conceptualizations that are not easily grasped or visualized exclusively in the context of ordinary "left brain" linear thinking. So, to borrow Dr. Bohr's mode of expression, parts of this paper will require not only logic but a touch of

This declassified CIA document proves the relationship with the New Age. Everything seems to have been planned since the Persians. The document talks about hypnosis, transcendental meditation and in part Hinduism.

The New Age reached the same power as the Christian religions throughout the continent and the New Age continues to be a form of Christianity, and all linked to spiritualism as well, suggestion and altered states that produce hallucinations, and always with the Aryans who conquered India because that Hinduism comes from the Aryans who came from Iran who were part of the Persian empire.

That supposed enmity between the CIA and the hippies was false. Just as false as the enmity between Freemasonry and Christianity, or between Zionism and Neo-Nazism.

In fact, the hippies promoted the New Age worldwide, the ONU is based on the hippie ideology that injustices end with love and peace, and we already know that love and peace do not solve things, and that the majority will never change with love and peace.

Peace and love is a way to keep the population compliant and tame. It's like Lula's speeches that people find very nice do nothing to resolve the injustices and crimes that indigenous people continue to suffer.

Regarding John Lennon, I have already mentioned it before, sometimes they sacrifice people who serve them. Sometimes killing a part of them is a way to divert attention.

For example, the Jewish holocaust that was used as an excuse for the creation of the state of Israel. When the church makes it seem like it was persecuting the Freemasons and the Freemasons make believe that the church was persecuting them is that it is a theater that they have always planned.

When it suits them they don't mind killing part of them, remember that they are individualists. It's like the colonizers when they came to this continent sometimes betrayed themselves.

In Peru, for example, there were sometimes conflicts between the colonizers. And I have already mentioned that in Freemasonry there are several factions: there are more Right-wing factions and more Left-wing factions, hence the blue apron and red apron thing, but they all maintain the Judeo-Christian base.

And they are all New Age: they mix Judeo-Christian with Greek and Egyptian paganism. From experience we already know that the world and the majority, contrary to that John Lennon song, does not change with love, peace and equality.

And in reality: love, peace and equality is something that benefits those who oppress the weakest and most vulnerable.

Remember that if the majority of humanity considers the teachings of the character of Jesus Christ as good, it is precisely because of love, peace, loving your enemies, forgiving everything and turning the other cheek that benefit those who harm the weakest and most innocent.

And those who say they receive messages from extraterrestrials of the Aryan prototype of the Nazis also talk about that, that they receive messages of love, peace and equality. Remember that these New Age people are the same people who support Donald Trump and Jair Bolsonaro.

Love, peace and equality: a tyranny to criminalize and consider terrorists those who take revenge and fight for their rights such as indigenous people, stating that they are against order, that they are against democracy for going against a majority that oppresses them and that generate chaos social since they are rebels.

Love, peace and equality: something that does not correspond to nature, something that denies that human beings are animals, that is used to deny that human races exist and that denies the reality that genetics does influence behavior.

Love, peace and equality: something that solves nothing, because the majority and the monsters in power do not change with love, peace and equality.

Love, peace and equality: something that affirms that the lives of those who harm the most innocent, the weakest and the most vulnerable are worth the same as the lives of the most innocent, weak and vulnerable; concepts that are used so that those who harm the weakest, innocent and vulnerable never pay for their crimes with the excuse that they have the right to equality, love and peace.

Therefore, when I talk about respect for indigenous people and their rights, respect for animals of other species by not harming them for pleasure, and respect for the environment, I talk about respect, not love, not peace and not equality.

The lives of indigenous people will always be in danger when peaceful coexistence in the same place with the non-indigenous majority is promoted. Simply put, this should be the continent of the indigenous people. Ecosystems don't care about love, peace and equality, and nature doesn't understand peaceful coexistence

Love, peace and equality: words that are used to defend the majority by affirming that, in the name of love, peace and equality, the majority has the right to reproduce, words that are used to defend the will of the majority and consider as savage or uncivilized who is against the will of the majority (Democracy).

Love, peace and equality: words that are used to put the majority as a priority above minorities, stating that if the majorities are not put as a priority, the order that guarantees love, peace and equality is broken.

Love, peace and equality: empty words that are used so that the majority imposes its will on the minorities and so that the majority never pays for their crimes, and is allowed to continue reproducing by transmitting the genetic predisposition to evil to new generations who do that the world does not change.

Love, peace and equality: corny words used by Christian religions, by Freemasonry, by the ONU and by New Age sects that solve nothing.

For love, peace and equality, if someone is not like the majority and does not follow democracy (the will of the majority), they are considered savage, uncivilized and bad for not conforming to the ideal of what they consider correct, this is a sick society.

John Lennon was just part of the system and if they killed him it is because for them sacrificing some who serve them is nothing, it is like when the church talks about martyrs who died for the faith, Martyrs are very functional to the system because they serve the majority to pretend that they are persecuted victims, like when they talk about the theory of the great replacement, saying that the elites want to replace the whites.

Let us remember Hitler and the Nazis, that sacrificing a part of the Jews was nothing to them, because later it was going to be the perfect excuse for powerful Zionist Jews to create the state of Israel with the help of the European Union and the United States.

That's why I don't even talk about brotherhood. Because brotherhood is something that Freemasonry, Christian religions, and the New Age like the hippies talk about.

I speak of returning this continent to the indigenous people and of the continent being united into a single country, but without Christian moralism and without empty words.

So if the majority of Europeans, the majority of Creoles and the majority of mestizos want to kill each other, let them do it, but being together in Europe and leaving the indigenous people alone.

My ideal of the world is a better world in which the indigenous people regain control of the continent, not a perfect world because in addition to the fact that perfection does not exist, tyrants are based on the ideal of what they consider perfect and based on that concept disastrous thing about perfection is that they impose tyranny.

Throughout history up to the present: the people who have committed the worst atrocities and the worst crimes are people who believe in perfection, that is why they talk about excellence or virtue, they talk about family, god, country, love, peace, brotherhood and equality.

The Jews talk about Shalom (peace) and the Romans talked about the Pax, they did not talk about moments of peace, it is true that we all need those moments, They spoke of peace as an ideal when everyone followed their absurd and imposed concept of perfection or excellence.

For someone who hates indigenous people, peace is when indigenous people do not exist, when nature can be used as a simple resource, when social Darwinism destroys indigenous people and when only Christians, atheists, satanists, white paganisms and people of the New Age that are individualistic and selfish in the world, that is the peace and brotherhood that they preach so much where everyone is equal in way of being, way of thinking and vision of the world.

Peace, love and equality do not see the difference between social realities of minorities, they lack a social conscience to see the reality of minorities, since these concepts assume that everyone has the same resources and the same opportunities, they are concepts that make Injustices are invisible and very dangerous since fanatics always use these concepts to cause crimes and impose tyranny in the world.

Of course, one can consider someone a brother in the sense that one feels appreciation for the person. But brotherhood as spoken by those in power, Freemasonry, Christian churches and the New Age is not about that.

For this reason, in Christian churches everyone treats each other as brothers when they take communion, and it is not about brothers in a sense of people who appreciate each other because we remember that they are individualistic and selfish beings by nature, the brotherhood of which they speak is in another sense.

You cannot ask a cat to stop being a cat, you cannot ask a dog to stop being a dog, you cannot ask a rabbit to stop being a rabbit and you cannot ask a fish stop being a fish.

If a terrestrial animal is forced to live in water it drowns and if an aquatic animal is forced to live on land out of water it suffocates.

What I'm getting at with this is that you can't ask a human to stop being human, the objective and subjective part are part of being human, but obviously there are differences in human races, and unfortunately the worst are those that dominate the world and those that reproduce with the excuse that it is a right without someone stopping them.

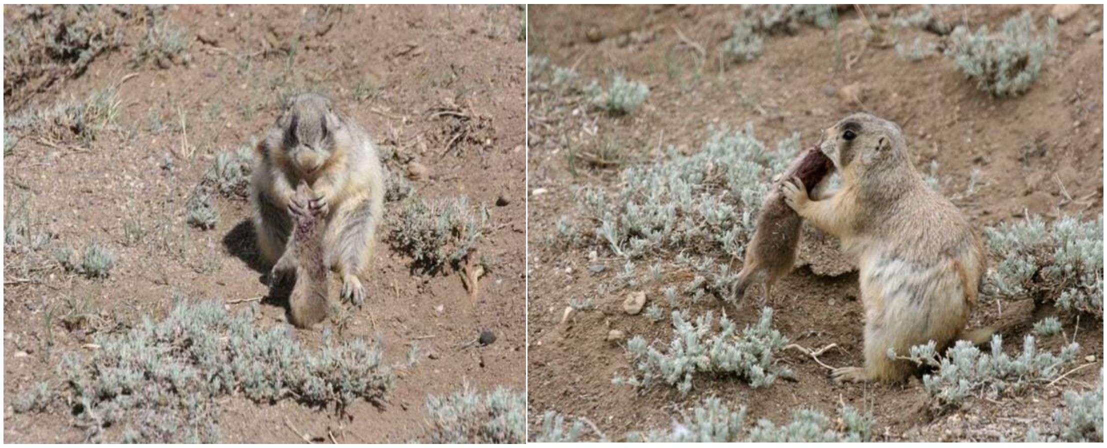
The genetic difference between a chimpanzee and a human is minimal, only about 2% and that is why no one thinks of saying that they are not races, that they are ethnicities, but when it comes to humans it is very easy for the politically correct to deny that we are animals and that genetics does influence.

I have never understood this obsession of the majority to downplay the importance of what is a minority: if it is about gorillas, chimpanzees and humans, even if the genetic differences are minimal, it does not occur to anyone to say that they are the same race, but in the case of Humans do rely on minimal differences to deny that there are different human races.

Also obsession that if the victims are few it does not matter, for example all those on the Right, Libertarians, Christians and atheists who defend them like Dalas who say that since according to them the victims of the inquisition were few then according to their stupidity those crimes do not matter.

Also when they downplay and make invisible the injustices and atrocities suffered by minorities such as indigenous people.

Let's take an example: prairie dogs and ground squirrels are rodents; since they are rodents, the genetic differences between them are minimal. But, prairie dogs kill ground squirrels:



Photographs recovered from the Internet

They don't kill them because they eat them. They kill them fighting for territories. Another example:

The genetic differences between a hamster and a gerbil are minimal, both are rodents, and no one thought of saying that because of the different genetics, they are the same breed:

Photographs recovered from the Internet

But, gerbils need to live in clans (groups) and hamsters need to live alone. Starting from the fact that humans are animals:

Why deny that it is the same in humans just to please a hippie ideal of political correctness?

One more example with rodents: the genetic differences between prairie voles and house mice are minimal, and no one thinks of saying that they are the same breed, and both are rodents.

But, prairie voles are monogamous (they only have a single partner):

Photograph recovered from the Internet

And house mice are polygamous (they have many partners):

Photographs recovered from the Internet

Just as the genetic differences between chimpanzees, gorillas, orangutans and humans being primates are minimal, and that does not mean that they are the same race.

The genetic differences between rodents are also minimal, and that does not make them the same breed, but they also have differences in their way of life, behavior and even in their diet: there are insectivorous rodents, herbivorous rodents, frugivorous rodents and omnivorous rodents.

And it is irrelevant that the genetic differences between the different species are minimal, because, even if they are minimal differences, they do determine the differences in behavior, way of life and diet.

Politically correct people deny that human races exist, but to me this is stupid. I already explained before that if we deny the human races it means denying biology, denying that we are animals and denying that indigenous people exist.

In other times there were anthropologists who claimed that the white race was superior. Remember that sciences are often influenced by dominant ideologies. And although white supremacy continues to be dominant, political correctness now has more weight.

If someone like me who, although he is against the Right, Neoliberals and conservatives, but also against political correctness, talks about human races, they accuse him of being racist.

It seems just as stupid to me that if someone talks about dog breeds and cat breeds, someone would accuse them of being racist. Furthermore, it makes no sense to talk about racism without races existing.

But, this denial of races is foolish; although many indigenous people are easily manipulated, this does not benefit the indigenous people. On the contrary, what this does is continue with the ideology of equality to deny different rights to the indigenous people.

It is interesting that only 16% of biologists in a survey done in 1985 do not agree that human races exist.

All rodents evolved from a common ancestor, and that does not make all rodents the same breed. And all cats evolved from a common ancestor, and that does not make all cats the same breed.

However, if the idea that we all come from Homo sapiens is used to deny that human races exist.

Since Western science is a creation of white people and we already know that its antecedents are the Persians, Greeks and Romans:

It is true that in the past Western science used the concept of human races to promote racism and white supremacy, and now Western science itself wants to use the same thing to deny that human races exist.

They create the problem and then offer the solution themselves. I have already commented on many presidents, politicians and soldiers who belonged to Freemasonry, and promoted hatred of indigenous people and caused massacres of indigenous people.

The same Freemasonry that speaks of fraternity and equality, and those mottos of Freemasonry were used in the French Revolution and were used by Libertarians like Simón Bolívar who did not care about the indigenous people, and only defended Creoles and mestizos.

I already mentioned that there are scientific studies that demonstrate how genetics does influence the religious and political ideologies that a person has, and how science itself accepts that 40% of genetics does influence behavior.

Imagine that the majority of Europeans, the majority of Creoles and the majority of mestizos will accept that they are selfish and individualistic due to their genetics, that that is why they only care about money and technology, and that that is why they place money and technology above of everything, and that they sterilize themselves of their own free will or that someone compulsorily sterilizes them without obeying the human rights organizations that defend their reproduction, if something like that were to happen that would be beneficial for the indigenous people, for the environment and for the animals.

On the other hand, it is obvious that acts of cruelty have been committed in all human races, but it is also obvious that indigenous people have a more genetic predisposition to be hospitable, humble, to share and to defend the environment more.

It is also obvious that there are exceptions in non-indigenous people and there are exceptions in indigenous people, because exceptions are part of nature.

This ideology of equality that denies races is very dangerous for indigenous people since those who hate them say that since we are all equal then indigenous people should not have different rights.

What the ideology of equality does is justify the invasions of indigenous territories, the expulsion of indigenous people from their territories and the massacres of indigenous people.

Turning humans into a single selfish and individualistic race is what was sought through miscegenation and what is still sought in the present when nefarious people say that miscegenation is to improve the race.

Christianity, by becoming a global religion, and the New Age, by becoming a global spirituality, seek the same thing that there is only one selfish and individualistic human race.

It is obvious that among the majority of Europeans, among the majority of Creoles, among the majority of mestizos, among the majority of blacks who are not indigenous, among the majority of mulattoes, among the majority of Arabs and among the majority of Asians who are not indigenous, there are no differences in way of being, way of thinking and vision of the world.

But, if we talk about indigenous people, the differences between the majority of indigenous people and all those mentioned above in terms of way of being, way of thinking and vision of the world are very obvious, and I am talking about the fact that indigenous people from both Abya Yala, Australia, Siberia, Africa and Asia are not like the majority and logically some genetics influence, and obviously there are exceptions as in everything.

It is that the blacks who are not indigenous were in contact with the whites and with the ethnic groups of the Middle East, it is known that a part of the blacks who were in contact with the whites also have Neanderthal DNA.

The Greeks and Romans knew that black people existed, in fact, the Greeks believed that black people were black because of an accident, according to a Greek myth, the son of the Greek sun god called Helios, asked his father to use the chariot. of fire, and as he passed very close to them his skin turned black.

The Greeks knew that pygmies existed, but they only observed them, they did not have contact with them, because the Greeks even believed that pygmies were beings with magical powers.

The first Egyptians of the first dynasties were black, but due to the conquests by the Middle East such as the Persians and white ethnic groups such as the Greeks, they began to mix.

Maman Brigitte is a goddess (loa) of Haitian voodoo, it is believed that this goddess is a product of the contact of the blacks with the Celts of Ireland, that is, that Maman Brigitte of voodoo is inspired by the goddess Brigid of the Irish Celts.

It is possible that non-indigenous blacks have a part of their DNA that is closely related to whites. While the blacks, if they are indigenous like Bushmen and Pygmies, come from pure Homo sapiens who did not mix with the Neanderthals.

What a coincidence that those who promoted and financed Madonna and Quavo's concert in Israel were those from Eurovision.

The part of the song Future where Quavo says this phrase catches my attention: It's the future, crucifixion on a cross. But you know I'm above everything.

It is true that following the success that the Right and Neoliberals such as Donald Trump, Jair Bolsonaro and VOX have had, and the success that those who invent conspiracy theories to favor Christianity and conservatives have had, who, unlike me, They do not even rely on Masonic sources to write or speak, Neo-Nazi groups have increased and racism against blacks has increased, it cannot be denied.

Also, it is true that among the police and military there are many of them who are neo-Nazis and Zionists, and that the difference in treatment is very noticeable when they detain a white person versus when they detain a black person, and if they detain an indigenous person or a mestizo with indigenous features, the treatment is even worse than when a black person is detained.

This is because many police officers and soldiers are old sexists, totally reprehensible and completely disgusting people who were unfortunate that their criminal mothers had not aborted them. And I refer to the mothers of these police officers and soldiers as criminals because it is a crime that they gave birth to them.

And when I say that the majority of police and soldiers are sexist, I am not referring to the part of the machismo of discrimination against women and misogyny, I am referring to the part of the machismo of Social Darwinism.

But, let's be clear: in the entertainment industry today, most of the time whites and blacks appear together and complement each other, there is no conflict between them, those who are often excluded are the indigenous people because they want them to disappear.

And the majority of whites who are not politicians, are not military and are not police: the majority of whites do not have problems with blacks, there is no conflict between them.

But what does exist is a conflict between the non-indigenous majority and the indigenous people. And this conflict is not reduced only to politicians, it is not reduced only to the police and it is not reduced only to the military. It is a more generalized conflict that is present both consciously and unconsciously.

Regarding the phrase that Quavo said in the song Future: we all know that millionaires, regardless of whether they are white, black or brown, have a greater chance of surviving if a global disaster occurs because they have greater technology and resources.

In the United States and Europe, when temperatures are extreme, whether due to heat or cold, people with money have ways to control the temperature inside their homes through technology.

This is why many millionaires do not care about climate change, since they also believe that access to technology can solve everything. That's why so much promotion of transhumanism.

Leaving conspiracy theories aside, if it is true that transhumanism is being promoted in the world and there are groups that consider themselves transhumanist even on social networks like Facebook and in all countries, both whites and blacks and brown mestizos, but not indigenous.

Transhumanism is not a conspiracy theory, because it is openly an ideology with followers around the world, so those who invent conspiracy theories mention transhumanism is a separate matter.

Also among those who support transhumanism there are both poor and middle class people and millionaires, believing that technology is the panacea for everything, that technology is the solution to everything, thinking that technology will benefit everyone equally.

When in reality it is the millionaires who benefit the most, not all, and poor and middle class people who support transhumanism because they believe that they too will become some kind of gods. The thing is that narcissism and egocentrism do not distinguish between social classes.

Transhumanism, which makes people believe that technology is the solution to everything, has always been something promoted by the entertainment industry, and this is a fact, not a conspiracy theory.

One harm done by conservative Christians who invent conspiracy theories to benefit the Right and Neoliberals is that since they mix a small percentage of truth with many lies, The small percentage of truth they make it seem as if it were a conspiracy theory, for example, when they mention Freemasonry, which does exist and does harm, but not as they say.

This is what I have commented many times about all these Creoles, mestizos and others who invade indigenous territories: the majority are related to livestock farming that raises bulls and cows or are ranchers who are dedicated to raising bulls and cows for meat, leather, milk and dairy derivatives.

Furthermore, they are old sexists, firstly because they are dedicated to livestock raising bulls and cows, and secondly because many of them practice cockfighting and hunting for pleasure.

Furthermore, they accuse the indigenous people of being lazy and drunk, and these Creole and mestizos invaders are mostly old alcoholics who, as seen in the image in the illegal activities they carry out in indigenous territories such as bullfights, also sell alcoholic beverages.

The damned Colonialist state of each country on the continent, the police, the military and television channels treat indigenous people as criminals or terrorists when they defend themselves or take revenge, allowing the invasion of indigenous territories and they ensure that crimes committed against indigenous people go unpunished or that light sentences are applied to the criminals who commit them.

But, the colonialist state, the police, the military and television channels treat the Creoles, mestizos and others who invade indigenous territories as good people, such as ranchers who raise cows and bulls, allow these invasions and even encourage them.

When all these monsters in power talk about integrating indigenous people into society, they mean making indigenous people participate in activities that destroy and pollute the environment in exchange for money such as the livestock that raises bulls and cows brought by the European colonizers that generates large emissions of methane and carbon dioxide, and destroys many hectares of forests and jungles to make pastures, enclosures, stables and slaughterhouses for these animals.

The worst of all is when trash television channels like Teletica Canal 7 and Repretel Canal 6 use other indigenous people to talk about that garbage of pacifism to defend the criollo, mestizos and other invaders, and to criminalize the indigenous people who recover their territories on their own, the state does not take actions to return their territories to them.

Someone should set fire to all those television channels.

But, worse than the indigenous people who talk about pacifism to defend invaders of their territories and to criminalize the indigenous people who do justice on their own, are those indigenous traitors who, together with the invaders, participate directly in the attacks on other indigenous people, and I I once saw it in a video, these traitors are the same trash as the invaders, it doesn't matter if they are indigenous if you can call them that.

This is the same as when at the beginning of colonization, the traitorous indigenous people who murdered other indigenous people the most were the best treated by the colonizers. Although when the colonizers achieved their objectives, they also treated these indigenous traitors as disposable beings, after achieving their objectives they treated them like trash.

For example, this indigenous traitor is on the side of the Creole, mestizos and other invaders in the indigenous territory of Salitre in Costa Rica. This indigenous traitor says that the indigenous people who recover their territories are invaders, and not the criollos, mestizos and others who live in indigenous territories.

He says that the fact that indigenous territories are exclusive to indigenous people and that indigenous people denounce the harm that non-indigenous people do to them, according to their stupidity, is racism. And he says that the indigenous people who defend their rights and their territories follow ideologies.

I can already imagine when Creoles and mestizos will pay him money for speaking stupid things, the worst thing is that Teletica channel 7 and Repretel channel 6 give this traitor space to speak.

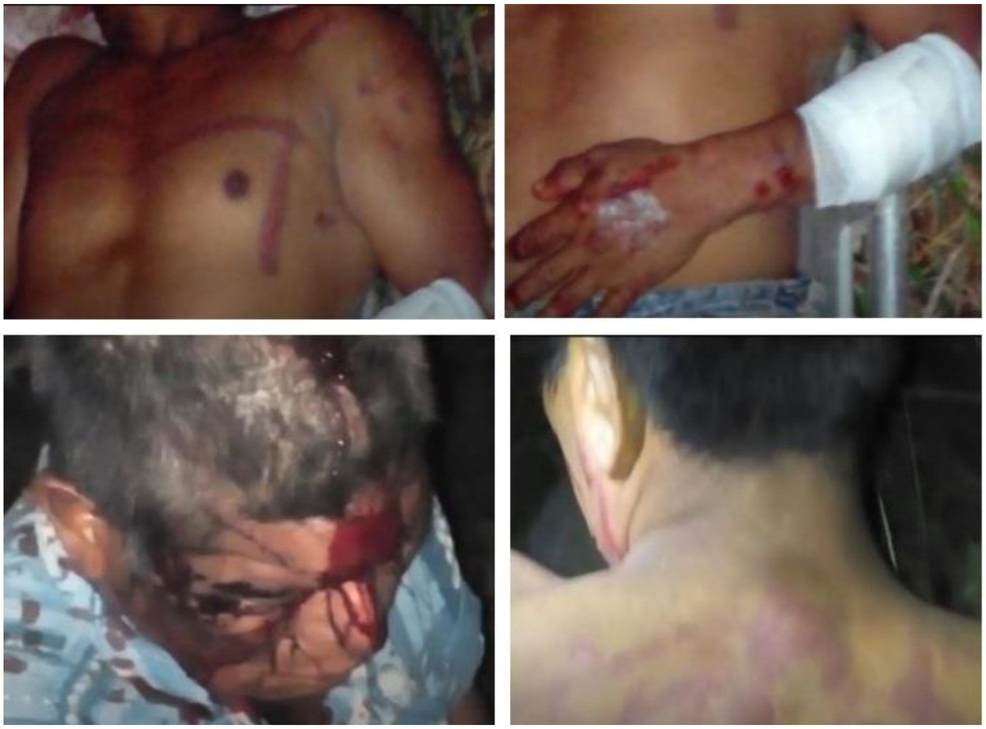
Also, Teletica Canal 7 gives space to a mestiza to say that they suffer marginalization from indigenous people. These Creoles, mestizos and the shit of Teletica channel 7 are clowns because the indigenous territories are exclusive for the indigenous people because of everything they have suffered.

All those traitorous indigenous people receive economic and material benefits from those invading creoles, invading mestizos and other invaders. These traitors should stop saying that they are indigenous, because, even if they were born indigenous, they are enemies of the indigenous people and are part of those who harm them.

We are more indigenous, the 1% of mestizos, creoles, Europeans, blacks, mulattoes and zambos who defend the indigenous people, who share the humble and simple way of being of the indigenous people, who are not consumerists and who in our vision of the world We consider part of nature that those traitors.

It is a lack of respect for good indigenous people that these traitors claim to be indigenous.

The following are photos of the attacks suffered by indigenous people in the indigenous territory of Cabagra in Costa Rica by Creole invaders, mestizo invaders and other invaders:



Photographs recovered from YouTube

Photographs recovered from the Internet

The state of Costa Rica is guilty and complicit for allowing this, the majority of the population in Costa Rica who are not indigenous are guilty and complicit for their silence and indifference to the lives of the indigenous, and the traitors are also guilty and complicit for support the invading criollos, the invading mestizos and other invaders.

Television channels such as Teletica channel 7 and Repretel channel 6 are complicit and guilty for treating indigenous people who defend themselves and take actions as terrorists or criminals.

And the non-indigenous majority is complicit and guilty for wearing leather, and consuming red meat, animal milk and dairy derivatives, which are the activities to which the majority of those who invade indigenous territories engage.

And this happens the same in Costa Rica as in other countries throughout the continent.

Most of the invading criollos, invading mestizos and other invaders are dedicated to livestock raising bulls, cows, sheep and goats for meat, leather, milk and dairy products, there are other types of invaders such as miners, loggers, companies and businessmen, but the large percentage of invaders are dedicated to livestock farming that raises these animals and involves traitors:

Photograph recovered from YouTube

Something to clarify about the previous photo: apparently what is seen in the photo are two indigenous people removing a fence that was put up by invading mestizos and invading Creoles who are dedicated to livestock raising bulls and cows.

If people on this continent did not consume red meat, did not consume animal milk and did not consume dairy products: invasions of indigenous territories would decrease by a large percentage and many indigenous people would recover their territories, In addition, soy cultivation that causes invasion of indigenous territories and massacres of indigenous people will also decrease, because the majority of soybeans are used to manufacture concentrates for the purpose of fattening these animals.

If people on this continent did not consume red meat, did not consume animal milk and did not consume dairy products: methane and carbon dioxide emissions would decrease by a large percentage, the destruction of forests and jungles would decrease by a large percentage, will decrease the use of drinking water and reduce water pollution.

I have already mentioned other times that there were black and mulatto colonizers who, being colonizers, participated in the domination, subjugation and extermination of the indigenous people, that there were cowboys and landowners who were black, the Buffalo army in the United States formed by blacks who would exterminate natives (indigenous), and that there are blacks and mulattoes in the present who feel hatred and repulsion for the indigenous.

It was never just about the white majority against the indigenous people. In reality, it is a majority of whites, browns and blacks who, from the beginning of colonization to the present, continue with a war against the indigenous people, and with hatred for the indigenous people, consciously or unconsciously.

In the collective consciousness of the majority, the indigenous way of being humble, simple and not consumerist is considered something ignorant and primitive, while the consumerist way of being where only money matters, egocentric, narcissistic, and contaminating the environment in exchange for money and technology they consider progress and development.

They believe that the defeat of the indigenous people is the triumph of progress and development over ignorance and primitiveness.

Although Middle Eastern ethnic groups such as the Persians, Sumerians and Babylonians, white ethnic groups such as Greeks, Celts, Slavs, Basques, Romans, Vikings, Norse and Saxons, and Christianity with the inquisition and the crusades, also practiced human sacrifices and acts of extreme cruelty.

The collective conscience of the majority only focuses on the human sacrifices and acts of cruelty that some indigenous ethnic groups committed in the past to promote hatred of the indigenous people of the present.

They believe that the defeat of the indigenous people is the triumph of civilization over barbarism and savagery.

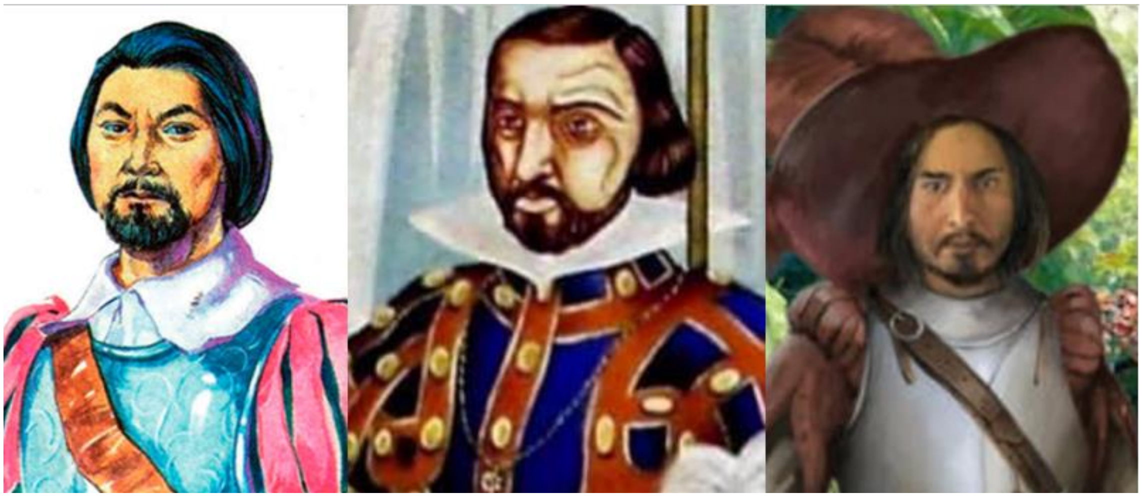
Although white ethnic groups such as the Romans and Greeks also practiced sexual orgies, and Greek athletes practiced nudism, and in the Olympics of ancient Greece, the athletes went naked, and among the Greeks and Romans there was pederasty.

Since the majority has a Judeo-Christian, classist, white supremacist morality and prefers white, that is why in their collective conscience they consider indigenous nudity and indigenous traditions that have a sexual connotation as something immoral, indecent, ordinary, ordinary or decadent.

They believe, therefore, that the defeat of the indigenous people is the triumph of class, of good customs as they say, of morality and decency over immorality, decadence, indecency and the ordinary.

There have always been mestizos, whether white or dark-skinned, who felt hatred, repulsion and contempt for the indigenous people, and felt admiration, respect and appreciation for the Europeans.

There were mestizo colonizers, some of them were: Francisco Fajardo, Miguel Caldera and Alonso Ruiz Vallejo. These colonizers felt the same hatred towards the indigenous people that the European colonizers and the Creole colonizers born on this continent felt. And they participated in the entire process of domination, submission and extermination of the majority of the indigenous people.



Images recovered from the Internet

There was always a 1% of indigenous traitors who hated the majority of indigenous people, just as there are people who are not indigenous who hate the majority who are not indigenous.

Those 1% of indigenous traitors felt the same repudiation and hatred for the indigenous people as their enemies. For this reason, some indigenous colonizers who collaborated with the domination, subjugation and extermination of the majority of indigenous people were: Nicolás Montañez and Fernando de Tapia.

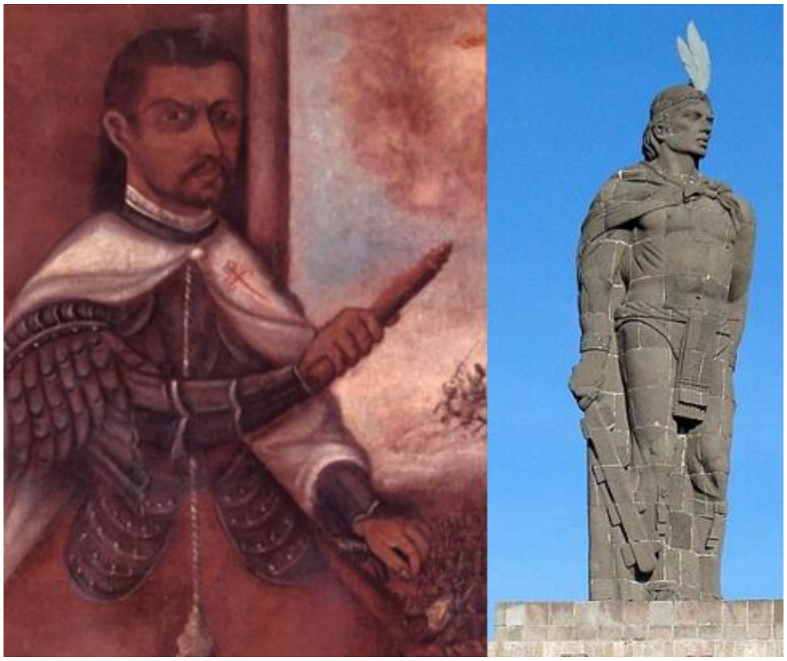


Image and photograph recovered from the Internet

I have never said that all indigenous people are good, it is obvious that there have always been good indigenous people and bad indigenous people. And I have not idealized the indigenous people because the indigenous people are not perfect, perfection does not exist, the indigenous people also have errors and defects, and they have aspects to improve.

But, what I have affirmed is that indigenous people are better than the majority in their way of being, way of thinking and vision of the world.

But, those who hate indigenous people, those who talk about Hispanicity and others who defend colonization, idealize Europeans, present them as the best and as if they were perfect, In addition, by defending them they victimize them because Europeans do not suffer what indigenous people do in the present.

Those indigenous people who held important political positions and participated in colonization were only 1%, however, Hispanists and others who defend colonization use that 1% to claim that the majority of indigenous people or that all indigenous people agreed with colonization.

And the important political positions that these indigenous people held were obtained as a reward for humiliating and exterminating many indigenous people. Still in the present there are indigenous traitors and they are still only 1%.

The problem is that these 1% of indigenous traitors do a lot of harm to 99% of indigenous people since they participate in the oppression, hatred and genocide that 99% of indigenous people suffer.

For Hispanics: if you criticize miscegenation they say that you are a Nazi, being a mestizo.

It is also stupid because criticism of miscegenation has never caused the extermination of mestizos and has never caused concentration camps for mestizos. On the other hand, indigenous people have suffered extermination policies and been confined in concentration camps.

But, anyone enters the profiles of a Hispanicist, whether on Facebook, Twitter or Instagram, and realizes that all Libertarians or Neoliberals and Rightists, who all publish in favor of Donald Trump, in favor of Jair Bolsonaro, in favor from VOX and Javier Milei, all defend Christianity and the Bible, and many of them also defend bullfighting, cockfighting and hunting for pleasure because they are a European heritage.

Many of these Hispanists when entering their accounts on social networks are believers in conspiracy theories and many of these clowns deny hating the indigenous people because they defend miscegenation, but they show hatred towards the indigenous people when they consider them from the stone age, backward, uncivilized or savage, they idealize Europeans and Europe, and for them only Europeans and Europe provided contributions to the world.

When they mention indigenous people it is only to highlight their bad parts, they never mention the good parts of indigenous cultures. Also, the concept that these Hispanists have of civilization and progress is to place technology and money above everything, above life and above nature.

If they said that money is important and technology is important, but that life is more important, that environmental protection is more important and respect for indigenous people is more important, and that, although money and technology are important, they cannot be placed above life, the environment and the indigenous people, it would be different.

But, that is not what they say, what they say is that technology and money have to be the most important thing above life, above the indigenous people and above the environment. They place money and technology above everything and everyone, and they call that civilization, progress and development.

And one thing also happens with those conservatives who defend colonization: they often attack what is politically correct on the Left and progressivism, but when it suits them they are politically correct, like when they say that miscegenation is equality and inclusion.

When even that is not true, many mestizos hate the indigenous, many mestizos prefer what is European, and many mestizos replace and displace the indigenous.

I am against political correctness because nature is not politically correct, and with this I am not defending Social Darwinism and I am not using the naturalistic fallacy, it is simply that the reality of nature and the universe is not politically correct, Ecosystems are meant to be inhabited by different species and not all species can live in the same ecosystems.

For this reason, I oppose this ideology of equality because it annuls and makes invisible the indigenous by making us believe that we are all equal, when it is not true, nature does not work that way, and by making us believe that we are all equal then they say that indigenous people should not have species rights to justify continuing to suffer invasion of territories, genocides, massacres and replacement.

Because according to the logic of the ideology of equality, if we are all equal, it does not make sense for indigenous people to have different rights, in addition to the fact that the differences in way of being, way of thinking and vision of the world are not recognized if that ideology is followed. of equality.

For this reason, the stupid Hispanists compare the criticism of mestizaje with Nazism, and I ask them where there has been an extermination of mestizos and concentration camps for mestizos, and they don't know what to answer, they only answer that you are a Nazi.

It is also that they reduce the indigenous only to the physical, for them indigenous are only physical features, in the concept of indigenous they do not include a way of being, they do not include a way of thinking and they do not include a world view.

I reject the ideology of equality because the concept of equality is something Christian and something promoted by Freemasonry, the same

Freemasonry to which Freemasons who caused and cause hatred, extermination and massacres of indigenous people belonged and belong.

The concept of equality denies nature, it denies genetic and physical differences, and following the logic of equality, someone who harms innocent people would have the same right to life as an innocent person.

Following the logic of equality: minors should not have special rights, and those who suffer from disabilities should not have special rights. This is how the equality that Christians, Hispanists and Freemasons talk about becomes a tyranny.

By denying differences, the ideology of equality gives space for injustices and atrocities to be committed as it denies differences that are part of nature.

Nature is not equality, nature is diversity, ecosystems do not function under the logic of equality because if they function under that logic all species could live in the same ecosystem and that is not the case.

If nature operates under equality, different species from different ecosystems could live together without problems and that is not the case, it always happens that when species from an ecosystem invade ecosystems to which they do not belong, there is a replacement and displacement of the species that suffered the invasion of their ecosystem by the invasive species.

The reality is that nature does not work the way conservatives, politically correct Christians, Freemasons, and New Ageists would like it to. We must accept that in nature there are irreconcilable differences, and that nature is not all love and peace. Nature is not perfect and will never be perfect. Perfection does not exist.

Perfection is just a Judeo-Christian myth, in fact, it is a word that should not exist.

Another thing that Hispanists always use is to mention traitorous indigenous people who collaborated with the colonizers, but those traitorous indigenous people were only 1% of the indigenous people and there are still traitorous indigenous people in the present, and they are only the minority of the indigenous people.

It is logical that, if we exist 1% of mestizos, creoles, Europeans, blacks who are not indigenous, mulattoes, zambos and Asians who are not indigenous that we make a difference to the majority.

Logically, there will also be those exceptions within the indigenous people, there will also be 1% of indigenous people who are traitors and who hunt for pleasure or who dedicate themselves to livestock raising bulls and cows brought by the European colonizers.

Exceptions exist in everything and using exceptions as an argument makes no sense. Mutations are also part of nature, and mutations and exceptions are the same.

Also when Hispanists mention indigenous ethnic groups that allied themselves with the colonizers to defeat the Incas and Aztecs, they never mention that those ethnic groups were deceived and they never mention that after they helped the colonizers defeat the Incas and Aztecs, those other indigenous ethnic groups They also suffered repudiation, hatred and contempt from the colonizers, the colonizers only used them as objects for their purposes.

Those Hispanists say that Isabel la Católica and that the laws of Burgos defended the indigenous people, what they do not say is that those laws said that the indigenous people would only have rights if they converted to Christianity and submitted to the will of the European royalty, and that the laws of Burgos allowed that in the encomienda and the mitas the indigenous people would be punished with lashes if they showed disobedience.

They say that miscegenation was implemented because they did not hate the indigenous people, which is absurd because the mestizos were always taught to hate the indigenous people, to have the same way of being as the Europeans and to hate the way of being of the indigenous people, to have the same way of thinking as the Europeans and to hate the way of thinking of the indigenous people, to have the same vision of the world as the Europeans and to hate the vision of the world of the indigenous people, and to have a concept of beauty that revolves around white and European.

Hispanicists say that indigenism is victimhood, they are so ignorant that they do not know the meaning of victimization and victimization is when someone pretends to be a victim without being one, in the case of indigenous people they continue to be victims to the present.

But what the Hispanists do with Spain, with the Spanish and with the Europeans is victimization because Spaniards, Spain and Europeans in general have never suffered invasions, have never suffered extermination policies and have never suffered replacement by other ethnic groups.

And finally, these Hispanicists are so stupid that they believe that attacking colonization is attacking only the Spanish and Spain.

When attacking colonization is attacking all colonization equally, both the colonization of the countries that currently speak Spanish and the colonization of the countries that are currently known as Brazil, the United States and Canada, and it is also attacking the colonization of Siberia by the Slavs, and the colonization of Asia, Australia and Africa alike.

But they believe that all of us who attack colonization focus only on the colonization carried out by the Spanish colonizers, and they believe that we only attack the colonization that occurred in the past, when we also attack the colonization that occurred in the present.

Also, how they see that the indigenous people speak of resistance to defend their territories, their rights, their beliefs and customs.

They also talk about Hispanic resistance, which is ridiculous because Hispanics have never suffered invasion of territories, they have never suffered policies of extermination and replacement, they have never suffered prohibition of their beliefs and they have never suffered prohibition of their customs.

They say that miscegenation occurred voluntarily, and that many indigenous people and Europeans married voluntarily; it is ridiculous to talk about something voluntary in a context where there was pressure that the mestizos had better treatment and greater privileges than the indigenous people.

Obviously in a context where mestizos are treated better and with greater privileges than indigenous people, it cannot be said that mestizaje was voluntary, being something that occurred under the pressure that mestizos were treated better and with greater privileges.

They themselves accept that the criollos were treated better and with more privileges than the mestizos, because those Hispanists always contradict each other on something, but, although it is true that the criollos were treated better than the mestizos, it is also true that mestizos were treated better than indigenous people.

They almost always mention the Incas, the Aztecs and the Mayans, when there were thousands of different ethnic groups throughout the continent and they all suffered from colonization.

The other issue is that when they mention writers who defend colonization in books, if anyone looks up who are the authors of those books where the colonizers are placed as 100% good and the indigenous people as 100% bad, all of those authors are from the Right, Neoliberals or Libertarians and Christian religions such as Catholicism.

If these books were neutral and, for example, mentioned both the good and bad parts of the colonizers, and both the good and bad parts of the indigenous people, without justifying colonization, and simply mentioning the good and bad of both, they could be considered objective, but that is not the case, because for them the colonizers were always the best and the indigenous people were the worst.

And something that makes me very angry is that I have asked all the whites and mestizos this question:

Who do you consider to be suffering from racism?

And everyone answers me that black people, none of those I have asked have thought about the racism that indigenous people suffer.

When I criticized a white woman about the damage that white people do, she told me that I'm right, they have done a lot of damage to black people. At no time did she think about the damage they did to the indigenous people and the damage they continue to do to the indigenous people in the present.

What I did was ask them:

Who suffers from racism?

Who have white people hurt?

I did not mention the word black or indigenous.

And when I did not mention either of the two words, most of them responded that black people are the ones who suffer racism and who white people have hurt. At no time did they mention indigenous people in the response.

Obviously, many mestizos are hypocritical because they claim to be proud of their indigenous roots if someone mentions indigenous people to them, obviously they include the indigenous people in the answer.

But, if someone doesn't mention indigenous people to them, they don't even remember that they exist and when I asked them that, they only have black people in mind, the vast majority, Because it may be that a small percentage does mention the indigenous people when they are asked those questions, but the vast majority will not mention them.

They may even mention mestizos or immigrants, but not indigenous people. Or it could be that, if you ask them about white people, they will tell you: don't generalize white people because that's how they are, they defend those who have never been victims of oppression.

You can do the experiment, the questions would be:

1- Who suffers from racism?

2- Who have historically been harmed by white people?

3- Who suffers discrimination?

With the second question, it is possible that if it is asked to white people, and even more so if they are European, they may be offended or be taken for granted by their great fragility, but I am white and I ask that question myself.

It is so that they can see how many white people, without being victims of oppression and without having suffered everything that indigenous people suffer, become victims, take the question very personally and feel addressed.

Also, if a small percentage in the second question includes indigenous people in the answer, you can ask them:

4- And only white people discriminate and harm indigenous people?

And I am sure that in that small percentage that includes indigenous people, the majority will answer that only white people. Another question only for those who include indigenous people:

5- Do you consider that the phrase that miscegenation is improving the race is a phrase of hatred towards indigenous people?

And most will answer no.

And another:

6- What are the differences between indigenous people and people who are not indigenous?

The majority will never think about the humble and simple way of being of the indigenous people, that they are not consumerists and that in their vision of the world they respect nature more. What they will answer is that there are no differences.

To the question:

7- What does it mean to be indigenous?

Surely the majority refer only to the physical part or respond with stereotypes and prejudices.

Other questions that may include:

8- What does your ideal of beauty consist of?

9- Do you consider that the genocide and extermination of indigenous people is only a thing of the past?

10- What do you think of the indigenous people?

With mestizos, I have no problem recognizing that the majority of mestizos are bad when I am mestizo. And I have no problem recognizing that most white people are bad when I am white.

But the clowns, who are many Europeans, take it as a personal attack and find themselves referred to when it is said that the majority of Europeans and whites are bad or when the colonizers are condemned because they feel like colonizers.

And if I hate something about the majority of Europeans and the majority of Argentines, it is that arrogance, that egocentrism and that narcissism, that superiority complex and believing that they are the best in everything.

I imagined for a moment that a video game company invented a video game based on murdering whites, mestizos or blacks and mulattoes, I assure you that this company would have a million-dollar lawsuit, there would be a worldwide boycott and probably the owners of that company would go to prison.

But, if there are video games based on murdering indigenous people and video games that pay homage to the United States army, and they are not sued for that, there is no worldwide boycott and the owners of the company that makes them do not go to prison.

And they make these video games because they know that hatred of indigenous people is normalized, that for the majority indigenous people do not exist and they see them as less than garbage, and that the United States is allowed everything.

It's like the movies and series that pay homage to cowboys, the United States Army, and the colonizers who murdered indigenous people. They do them because they know that for the majority the lives of the indigenous people do not matter, and that in the majority there is a conscious or unconscious hatred of the indigenous people.

But, if someone made a film paying homage to the Europeans who enslaved black people, the company that made that would have a million-dollar lawsuit, a worldwide boycott, and the producers would probably go to prison.

For example, those disgusting Apocalypto movies, Cannibal Holocaust I, Cannibal Holocaust 2: The Catherine Miles Story where it is implied that all indigenous people made human sacrifices, that all indigenous people were cannibals, that all indigenous people were sexists and that all the indigenous people raped women in groups.

Most people think that's great and they love seeing that garbage. And the most disgusting thing is that in some of these films the hatred of indigenous people is eroticized or sexualized (sadism).

And look how many enjoy cowboy movies and the United States Army murdering indigenous people, and many even dress up as cowboys and think it's excellent to defend these criminals.

But, if an entertainment company made a movie where it implied that all white people are murderers and rapists, that movie would have million-dollar lawsuits, there would be a worldwide boycott, and both the producers and those who promote and enjoy it would be would lead to prison.

Imagine if a company arose that created a fiction film where it was the indigenous people who exterminated the whites, the blacks, the mulattoes and the mestizos, and groups emerged on the internet that claimed that they loved the film, it would be something that would be repudiated and condemned by the media such as television, by the majority, by those Right-wing and Neoliberal Youtubers, and by those who invent conspiracy theories.

And then the clowns would go and invent a conspiracy theory that says that the indigenous people want to replace the majority just because of a fictional movie.

Imagine if a movie comes out where white people are represented as backward, as ignorant and as primitive, and where stereotypes and prejudices are promoted that generalize and put all white people in the same bag, and groups emerge on the internet that claim that they loved the film, it would be something repudiated and condemned by the media such as television, by the majority, by those Right-wing and Neoliberal Youtubers, and by those who invent conspiracy theories.

And then the Right-wing and Neoliberal clowns who invent conspiracy theories would say that the Great Replacement theory that casts white people as victims of a conspiracy that seeks to replace them is real.

If it could be done:

Carry out a revolution throughout the continent and change the constitution of each country so that only indigenous people can be presidents, senators, deputies, police and military.

Then when this is achieved, make the indigenous people have an army with weapons equal to or more advanced than what the United States, Israel and the European Union currently have to prevent them from being invaded and colonized again.

Then once this is achieved, make the entire continent unite in a single country called Abya Yala and with a single flag.

Also, livestock farming that raises bulls, cows, sheep, goats and pigs should be prohibited throughout the continent, and soy cultivation should be prohibited throughout the continent. Neo-Nazism and Zionism alike must be condemned with the death penalty, and the apology for cowboys and colonizers must also be condemned with the death penalty.

It would be excellent if this were achieved: bringing indigenous ethnic groups from Asia and indigenous ethnic groups from Africa to this continent to live together with the ethnic groups of Abya Yala, and also bringing indigenous ethnic groups from Siberia to this continent.

Then the majority of Europeans, the majority of Creoles and the majority of mestizos who do not care about the lives of the indigenous people and are indifferent to everything that the indigenous people suffer, let them all go to live together in Europe and be prohibited from entrance to this continent.

That the zambos, mulattoes and blacks who are not indigenous, who do not care about the lives of the indigenous people and are indifferent to the life of the indigenous people, live in Africa and are prohibited from entering this continent.

And that Asians who are not indigenous, who do not care about the lives of indigenous people and are indifferent to the lives of indigenous people, live in Asia and are prohibited from entering this continent.

And that in Abya Yala: only the indigenous people of this continent live, the indigenous people rescued from Asia, the indigenous people rescued from Siberia, the indigenous people rescued from Africa, the few European immigrants who do care about the indigenous people, the few Creoles who that they do care about the indigenous people, the few mestizos who do care about the indigenous people, the few blacks, mulattos and zambos who do care about the indigenous people, and the few Asians who do care about the indigenous people.

Therefore, the ideal is for this continent to belong only to indigenous people, but the reason why there is an army made up of indigenous people throughout the continent, with weapons equal to or more advanced than that of the United States, Russia, Israel and the Union European Union, surveillance satellites 24 hours a day, every day, and anti-missile shields like Israel has, it is because obviously if this is not available, at some point the governments of the other three continents are going to repeat the colonization and invade again.

When I say that the continent belongs only to indigenous people, I don't mean that only indigenous people live, what I mean is that only indigenous people govern the continent, and that only 1% of us who, although we are not indigenous, do care about the indigenous people live.

Therefore, the ideal is to destroy those cities full of garbage, air pollution, water pollution, garbage and noise. And that these cities be replaced by indigenous villages integrated into the environment and surrounded by other nature, but that there also be bases throughout the continent for that indigenous army that works 24 hours a day to avoid invasions and avoid colonization again.

Although the ideal would be that the first step: be to destroy the United States government and its organizations such as the CIA, USAID, OAS and FBI, destroy Israel, destroy the European Union, destroy the Vatican, and turn into ashes all the Masonic lodges, all the Rosicrucian lodges, all the headquarters of the New Age sects and all the churches of Christian religions.

Then continue with the other steps mentioned above.

For me: Right-wing, Neoliberal and conservative ideologies, and the ideologies of political correctness and pacifism are sides of the same coin.

Before I knew everything I know now: for me it was revenge personified by a Greek goddess and an Egyptian goddess.

But, after putting together all the missing pieces to know everything I know now, and understanding how Greeks and Egyptians also have a relationship with everything that I am against. Now it's just revenge, without Greeks and without Egyptians.

If the revolution that I want could be made, We would have to make all those who are not indigenous on this continent, through a trap, answer certain questions where the majority recognize that they do not care about the indigenous people in order to know who is part of the majority that must be eliminated or expelled from this continent.

And these questions that would be in the trap of the survey of the entire population of the continent without them knowing that it is a trap to identify who they are like the majority would be:

1- Do you consider that the life of indigenous people has value and should be defended?

2- Have you ever defended the indigenous people?

3- What are your concepts of savage, ignorant and primitive?

4- What are your concepts of development, progress and civilization?

5- What do you think of livestock farming that raises bulls, cows, sheep, goats and pigs for meat, milk and dairy products?

And ask this question without mentioning that these animals were brought by Europeans to this continent.

6- What do you think of soybean cultivation?

7- Do you consider indigenous people as inferior, equal or superior, and why?

8- What are the differences between indigenous and non-indigenous?

9- What is the most important thing?

10- What do you think of cowboys and what do you think of colonization?

11- What is your ideal of beauty?

12- What do you think of the Christian religions?

13- What do you think of the New Age?

14- What do you think of Freemasonry?

15- Do you consider that money is more important than life and nature or do you consider that life and nature are more important than money?

16- Who are those who suffer discrimination?

17- Who has suffered damage caused by white people?

18- Do you consider that whoever harms the weakest, whoever harms the most vulnerable and who harms the innocent is strong, brave and powerful or do you consider him a coward and trash?

19- Have only white people harmed the indigenous people?

20- What do you think of people who claim that the injustices that indigenous people suffered in the past and the inquisition are black legends?

CONCLUSION

Only by making good reviews of this book and sharing it through all possible means, making videos with reviews and excerpts from this book, making reviews on internet pages and on social networks, will we achieve change worldwide.

Books like the Torah, the Bible and the Koran must be replaced by this book and my other books. Only by eliminating the most powerful governments and traditional religions, and taking over their power and technology are we going to change the world, revolution is the only way out.
